President's Corner

Don Boccinfuso

As I started to get my thoughts together for the June letter I received word of Bill Lawrence's passing after a battle with cancer. Our sincere condolences to Mary, Bill Jr and the rest of the family. My association with Bill & Mary goes back many years. I remember when I bought my unit I am in now, there was a knock on the door and Bill & Mary were there to welcome me & Lucy to the park. They got us involved in shuffleboard and many more activities including asking us to take over bingo. Bill taught me the difference between B-6 & B-9. I will miss the many talks with Bill about the park which he had a passion for. "Bill may you rest in peace".

There is not much to report on the park, from what I understand, it is pretty quiet there. The palm trees should have been trimmed in May and the roads will be black-topped in June. We will also be adding a few more wheelchair parking spots in front of the clubhouse.

In closing stay safe.

Social Committee Tidbits

Ingrid Eby

With more and more people leaving every week, the park is really becoming desolate. The few of us that are still here, now have Saturday Coffee Klatch at various restaurants in the area. We rotate to a different venue every week. Not only does it offer a different scenery but also a diversity of menus. Attendance varies between ten and fifteen. It's a good way to keep up with what's going on.

On the flip side of less people-- there seems to have been an explosion of wild life. The bunny population has increased dramatically. There are bunnies out all during the day and every where you look. On my morning walk I was joined by a possum. He or she didn't seem to mind that I was there. We have lots of black birds and red headed wood peckers that keep pecking the gutters in the morning giving us a wake-up call. I wonder if they are trying to sharpen their beaks.

The weather has been outstanding. It is nice and warm during the day but the mornings and evenings are very pleasant for walks or bike rides. The cool breeze at night makes it so nice to sleep with the windows open. It also sounds like the weather up North is finally starting to warm up.

NEWS AND NOTES

It seems this is the year for a few of our residents to have some parts replaced.

Dennis Eby had a total hip replacement on April 10th. He had a few rough days in the beginning but is almost back to normal. Prayers were answered for his speedy recovery.

Bonnie Nemecek received a new knee on April 16th. She is doing very well and Bob is being the care giver. We pay for her continuing recovery.

Santo Amenta acquired his new hip May 1st. and is doing very well. This is Santo's second hip replacement so he knew what to expect as did Judy as the care giver. We pray for his recovery.

On May 11th Ilva Petrucelli will also receive a new knee. We pray that all will go well for her and her recovery will be speed.

Nancy Bulmer is now back in Michigan and receiving physical therapy. We pray that she will be off the walker soon.

Ginny Tracy was in the hospital with pneumonia. She is now at Wright's facility for re-hab. She is doing well and just has to regain her strength. Praying for Ginny's progress.

I was hoping to be on Easy Street by now but I missed the off-ramp years ago. Ed Wallerstein

As always be safe and stay healthy

Timeless wisdom

During the celebration of his 100th birthday, a man was asked about the secret of his longevity.

“I never smoked, drank, or ate fried foods,” replied the man. He continued, “and I exercised every day for 30 minutes.”

“Well, a lot of people observe those same practices but don’t live to be 100,” someone in the crowd observed. “Why do you think that is?”

The old man said, “My guess would be they didn’t keep at it long enough.”

Ancient humans cared for others

Popular culture paints our Neanderthal ancestors as brutish and cruel, but that picture is changing, according to the Sci-News website.

Neanderthals are known to have cared for their injured people, and new findings suggest that they took care of individuals who were suffering regardless of whether their peers could repay them in any way.

For example, the remains of one male Neanderthal 25-40 years old at time of death shows that he had a variety of diseases, including tooth loss, periodontal disease, arthritis, and other long-term health conditions. His care would have required fever management, hygiene maintenance, and helping him stay with the group when it moved its camp. For the last 12 months of his life he would have been unable to contribute much to the group, but he was carefully buried after his death.

The evidence suggests that “organized, knowledgeable, and caring health care is not unique to our species but rather has a long evolutionary history,” one scientist states.

After 2 years of researching into new cart manufacturers, we have chosen to represent JH Global "Star Cars" line of new vehicles. They have a 14 year proven track record in manufacturing & customer service and all of their major electrical components are US made instead of imported.

Over the years we have seen numerous new carts come and go from the market, leaving customers hanging with useless warranties and no parts available.

Exercise boosts immunity in older adults

Exercise is good at any age, but scientists now think that regular exercise as you get older may help boost your immune system and prevent infections.

An article on the BBC website reports that scientists in the United Kingdom tracked 125 long-distance cyclists, some in their 80s, and discovered they had immune systems comparable to those of 20-year-olds.

The researchers examined the cyclists' blood for T-cells, which aid the immune system in fighting off infections. The long-distance riders had the same level of T-cells as adults in their 20s, but a similar group of older adults who were less active produced fewer T-cells.

The research suggests that increased physical activity can also help older people respond better to vaccines for such infections as the flu.

These foods keep your brain healthy

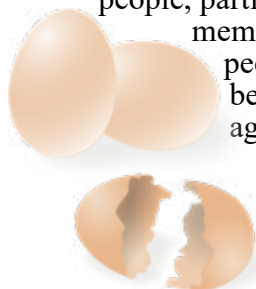

Some foods help keep your heart in shape. Others help your bones. What keeps your brain and memory healthy? The CNN website offers this list of what to eat to maintain a healthy brain as you grow older:

- **Berries.** Studies suggest that eating at least a half-cup of blueberries, or one cup of strawberries, on a weekly basis may help stave off cognitive decline. Berries have anthocyanidins, whose antioxidant and anti-inflammatory effects may keep the brain in shape.

- **Green leafy vegetables.** One study of almost 1,000 adults found that a daily serving of spinach, kale, collard greens, or arugula appeared to maintain cognitive health to the extent that participants were considered to be 11 years younger than people who rarely or never consume such veggies.

- **Eggs.** Eggs contain choline, which is an important brain nutrient. In a study of 1,400 people, participants with high intakes of choline scored better on visual and verbal memory tests than those who ate less foods with choline. In addition, people with a high intake of choline over the long term seem to have better MRI brain scans, suggesting that choline may protect people against dementia.

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"
