FROM THE PRESIDENT

Well, it certainly has been an eventful month!
We are experiencing our first steps back to normal and entering down this path we have to be cautious and mindful that this pandemic is not anywhere near over.

This Board of Directors, to a person, takes a great deal of time out of their lives to make decisions that we believe are in the best interest of the Park. We make decisions based on all information that we have before us. We strive to keep everyone informed on major issues and realize there will be times when residents may not always be in a position to have all of those facts. Certainly, everyone is entitled to be kept informed and all are entitled to an opinion. You can and should voice that opinion. I believe we offer many venues for residents to do that. There is the ARF, e-mails and/or phone calls to the office. You can attend a Board meeting or a Town Hall. You can call and make an appointment to meet with Board members in the office. We have a website and Park information is on One Source.

What I know for sure is that if you ask you will get answered. I guess the problem lies in sometimes we just don't like the answer.

Months of "social distancing" has certainly taken its' toll. For some it's making cookies for neighbors, or sharing beautiful park photos or handing out ice cream. Unfortunately for others it is rising up and behaving in a manner I never thought I would see in our Park.

Seeing a group of residents not wearing masks, not maintaining the six-foot social distancing, congregating in a group larger than ten, banging on the door and window and demanding to be let in, raising their voices and shouting threatening remarks is simply not acceptable behavior. It will be dealt with in a manner appropriate to the situation.

The pandemic has made it difficult to operate in the manner we have become used to, it's up to all of us to adapt and endure.

Hang in there!
Donna Thorn

FROM THE EDITOR

The world as we knew it in January and February has certainly changed and will quite likely never return to its former state completely. Some things we will miss and some will, hopefully change for the better. Whatever happens will require compromises and adapting in order to survive happily in this new reality. It seems that every generation has had to cope with situations that caused many changes. Now it is our turn. What will our descendants say about how we dealt with the restrictions imposed by our governments to keep everyone safe and cared for during this pandemic? Let us hope that they respect the steps that were taken and admire how well we handled the numerous disruptions to our lives.

I have seen and heard so many examples of people who have stepped up to help others and provided positive ways to deal with the unwanted restrictions. My thanks and admiration go to everyone who has helped make this situation a bit more tolerable.

DID YOU KNOW?

DID YOU KNOW?

In Japanese schools, students don't get any exams until they reach the fourth grade. Why? It's because the goal for the first 3 years of school is not to judge the student's ability to memorize, but to establish good manners and to develop their character. Japanese scholars teach manners first and foremost.

DID YOU KNOW?

Giraffes will spend about 70% of their day eating.

DID YOU KNOW ?

WHEN TREATING A HEART ATTACK OR STROKE, TIME IS OF THE ESSENCE. EVEN DURING THESE TIMES.

Don't hesitate when it comes to getting emergency treatment.

Even during a pandemic, you still need to be treated immediately if you have an emergency. Debating whether or not to risk going to an emergency room during a heart attack, stroke or other health emergency—waiting even a few extra minutes—could be harmful. That's why in all BayCare hospital emergency rooms, patients who have symptoms of COVID-19 are screened and treated in a separate area. This helps keep emergency room patients and our team members safe. So if it's an emergency, don't wait. **For more information:** [BayCareEmergencyCare.org](https://www.BayCareEmergencyCare.org)

I have always enjoyed reading local authors. I find it fun and interesting to read about places I'm familiar with in stories. I compiled a list of a few Florida authors and titles you may want to try. This list is far from complete and I haven't read them all. If you try one, drop me a note and share your impressions.

Ask Mike

IS IT PERMITTED? That's an interesting question that involves two different authorities, Clearwater Cascade Homeowners' Association and the City of Pinellas Park. CCHOA has a number of rules about what may or may not be done to your residence without approval and they are contained in the Rules and Regulations. The City of Pinellas Park also has many rules about what may be done, without a permit, and a much longer list outlining what jobs require a permit. Repairs that might be considered easy, do-it-yourself jobs in Northern New York require a permit here in Pinellas Park. Getting a permit also generally requires a licensed contractor be involved to perform the work. No income tax means the state must find other sources of income and licensure and permits are two ways.

If you are interested in what jobs require a permit, go to www.pinellas-park.com/617/Permit-Needs.

For a much shorter list, look at www.pinellas-park.com/619/No Permit-Required. That's a list of jobs that don't require permits. It's always good to know what you're getting into.

Continued on page 12

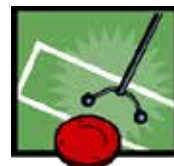

REMEMBER: YOU MAY NOT MAKE ANY CHANGES TO THE OUTSIDE OF YOUR UNIT WITHOUT FILLING IN AND SUBMITTING AN ARCHITECTURAL REQUEST FORM AND GETTING APPROVAL FROM THE OFFICE. THIS INCLUDES PAINTING, PLANTING TREES, ADDING AN AWNING AND ANYTHING ELSE THAT ALTERS THE OUTSIDE OF THE MOBILE HOME.

FROM THE MANAGER

By: Jane Jarlenski, CMCA, AMS, PCAM

MANAGER

June 21st - Happy Father's Day to all our fathers!

Park Patrol –Reminder: Park Patrol has a new phone number - 727-400-1928.

Pets & Support Animals – To those residents that submitted their updated pet vaccinations to the office after reading the May Manager's Message, thank you. If you have not supplied the office with update vaccination records, please do so as soon as possible. By providing a copy of your pets most recent vaccination records, you will help save money on letters not to mention the required postage to send letters.

Access Control System – Our new Access Control System is fully active and we have begun creating the new ID Key Badges. Residents will need an ID Key Badge in order to open the doors to the common area facility. Residents should call the office 727-544-8111 to make an appointment to have their picture taken and obtain their ID Key Badge.

Storage Compound – The effective date for the Storage Compound's monthly fee increase has been extended until August 1st.

Hurricane Season - Hurricane Season has begun and will continue through November 30th. As a reminder, all mobile home residents are required to evacuate. Emergency services will not respond to calls when wind speed reaches 35 mph. Now is the time to stock up on essential supplies.

Clarifying the Manager's Role

Clearwater Cascade employs a highly-qualified professional community manager, and we think residents should know what the manager has—and has not—been hired to do. The manager has two primary responsibilities: to carry out policies set by the board and to manage the association's daily operations.

Some residents expect the manager to perform certain tasks that just aren't part of the job. When the manager doesn't meet those expectations, residents naturally are unhappy. Since we want you to be happy, we're offering a few clarifications to help you understand what the manager does.

- The manager will not get involved in quarrels you might be having with your neighbor. However, if association rules are being violated, the manager is the right person to call instead of a board member.
- While the manager works closely with the board, she is an advisor—not a member of the board.

MOBILE HOME SPECIALISTS

- Although the manager works for the board, she is available to residents. That doesn't mean the manager will drop everything to take your call. If you need to see the manager, call and arrange a meeting and be sure to wear a mask if you visit the office.
- The manager is always happy to answer questions, but she is not the information officer. For routine inquiries, like the date of the next meeting, please read the newsletter, check the association website, One Source or the bulletin boards.
- The manager is responsible for monitoring contractors' performance, but not supervising them. Contractors are responsible for supervising their own personnel. If you have a problem with a contractor, notify the manager, who will forward your concerns to the board and the board will decide how to proceed under the terms of the contract.
- The manager inspects the community from time to time, but even an experienced manager won't catch everything. Your help is essential. If you know about a potential maintenance issue, report it to the office.
- The manager does not set policy. If you disagree with a policy or rule, you'll get better results sending a letter or e-mail to the board than arguing with the manager. We hope this clarifies the role of our manager.

June Days

National Cancer Survivors Day, June 7. Thousands worldwide speak up to honor cancer survivors and to show the world that life after a cancer diagnosis can be fruitful, rewarding, and even inspiring.

World Oceans Day, June 8. For 2020, World Oceans Day is calling on world leaders to protect 30% of our blue planet by 2030. By safeguarding at least 30% of our ocean through a network of highly protected areas, we can help ensure a healthy home for all.

Flag Day, June 14. Fly Old Glory proudly!

Father’s Day, June 21. Celebrate your father and all fathers everywhere.

World Rainforest Day, June 22. This global event celebrates this precious natural resource and encourages action to preserve it. Your efforts, together with those of others, will benefit rainforests and the climate worldwide.

Fun facts about your Father’s Day gift

Father’s Day is June 20 this year, and the 65 million fathers in the United States (give or take a few million) will bask in familial attention and be showered with gifts—mostly neckties.

The modern necktie evolved from the small, knotted neckerchiefs worn by Croatian mercenaries working for the French in the Thirty Years’ War. The word cravat derives from a combination of the French “Croate” and the Croatians’ own name for themselves, “Hrvati.”

With the rise of the business class in the 19th century, demand grew for neckwear that was durable, comfortable, and easy to tie.

In 1926, a New York tie maker named Jesse Langsdorf developed a technique that improved the tie’s elasticity, which allowed it to revert more easily to its original shape. The “Langsdorf” became the most popular form of necktie.

Since then, ties have widened as far as 4.5 inches and thinned to three inches (or skinnier) depending on the current style, but they seem to be here to stay.

Happy Father’s Day
