## October Monthly

**American Pharmacists Month.** American Pharmacists Month promotes awareness of the many services pharmacists offer beyond the safe distribution of medications. These services include seasonal and lifespan immunizations; medication reviews to assess safety, effectiveness, interactions, and adherence; care management and counseling for disease states such as diabetes, high blood pressure, and high cholesterol; and smoking cessation counseling.

**Blindness Awareness Month.** Blindness Awareness Month is dedicated to taking the discussion of all things sight-related to the forefront of the public. It is about having good eye health as well as discussing blindness and visual impairment as a whole.

**National Animal Safety and Protection Month.** Our pets can't tell us what hurts, so it's crucial to understand what behavior and signs suggest that your pet may not be feeling 100% and what is normal. Breathing rate, dehydration, and temperature are all things to keep an eye out for.

**National Substance Abuse Prevention Month.** An observance that highlights the vital role of substance abuse prevention in both individual and community health—and to remember those who have lost their lives to substance abuse. The Office of National Drug Control Policy encourages prevention efforts this month and all year long to ensure the health of teens and young adults.

*The one permanent emotion of the inferior man is fear—fear of the unknown, the complex, the inexplicable. What he wants above everything else is safety.*

## Bringing people to the center

Shortly after being forced out of Apple Computer, Steve Jobs bought a small computer manufacturer named Pixar. In 2000, he relocated the company to an abandoned factory. The original plan called for three buildings, with separate offices for computer scientists, animators, and the Pixar executives.

Jobs immediately scrapped it. Instead of three buildings, he wanted a single vast space with an atrium at its center.

As Pixar's Ed Catmull explains, "The philosophy behind this design is that it's good to put the most important function at the heart of the building. Well, what's our most important function? It's the interaction of our employees. That's why Steve put a big empty space there. He wanted to create an open area for people to always be talking to each other."

Jobs saw separated offices as a design problem. He shifted the mailboxes to the atrium, then moved the meeting rooms, cafeteria, coffee bar, and gift shop to the center of the building. "The atrium initially might seem like a waste of space," says director Brad Bird. "But Steve realized that when people run into each other, when they make eye contact, things happen."

Jobs insisted that the best creations occurred when people from disparate fields were connected, especially in an age of intellectual fragmentation.

## When you plant a tree every day

What used to be a landscape devastated by erosion is now 1,360 acres of forest, and it's all thanks to one Indian man named Jadav Payeng. Jadav planted a tree every single day for 40 years, and now this man-made forest is bigger than Central Park. This incredible forest is also home to hundreds of elephants, rhinos, boars, reptiles, and birds.

This botanical enthusiast says he is planning to plant trees until his "last breath." "Nature is God. It gives me inspiration. It gives me power ... As long as it survives, I survive."

If you want to learn more about this hero, check a short documentary at <https://www.youtube.com/watch?v=HkZDSqyE1do>.

## Halloween is scarier than usual this year

The COVID-19 pandemic has cancelled lots of celebrations and events this year—including possibly Halloween. Many communities are weighing the risks of letting children go trick-or-treating from house to house collecting candy.

Costumes and going door-to-door for treats can be traced back to pagan and Christian rituals from the Middle Ages. Trick-or-treating became an established fixture of American popular culture in the 1950s, when Walt Disney produced a cartoon called “Trick or Treat,” and an episode of the popular TV show *Ozzie and Harriet* showed children overwhelming the Nelson household in search of candy.

The Insight to Action website reports that 70% of parents plan to celebrate Halloween with their kids in 2020. Sixty percent of consumers expect their Halloween spending in 2020 to be the same as last year, about \$89.

How can you celebrate safely? Consider these options from the Retail Me Not website:

- **Decorate your home.** Spooky lanterns, carved pumpkins, cobwebs, and hanging skeletons can still induce that thrill that makes Halloween so enjoyable.

- **Zoom parties.** Host a costume party via Zoom. Invite friends and kids to show up in their scary costumes and display their creativity.

- **Trunk-or-treating.** Some communities are organizing events in schools, church parking lots, or neighborhood driveways. Trunks are filled with candy, so kids can go trick-or-treating from car to car. Keep plenty of responsible adults on hand to supply hand sanitizer as costumed children collect their goodies.

- **Drive-in movies.** With indoor movie theaters shut down for the duration, drive-ins are experiencing a renaissance. Older kids may enjoy being creeped out by *Night of the Living Dead*, *A Nightmare on Elm Street*, or even (obviously) *Halloween*.

*We make up horrors to help us cope with the real ones.*

## Hurts all over

---

A retired man went to the doctor and said, “Doc, I ache all over. Everywhere I touch it hurts.”

The doctor replied, “OK. Touch your elbow.” The guy touched his elbow and winced in genuine pain.

The doctor, surprised, then said, “Touch your head.”

The guy touched his head and jumps in agony. The doctor asked him to touch his knee and the same thing happened. Everywhere the guy touched hurt a lot.

The doctor was stumped and ordered a complete examination with full-body X-rays. He told the man to come back in two days.

Two days later the man came back and the doctor declared, “We’ve found your problem.”

“Oh, yeah? What is it?” asked the retiree.

“You’ve broken your finger.”

## Laughing gas

---

Hate going to the dentist? These jokes may ease the pain:

A little boy went to the dentist, who found a cavity that had to be filled. “Now, young man,” asked the dentist, “what kind of filling would you like for that tooth?”

“Chocolate, please,” replied the youngster.

Young man: “My dentist said bacon and soda are just as good as toothpaste.”

Parent: “That’s ‘baking soda.’”

If I brushed my teeth with half the energy I do 15 minutes before going to the dentist, I’d never have a cavity.

*The person who can bring the spirit of laughter into a room is indeed blessed.*

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."
