Happy Puppy

Our pets make us happy, or we wouldn't have so many of them. Thirty-three percent of U.S. households have a dog, 11% have a cat, and 14% have both. The 2018 General Social Survey looked at the connection between pets and overall happiness.

The survey found that 36% of dog owners describe themselves as happy, and 18% of cat owners said the same. (Twenty-eight percent who have both a dog and a cat agreed)

Does that mean you'll be a happier person with a dog as opposed to a cat? Not necessarily. The survey found that dog owners are more likely than cat owners to be married and own their own homes, two factors that influence happiness and life satisfaction. Dog owners are more likely to engage in outdoor physical activity, another factor in overall happiness.

Whatever kind of pets you have, enjoy them and they'll bring you lots of happiness.

Santa by another name

Santa Claus has been a fixture of Christmas for centuries. But he goes under many different names: Kris

Kringle, St. Nicholas, Father Christmas. Here's what the "jolly old elf" is called around the world:

- Brazil: Papai Noel
- China: Shengdan Laoren
- Hungary: Mikulas
- Italy: Babbo Natale
- Netherlands: Sinterklaas
- Portugal: Pai Natal
- Russia: Ded Moroz
- Sweden: Jultomten
- Turkey: Noel Baba

One-liners

A few jokes for when you want to lighten the mood:

- I asked God for a bike, but I know God doesn't work that way. So I stole a bike and asked for forgiveness.
- I want to die peacefully in my sleep, like my grandfather. Not screaming and yelling like the passengers in his car.
- Light travels faster than sound. This is why some people appear bright until you hear them speak.
- If I agreed with you, we'd both be wrong.
- The evening news is where they begin with "Good evening," and then proceed to tell you why it isn't.

There is nothing in the world so irresistibly contagious as laughter and good humor.
—Charles Dickens

Monthly Memos

National Drunk and Drugged Driving Prevention Month. Drinking and driving can make the holiday season deadly for drivers, passengers, and pedestrians. National Drunk and Drugged Driving Prevention Month seeks to spotlight the dangers of driving under the influence of alcohol, drugs, or both. According to the National Safety Council, more than 40,000 people died in alcohol-related traffic accidents last year, so this year, stay safe during the holidays.

- **National Safe Toys and Gifts Month.** In recent years, the U.S. Consumer Product Safety Commission (CPSC) has created a robust toy safety system, requiring testing by independent, third-party laboratories around the world, imposing some of the most stringent toy standards in the world, and more. These combined efforts continue to foster the confidence of American families as they prepare to shop for toys this holiday season.
- **National Tie Month.** December is the month to honor the most required yet maligned strip of cloth that's an essential part of business attire—the necktie. Neckties give people the chance to add a little spice to their classy, professional look. A nice necktie speaks volumes about a person's sense of style and even gives people a little look at his or her personality. So this month, give a little extra respect to the people who are professional, classy, and trendy in their favorite ties.

Awareness Week

National Handwashing Awareness Week, Dec. 1–7. Avoid colds and flu during the winter months by following the four principles of hand awareness: Wash your hands when they are dirty and before eating; don't cough into your hands; don't sneeze into your hands; and above all, don't put your fingers into your eyes, nose, or mouth.

- **Older Driver Safety Awareness Week, Dec. 2–6.** Older Driver Safety Awareness Week aims to promote understanding of the importance of mobility and transportation to ensuring older adults remain active in the community—shopping, working, or volunteering—with the confidence that transportation will not be the barrier stranding them at home.
- **Kwanzaa, Dec. 26–Jan. 1.** A weeklong celebration observed in the United States as well as other countries with populations of African descendants, Kwanzaa is a holiday that honors African culture in not only the African American community but also in the world African community.

Life it is not just a series of calculations and a sum total of statistics; it's about experience, it's about participation, it is something more complex and more interesting than what is obvious.

Da Vinci's bridge design would have worked

Leonardo da Vinci is known for such paintings as “Mona Lisa” and “The Last Supper,” but he was also a masterful engineer. According to the LiveScience website, in the 16th century he designed what would have been the longest bridge in the world at the time, connecting Constantinople to a nearby area called Galata over the Bosphorus Sea. He was responding to a request for proposals from Sultan Bayezid, the ruler of the Ottoman Empire.

Da Vinci's bridge was never built, but modern researchers from MIT have built a 3D replica of the bridge, using materials and construction equipment that would have been available in the 16th century. They found that da Vinci's design, using only a single arch, would have been structurally sound, thanks to compression that would have held the bridge's stones together. Leonardo was a true Renaissance man.

Boost your thinking with Limits

Sometimes a few constraints can boost your creativity. As recounted on the Fast Company website, publisher Bennett Cerf bet one of his authors, Theo Geisel—better known as Dr. Seuss—that he couldn't write a children's book with just 50 different words. Seuss stepped up to the challenge and won the bet with his book, *Green Eggs and Ham*.

“Putting limits to encourage creativity might sound counterintuitive,” writes JotForm CEO Aytakin Tank on the website. “But the thing is, constraints encourage more divergent thinking—and you can leverage built-in limits or apply them to the project at hand. For example, sometimes we'll tell our designers that they can only have 10 elements on a product screen. These limits stretch their problem-solving abilities and typically produce surprising results.”

Four paths to inspiration

Creativity calls for patience and a willingness to make mistakes along the way to success. The Thrive Global website offers some advice on how to begin this sometimes difficult path:

- Anticipate the future. Look at trends instead of the status quo. What's changing, and how can you take advantage of it? This helps you challenge conventional thinking and start finding new areas to explore.
- Let yourself play. Don't take your projects too seriously. Take time to relax and do something different. When working, give yourself the freedom to try something new and outlandish. Even if it leads nowhere, it should loosen up your mind so you can spot new possibilities.
- Let your mind wander. Focus is important, but so is a wide perspective. Think about the project you're working on, and allow your mind to explore all the angles without worrying about what's “right.” A wandering mind will sometimes come across a useful idea.
- Embrace ambiguity. Look at elements that don't seem related, and try to forge connections in your mind. Looking for similarities instead of differences can help you link ideas usefully and develop more options than what's immediately apparent.

A strange thing, words. Once they're said, it's hard to imagine they're untrue.
—Lauren DeStefano

Creativity

Inventive women from history

Some of the most common things we use every day were invented by creative women. Here are a few, gathered by the Mental Floss website:

- Circular saws. Tabitha Babbit, a weaver in a Shaker community, suggested that instead of a two-man pit saw that worked only when being pulled forward, a circular saw would be more efficient. She attached a prototype to her spinning wheel in 1813 and filed a patent thereafter.
- Paper bags. Margaret Knight created the modern, flat-bottomed paper bag in 1868. Before then, paper bags looked like envelopes. A man tried to steal the idea and file a patent, but Knight filed a lawsuit and won the rights to her creation.
- Windshield wipers. Mary Anderson invented the first manual windshield wipers in 1903. They didn't take off because most drivers thought it was safer to simply drive through rain and snow than keep pulling a lever to clear it. Another woman, Charlotte Bridgwood, invented an automatic version in 1917, but it wasn't accepted either. Still, by 1920 windshield wipers were everywhere, starting with Cadillac, which began installing them on all its cars.
- Liquid paper. A secretary named Bette Nesmith Graham corrected her typing mistakes with white tempera paint. After years perfecting the formula in her kitchen, she patented Liquid Paper in 1958. Gillette bought her company in 1979 for \$47.5 million.
- Kevlar. This lightweight material will stop a bullet. It's five times stronger than steel. A chemist named Stephanie Kwolek discovered it by accident in 1966 as she was trying to develop a lightweight fiber for car tires.

The writer must have a good imagination to begin with, but the imagination has to be muscular, which means it must be exercised in a disciplined way, day in and day out, by writing, failing, succeeding, and revising.

—Stephen King
