## From the Office of Crosswinds.....

---

**H**ello By the time this edition of the Chronicle reaches you, Crosswinds will have had their General Co-Op Annual Meeting held on January 20, 2017.

We would like to welcome both past and present Board of Director Members to the Co-Op Board and thank you for your generous gift of time.

As a reminder: Carports, patios and screen in areas should be kept orderly, neat and clean of debris. Please look around your mobile, residents are responsible for the overall appearance of their mobile home sites. These areas should only have outdoor style furnishings and items in view. The office will be doing inspections of carports this month. Please remove any unnecessary items to avoid those pesky violation notices.

Don't miss an issue: You can view the monthly Chronicle on line at [www.monthly-media.com](http://www.monthly-media.com)

Happy Valentine's Day!  
John McNaughton  
Manager &  
Bethany Bever  
Office Assistant – Management Team  
Faye Trompeter – Office Assistant

## Homeowner's Association Meeting

---

**T**he Homeowner's meeting will be held on Friday, February 10, 2017 at 10:00AM in the Large Hall.

If you are a Homeowner of Crosswinds you pay lot rent of \$390 monthly to the Crosswinds Association.

This is your Annual Meeting and this is your time to bring concerns or questions to your Board of Directors. Usually the park's manager, John McNaughton or a member of the Co-Op Board of Directors is present at the meeting to answer any concerns you may have.

Please plan to attend this meeting if you are a Homeowner.

## What chapter was that?

---

A minister told his congregation, “For next week’s sermon, I would like everyone to read the 17th chapter of Mark from your Bible. This will help you fully understand my topic on an important sin.”

The following Sunday, the minister opened his sermon with, “Now, how many of you have read Mark 17 this week as I asked?” Nearly all the hands went up.

The minister smiled. “Mark has only 16 chapters. I will now proceed with my sermon on the subject of lying.”

## How many cats?

---

Teacher: “If I gave you two cats, and another two cats, and then another two, how many would you have?”

Johnny: “Seven.”

Teacher: “No, listen carefully. If I gave you two cats, and another two cats and another two, how many would you have?”

Johnny: “Seven.”

Teacher: “Let me put it to you differently. If I gave you two apples, and another two apples and another two, how many would you have?”

Johnny: “Six.”

Teacher: “Good. Now if I gave you two cats, and another two cats, and another two, how many would you have?”

Johnny: “Seven!”

Teacher: “Johnny, where do you get seven from?”

Johnny: “Because I’ve already got a cat!”

## Cities encourage healthy lifestyles

---

Cities are doing their part to help people stay healthy and physically fit, adding bike paths, parks, public transportation options, and “walkability.” According to Healthways, which uses scientific means to measure and encourage healthy behavior, the cities with the highest “active living environments” are:

- Boston
- San Francisco
- Chicago
- New York
- Washington, D.C.

The lowest scoring cities include Fort Wayne, Indiana; Indianapolis; Oklahoma City; and Tulsa.

## Get up and work out

---

The alarm rings. Do you leap out of bed to head for the gym? Or hit snooze and tell yourself you’ll work out tomorrow? Motivating yourself to get up and start exercising can be tough. If you give in to temptation to skip the health club more than you’d like, try these tips to get moving:

- **Watch what you eat before bedtime.** A heavy snack right before you hit the mattress will make you feel lethargic in the morning. Stick to fruit, vegetables, and lean, protein-rich foods, and don’t eat anything for at least 90 minutes before you go to bed.
- **Go to bed early.** You’ll wake up feeling refreshed and ready to work out if you get enough sleep—seven to eight hours. Limit your TV, computer, and cellphone use before bedtime so you can get to sleep easier.
- **Look forward to something.** Don’t think of exercise as drudgery. Find something you enjoy about it so you wake up excited about hitting the gym, or give yourself a reward for working out once you’re finished.
- **Find a workout buddy.** Exercising alone can be boring. Ask around your neighborhood, workplace, or health club and find someone who works out on the same schedule you do. When you know you’ve got someone waiting for you, you’ll be more motivated to show up.

## Daydreaming can be good for you

---

**D**aydreams aren't necessarily a waste of time. We daydream for different reasons, but it can have a positive affect on your life and career. Consider these facts about daydreaming from the LiveScience website:

- Daydreaming can be controlled—up to a point. Most people daydream intentionally because they're bored or working on something simple. When tasks require more concentration, drifting off is less frequent, but still happens.
- Blinking is a clue. Wonder if someone is daydreaming while you're talking? Look closely at their eyes. Studies show that people blink more often and more rapidly when they daydream.
- Daydreaming can help with problem solving. Let your mind wander when you're working on a tough problem. Scientists have observed that the areas of the brain involved in problem solving turn more active when we daydream.

## Sharpen your mind with these puzzles

---

**B**rainteasers are good for honing your creative thinking. Try these to stretch your mind:

1. You are driving a bus with nine passengers. At the first stop, three people get off and five get on. At the second stop, seven people get off and four get on. At the first stop, six people get off and two get on. How old is the bus driver?
2. You have to choose to enter one of three rooms. Inside the first room is a team of ninjas hired to kill you. Inside the second is a tiger that hasn't eaten for three months. Inside the third is a raging inferno. Which room do you enter?
3. Harry is a butcher. He started his career at age 19. He worked for nine years in Boise, Idaho, and then moved to Duluth, Minnesota, where he's been in the same line of work for 14 years. What does Harry weigh?
4. Imagine you're in a leaky rowboat that's sinking. Great white sharks are circling your boat. How do you get out of this predicament?

Answers:

1. Whatever you own age is, since you are the bus driver.
2. Room No. 2. A tiger that hasn't eaten in three months is dead.
3. Meat.
4. Stop imagining.

## Meeting of minds

---

The famous movie actor/director Charlie Chaplin once met the world-renowned physicist Albert Einstein at a public event. According to the Storypick website, Einstein told the comedian: “What I most admire about your art is your universality. You don’t say a word, yet the world understands you.”

To which Chaplin replied, “True. But your glory is even greater. The whole world admires you, even though they don’t understand a word of what you say.”

## Mistaken identity

---

Even Queen Elizabeth II sometimes goes unrecognized. A story from the Hello magazine website tells of a time when the queen’s car drove up to the Royal Windsor Horse Show in 1991. A guard walked up and told her, “Sorry, love, you can’t come in without a sticker.”

Unfazed, her majesty answered, “I think if you check, I will be allowed to come in.”

He did, and she was. The guard admitted later that he’d thought the queen was just “some old dear” who was lost.

## A little praise

---

As a speechwriter for presidents Ronald Reagan and George H.W. Bush, Peggy Noonan introduced such phrases as “a thousand points of light” into the vernacular. But she derived her greatest personal satisfaction from a simple note of praise.

As recounted in her book, *What I Saw at the Revolution* (Ivy Books), four months into her job as Reagan’s speechwriter, Noonan had yet to meet the boss. Then he returned the draft of one of her speeches bearing the hand-scrawled words “Very Good.”

Noonan was overjoyed—so overjoyed that she cut out the note, taped it to her blouse, and walked the halls beaming with the pride of a schoolgirl who’d suddenly discovered she was teacher’s pet.

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

George Lordstrom, Saint Petersburg, FL

## Monthly

---

**African American History Month.** An annual observance to recognize and commemorate African American culture, African American History Month (or Black History Month) is celebrated annually in the United States and Canada in February, and in the United Kingdom in October.

**Dog Training Education Month.** Every day of the month, perform one training activity with your dog: jumping, herding, racing, etc. By the end of the month, you'll notice an improvement in your dog's temperament, and you'll share a closer bond.

**National Haiku Writing Month.** Write one haiku a day throughout February—the shortest month for the world's shortest genre of poetry. Don't think writing a good haiku is easy, though. As French philosopher and literary theorist Roland Barthes once observed, "Haiku has this rather fantasmagorical property: That we always suppose we ourselves can write such things easily."

**Teen Dating Violence Awareness Month.** A national effort to raise awareness about abuse in teen and 20-something relationships and promote programs that prevent it. One in three teens in the United States will experience physical, sexual, or emotional abuse by a partner in a relationship before they become adults. Spread awareness, and stop dating abuse before it starts.

## Weekly

---

**Burn Awareness Week, Feb. 5-11.** Observed the first full week in February, Burn Awareness Week is intended to provide an opportunity for burn, fire, and life safety educators to share the message of burn awareness and prevention in communities around the nation.

**National School Counseling Week, Feb. 6-10.** This year's theme, "School Counseling: Helping Students Realize Their Potential," will focus public attention on the unique contribution of school counselors and highlight the tremendous impact they can have in helping students achieve school success and plan for a career.

**Children of Alcoholics Week, Feb. 12-18.** A campaign led by the National Association for Children of Alcoholics (NACOA) to raise awareness of children affected by parental alcohol problems. Children of Alcoholics Week is celebrated internationally each year during the week in which Valentine's Day falls.

**National Invasive Species Awareness Week, Feb. 19-26.** Raise awareness and identify solutions to invasive species issues at local, state, tribal, regional, international, and national levels. Participating organizations include the Association of Fish and Wildlife Agencies, the Environmental Law Institute, and the Nature Conservancy.

## An ancient mystery: How old are Saturn's rings?

---

The rings of Saturn have dazzled humans ever since they were found in the sky, but they contain many unexplained mysteries. One is how old they are. One theory states that they date back approximately 4.6 billion years; another suggests that they're just 100 million years old.

Scientists backing the younger theory contend that the rings should show more evidence of space debris from the Kuiper Belt, which would make them darker than they appear today. Proponents of the older view note that the rings were probably created by a moon or some other icy object falling apart as it passed close by Saturn, an event which doesn't seem to have happened in recent times ("recent" in astronomical terms, at any rate).

Some of the trouble comes from not knowing precisely how massive the rings are—a lighter series of rings could have formed more recently than a heavy-scale one.

The case may be solved by the Cassini space probe, which is scheduled to fly between Saturn and its rings in September 2017 on the last leg of its mission. Inside the rings, researchers can measure the gravitational pull on Cassini from both directions and compare those figures with earlier data from orbits farther out, when Saturn and the rings tugged the probe together from the same direction. Scientists are eager to know—according to the Science News website, researchers have a betting pool on the findings.

## One more reason to fear spiders? Their hearing

---

Spiders can't "hear" exactly, but they can sense and respond to vibrations in the air over relatively long distances. Until recently, scientists believed they were only sensitive to sounds from a few inches away. However, the Sci-News website reports that researchers at Cornell University have found that jumping spiders (*Phidippus audax*) can pick up low-frequency sounds from up to 10 feet away.

The spiders apparently sense vibrations through the hairs on their forelegs, which produce a response in acoustically sensitive neurons. Physically probing a single hair produced the same type of response. The jumping spiders are most sensitive to frequencies produced by the wingbeats of wasps, one of their natural enemies. Scientists plan to examine the brains of fishing spiders and wolf spiders for similar abilities.

## Smartphone use across the generation gap

---

**Q**uick—where’s your smartphone right now? A survey from YouGov Omnibus asked that question of millennials and people in other age groups to determine how connected we are to our devices. The survey found that pants pockets are the most common location across all age ranges—58 percent of millennials, 39 percent of those age 35-54, and 44 percent of people 55 and older.

But some people literally can’t let go. The survey found that more than 50 percent of millennials say they carry their phone in their hand all day long. Only 30 percent of those in the 35-54 group said the same, and 16 percent of the 55-and-older crowd joined them.

That makes durability an important issue for millennials. The survey found that 48 percent want their phones to come with shatterproof screens, water resistance, and other protective features, while only 40 percent of the middle were looking for those elements and slightly more than 25 percent of the oldest group had the same worry. For the two older groups, battery life seems to be a more important concern.

## Eating healthy: The choices we make

---

**M**ore Americans are trying to make healthier choices about the food they buy and eat these days. A study of 2,000 consumers by health food manufacturer Earth Balance looked at the foods we’re buying and why we choose them. Here’s a look at the top “better for you” selections:

- **Dairy products:** 29 percent
- **Alternative oils and fats (such as avocado, sunflower, or coconut oil):** 28 percent
- **Alternative snacks (gluten-free crackers, Greek yogurt, etc.):** 28 percent
- **“Superfoods” (such as chia, quinoa, and acai):** 28 percent
- **Plant-based proteins (lentils, spirulina, and so forth):** 18 percent
- **Wheat flour alternatives:** 12 percent
