## The rest is history

---

This is the time of year we dream big, vow to make changes, create goals, and promise to transform into a new and improved version of ourselves. Then we allow life and other responsibilities, naysayers, doubt, and fear to veer us of course.

As you follow your bliss and explore your passions, draw inspiration from the following individuals who found success in spite of the odds against them:

- **Fred Astaire.** He sang and danced his way into our hearts on the silver screen, but his first audition for a major studio was a bomb. The executives were underwhelmed by his performance and offered this critique of Astaire: “Can’t act. Can’t sing. Slightly bald. Can dance a little.”
- **Wayne Gretzky.** Widely regarded as one of the greatest pro hockey players, Gretzky was considered too slow and too small at the start of his career. The popular opinion was he’d never be a success in the NHL.
- **Sir John Gurdon.** He is a pioneer in the fields of nuclear medicine, cloning, and cellular development. Among his many honors are a cancer research facility named in his honor and a Nobel Prize. Yet Gurdon finished last in his prep school biology class because his ideas about science were not aligned with the curriculum of that time.
- **Im Dong-Hyen.** This South Korean archer has won medals and set records. He even competed in the 2004, 2008, and 2012 Olympics—despite being legally blind.
- **George Lucas.** There wasn’t a single studio in Hollywood interested in Lucas’ script for Star Wars. He endured four years of rejection before an executive at 20th Century Fox decided to give Lucas a chance—not because he liked the script, but because he liked Lucas’s film American Graffiti.

## What you know

---

A CEO was asked by a new hire for any words of wisdom that would be helpful in developing a successful career. “Never lose your sense of curiosity, and always be on the quest to learn something new,” was the executive’s reply.

“When I first started here,” the executive continued, “I never imagined that I would one day become the CEO. In fact, I wasn’t sure if the job I had was a good fit, so I worked in different departments over the course of a few years. Then I became curious, and everything I learned led me on a quest to learn more.

“I talked with the salespeople and learned about the market for our products. I toured the factories and saw how the products were assembled. I even traveled around the world to visit different vendors who supplied materials for everything we manufacture.

“Being successful,” the executive said, “is not about what you study or what you read or what you think. It’s about what you know.”

## Coffee aids in kidney disease fight, study says

**A**mong coffee's health benefits may be a reduced risk of death from kidney disease, according to the Healthline website.

A study recently written up in the journal *Nephrology Dialysis Transplantation* examined data from 4,863 Americans.

The subjects were divided into four groups. Group One consumed the amount of caffeine in one cup of iced tea per day. Group Two took caffeine equivalent to one cup of coffee per day. Group Three had one or two cups, and Group Four had multiple cups per day.

Subjects in Group Two, researchers found, had a 12 percent lower risk of dying from kidney disease. Group Three showed a 22 percent lower risk, and Group Four, which consumed the highest amount of caffeine per day, saw a 24 percent lower risk.

Scientists caution that caffeine poses other health risks, and patients on fluid-restricted diets should take coffee into account of their daily fluid intake. Cream, creamers, and syrups can also cause problems for people with kidney disease, including increased phosphorus and potassium levels. Check with your doctor, as always.

## Water might help reduce women's UTIs

**W**omen who suffer from frequent urinary tract infections (UTIs) may find relief by simply drinking more water, an article on the WebMD website advises.

A yearlong study in Europe followed 140 premenopausal women who experienced recurring UTIs at high rates. At the beginning, the subjects drank less than six eight-ounce glasses of water per day. As the year went on, half the participants drank slightly more than six glasses, while the rest kept to the same regimen.

Researchers found a significant reduction of UTIs among the women who drank more water per day. The average number of UTIs among subjects in the first group was 3.2, but dropped to 1.7 for women whose water intake increased.

“Drinking more water to improve one’s health is probably safe and, if tap is used, pretty inexpensive,” said one doctor (who was not involved in the study). “Producing additional urine—and thus increasing voiding frequency—may raise one’s awareness of the importance of keeping the bladder as empty as possible, which can help reduce UTIs.”

## Monthly

---

**Financial Wellness Month.** Are you saving enough for retirement? Are you saving at all? Will you owe the IRS money this year toward your 2018 taxes? What are your financial goals for 2019? These are just a few of the questions to ask yourself while you review your spending habits and determine your preparedness for any "rainy days" ahead.

**Get a Balanced Life Month.** It's the start of a new year. Use this new beginning as time to review, reconsider, streamline—and maybe even eliminate—the unnecessary commitments, responsibilities, and activities that fill your days.

**Get Organized Month.** It's cold outside, and more than likely you're spending more time indoors fretting that there's nothing to do. Here's an idea: Don't wait for spring to purge your work and living spaces of unnecessary clutter and unused or unwanted items. There's no better time than the present to restore a sense of order to your life.

**Learn to Ski and Snowboard Month.** If saying "yes" to new adventures tops your to-do list this year, why not start things off right by developing your ski legs? Go online to [learntoskiandsnowboard.org](http://learntoskiandsnowboard.org) to find information on destinations, deals, and other considerations.
