SPECIAL EVENTS COMMITTEE PRESENTS 2017-18 SEASON EVENTS AT CROSSWINDS

We will start off our 2018 season with our Santa Claus parade, starting at 4:30 on Saturday December 9, 2017. Plan to decorate your bike, your golf cart, or just walk in the parade to usher in the Christmas season. Starting and ending at the Large Hall, Santa will drive through the park collecting non-perishable food donations. After the parade, join us in a pot luck dinner in the Hall where we will be asking for \$5 donation for our money tree and the proceeds will be used to sponsor a family at Christmas.

On Sunday December 17 our annual Christmas Tea will take place at the Large Hall at 2 pm. This year's theme will be a Vintage Tea. As in past years, please bring a pair of child's pajamas and a book that we donate to Sallie House in St Petersburg.

Ending the 2018 season will be our annual Activities Appreciation Day. Set aside Tuesday March 20, 2018 for "Denims and Diamonds" themed dinner and dance. And once again we have engaged the Oldies Rock Group Blinky & Fritz to entertain us.

Plan to join us in these events. These events don't just make our park good, they make it great!

Volunteering At Crosswinds

Did you know that all the activities and special events at Crosswinds are put on by volunteers? If it was not for the many people who volunteer ALL these events could not be enjoyed by everyone! These are the monthly coffee hours, dinners, dances run the five different Bird Groups, the Christmas Parade and Tea, the Memorial Service, Yard Sale, Pancake Breakfasts, 100th Birthday Celebrations, all the various activity groups from Billiards to Yoga.

Did you know that by volunteering.....

- You add value to things
- You can give what you have
- You may learn or develop a new skill or hobby. It's never too late and your not too old!
- You will gain a sense of achievement and motivation. Your desire and enthusiasm will be to help out!
- You will personally see an activity operate and end in SUCCESS!
- You can experience many new things like meeting friends.
- Will bring you meaning and a positive IMPACT to Crosswinds.
- YOU are part of the Crosswinds family!

And did you know that you are a hidden gem with something to offer! Big or small, one hour to 10 hours, there is something that fits YOU!

It can be as simple as stapling papers, delivering the Bulletin or Crosswinds Chronicle door to door, to decorating, making signs, baking squares or providing sandwiches.

HOW CAN YOU VOLUNTEER?

You can contact names listed in the Crosswinds Chronicle for the monthly Bird Groups and Activity Groups or any of the Activities Directors. They would love to hear from you!

*“Never think that what you have to offer is insignificant.
There will always be someone out there that needs what you have to give”*

Help for Severe Aortic Stenosis

Severe aortic stenosis is a narrowed aortic heart valve that doesn't open and close properly, reducing blood flow to the rest of the body.

Morton Plant Hospital is now enrolling eligible patients in the Medtronic Evolut R low-risk trial, which investigates the safety and effectiveness of a transcatheter aortic valve replacement (TAVR) system in patients with severe aortic stenosis who are at a low surgical mortality risk. TAVR is a minimally invasive alternative to open-heart surgery used to treat failing aortic heart valves in patients with severe aortic stenosis. Morton Plant Hospital was chosen as the first hospital in Tampa Bay to offer the TAVR procedure for patients with severe aortic stenosis who were at an intermediate or high surgical mortality risk. Our team has completed more than 700 TAVR procedures over the last five years.

To see if you or a loved one with severe aortic stenosis may be eligible for this trial, or for more information on the trial, call the Center for Advanced Valve and Structural Heart Care at Morton Plant Hospital at **(855) 44-VALVE (855-448-2583)** or visit **MortonPlantValveTrial.org**.

One minute a day may lead to stronger bones

Keeping your bones in good shape is vital to your health as you grow older, especially for women. Research reported on the Medical News Today website suggests that women may be able to keep their bones strong by running just one minute a day.

Examining data from more than 2,500 women, researchers found that women who participated in high-intensity, weight-bearing physical activity like running 60-120 seconds a day had 4 percent better bone health than women who took part in less than a minute of physical activity. Women who performed more than two minutes of exercise had 6 percent better bone health.

The researchers cautioned, though, that they can't be sure whether high-intensity exercise leads to better bone health, or whether people with better bone health tend to exercise more.

New findings about the solar system intrigue scientists

Our solar system is full of interesting places—maybe not to live or even visit, but locations where life might flourish under the right conditions, or may once have been present. Two recent examples from the Science News website:

• **Life on Titan?** Scientists have discovered that the atmosphere of Saturn's moon Titan contains vinyl cyanide—a molecule that forms membrane-like structures and could support life. Computer simulations suggest the molecule is capable of forming flexible bubbles known as azotosomes, that could serve as an outer shell “protecting” genetic material from biochemical reactions in the moon's frigid methane seas. No one knows whether azotosomes actually exist on Titan, though. A probe would have to check out the seas to detect them.

• **Water on Venus?** With a surface temperature of 460 degrees, Venus is too hot to support water or life as we know it, but scientists speculate it might not always have been so inhospitable. The second planet's slow rotation—116 Earth days for a single Venusian day—might have led to a gradual cloud buildup in its atmosphere some 750 million years ago, bringing surface temperatures down to approximately 15 degrees Celsius—enough for the formation of a shallow ocean. What happened to the oceans, or whether they even existed, isn't clear. Scientists speculate they may have boiled away or been absorbed into the planet's interior.

Happy Thanksgiving!

If you are what you eat . . .

This information isn't for the squeamish, but you might want to know it anyway. According to an article on the Huffington Post website, insects are so ubiquitous that the FDA allows a certain amount of bugs and insect fragments in the food we eat. Insect control organization Terro released data on just how much you might be eating in a year:

• Coffee beans	136,080 (fragments)
• Wheat flour	91,650 (fragments)
• Macaroni/noodle products	7,031 (fragments)
• Chocolate	5,988 (fragments)
• Broccoli (frozen)	1,660
• Peanut butter	408 (fragments)
• Mushrooms	254
• Berries (canned or frozen)	84
• Brussel sprouts (frozen)	54

Relax with a nice warm bath

What's more relaxing than a long hot bath? Jacuzzi Luxury Bath commissioned a survey to explore Americans' bathing habits, and found that 38 percent of us take baths at least once a week. Frequent bathers take an average of 3.3 baths weekly for an average of 28 minutes. Among other results:

- **Timing.** The most popular times for taking a bath are weekend evenings and Monday mornings.
- **Demographics.** Bathing breaks down 50-50 between men and women. Younger people are more likely to be frequent bathers: 48 percent of people 25-44 said they bathe on a regular basis.
- **Benefits.** Women tend to take baths because it helps them relax, while men feel baths lead to better mental acuity. Bathers 18-44 said baths make them feel more alert.
- **Exercise.** Baths are popular for relieving soreness and fatigue caused by exercise. Forty-three percent of runner or joggers take a bath to recover after their workout, along with 34 percent who take exercise classes and 33 percent of weightlifters, followed by basketball players, bikers, and swimmers.
