Glenda Conant

Hello everyone;

I hope your summer has been great so far. It is becoming very quiet in the park. I am sure you all know by now that once again we are without a park manager. I know there is a search underway.

I have been in touch with the district manager and will be in contact with him on a regular basis. He will be here as much as he can, and I e-mail him when a question is in need of an answer.

The pool is getting a good work out, it has been very hot here. The 4th of July picnic is coming up so please plan on attending, it should be a lot of fun for everyone.

We are sorry to say that George and Marilyn Wehner have mover back to Ohio due to her illness. We keep in touch with her and I will have another

update soon. Will use our Facebook Group to keep you all informed. Our coffee hour on Saturday has gotten much smaller but still fun. All of you winter residents we do miss. Looking forward to your return. Even some of our year round residents are taking a vacation up north. I wish them all safe travels and have a great time. We will be here holding down the home front.

I also know a lot of work and planning is going on with our new activity director. David has a lot of plans so we are all looking forward to a busy season coming up. We are also losing another family who know it is time to go be with the kids. We will be saying goodbye to Richard and Irene Murphy, they will be in Mass. with their son and family who built them a suite of their own. By the time you get this Media, their new address will be 78 Bellevue Road Quincy M.A. 02171

Have a wonderful rest of your summer and see you all soon

Telephone Directory Update

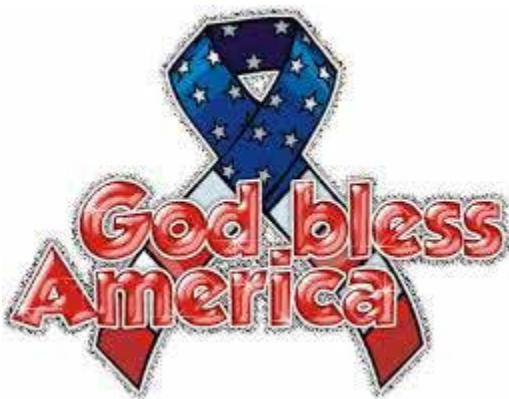

The telephone directory is going to be published in August by the company that does our Monthly Media. Therefore, there will not be a monthly media in August. It will instead be our telephone directory. Much effort has gone in to ensuring that the directory will be as accurate as possible, however there is a lot of movement in the Park and often the information isn't relayed. If you are new to the Park and would like to be in the directory, or if you have changed your telephone number or email address, please send an email to Ernie **NO LATER THAN JULY 7TH, THIS IS YOUR FINAL REQUEST BEFORE PUBLISHING.** Changes can be sent to jranger67@live.ca.

SHUFFLEBOARD

Shuffleboard players needed for the 2015/2016 Season. No experience required. If you are interested in playing, Pat Bryant will be giving lessons starting in mid October. Please contact Carolyn Frase or sign up on the sign up sheet located on the board in the clubhouse. We look forward to seeing new members and our returning members in the fall.

LAUNDRY ROOM

Debbie Cammarn

I know it's summer time, and the pool feels great. But, if you're doing laundry and swimming PLEASE DRY OFF before entering the laundry room. I slipped and got hurt because someone went from the pool, to change their laundry without toweling off. It only takes a few minutes, and can keep from causing

a serious accident. Also, there is a mop and caution signs kept in the laundry room. Please use them. It only takes a small amount of water to cause an accident, and a little consideration to prevent one. Thank you.

Joke of the Month

An elderly woman called 911 on her cell phone to report that her car had been broken in to. She is hysterical as she explains her situation to the dispatcher: "They've stolen the stereo, the steering wheel, the brake pedal and even the accelerator!" she cried. The dispatcher said, "Stay calm. An officer is on the way." A few minutes later, the officer radios in. "Disregard." He says. "She got in the back-seat by mistake."

Doctors may soon use lasers to seal wounds

Lasers are common weapons in science fiction movies, but soon a laser may be used to heal wounds in real life if scientists at Tel Aviv University are successful.

As reported on the Reuters website, the scientists developed optical fiber capable of transmitting infrared light and at the same time measuring the heat of the tissue it's pointed at. This allows them to control the laser's power accurately and use it to "weld" tissue effectively without any burning or scarring. Collagen aids the bonding process, growing firm as the skin cools down.

This laser-aided process may result in stronger bonding with fewer scars than traditional suture offers. Initial tests on humans showed successful healing with less scar tissue; examinations one year after surgery should demonstrate whether the laser produces less scarring than needle and thread.

Twin suns may support rocky worlds—in theory

Many solar systems around the universe are binary, with two stars orbiting each other in space. Scientists have long believed that rocky planets can't form in these systems because of gravitational forces that would cause planetesimals (worlds in the process of forming) to destroy themselves in collisions instead of slowly merging with each other. Thus, the common image of a world with two (or more) sunsets on the horizon seemed relegated to movies.

But new studies suggest that planetesimals behave differently than had been thought, according to the Sci-News website. Astronomers previously theorized that small worlds seek a circular orbit, leading to collisions around binary stars; now they believe that planets in these systems may take on an oval orbit as they form, avoiding crashes and eventually accumulating a rocky mass. Such worlds could see more than one sun in the sky, and may be able to support life.

Nature composes some of her loveliest poems for the microscope and the telescope.
