## AUTHOR OF THE MONTH

---

**A**ndrew gross is an American author whose books feature close family bonds and relationships, characterized by loss or betrayal, in which there is emotional resonance which generally leads to wider crimes and cover-ups. Andrew comes from a family of clothing manufacturers. James Patterson took him under his wing and co-authored 5 books with him.

In the Blue Zone, Kate has everything- an awesome boyfriend, a loving family. A wonderful BFF, and a career she loves; that is, until the day the FBI arrested her father, whom she adores! This book has intrigue, murder, mafia and witness protection; what more could you want?

Don't forget to come and enjoy the Library this summer. We are open 10:00 a.m. – 6:00 p.m. daily. We also have wi-fi, which is free, but you must sign up for it in the Park Office.

Don't forget we have cover-ups and embassy mail boxes for sale to support our Library (available during office hours).

## FROM THE OFFICE:

---

**F**or the months of June, July & August there will not be a Bulletin: instead, the News & Views will have a page titled “Monthly Bulletin” with the information on it. This is due to the low amount of activities and as a cost savings to the Social Club.

Effective immediately, there is a new procedure that new tenants must fulfill if they want to have a dog (therapy, comfort, emotional support, companion, etc.) anywhere in the Park except the pet section. This paperwork may take up to 10 days for verification; no pet will be automatically allowed. This new procedure was done with the help of an attorney. A copy is available in the office.

Anyone who currently has a companion or support animal will have to go through this procedure if/when they replace the current animal. All Pets must be registered in Pinellas County and supply the office with this information and the shot records (per current Park Rules).

The new aerator was purchased and installed in the Lake; this is used to maintain and control the smell within the park. It is often referred to as a “Bubbler”. Most residents have

donated for the purchase of a new aerator and many thanks to all who have donated. It has been suggested that perhaps the major clubs could donate \$100 towards the purchase of this new aerator. The residents in the Park have been so supportive of the Shuffle Club in their Fund Raisers throughout the years that the Executive Board of the Shuffle Club has voted to contribute \$100 towards the new aerator.

With the start of Hurricane season, I again urge everyone with a pet to get registered at a pet friendly shelter, even if you don't use it. We were fortunate last year with Irma, mostly minimal damages and major stress!

The rainy season is upon us; once again I want to remind you to check for any standing water around your mobile to eliminate the chance of mosquitos breeding.

## A COFFEE EXPERIENCE

---

**M**ost of us drink it, at least a cup in the morning. Some drink it throughout the day.

But if your looking to make it an enjoyable new experience, try a French press. A simple device, (used throughout Europe), that will totally change the taste of that a.m. brew.

French presses are available in all department stores as well as amazon and other online stores, with prices from \$5.00 to \$50.00 and more. A basic model will make 2 small cups or a large mug and cost you about \$7 - \$12.

“How do I use it?”, you ask. I place 2 rounded scoops into the press, add boiling water to within an inch of the top, allowing room for the plunger. Let it sit for 3-4 minutes; next slowly press down the plunger, pour into your favorite cup, adding your usual enhance4ments.

Now Enjoy!

(Thanks to Doug Goff, Lot #1626 for this article.)

## A deal is a deal

---

Ronald made a deal with his dad that if he improved his grades by the end of the school year, pitched in around the house, attended church on Sunday with the rest of the family, and cut his now shoulder-length hair, he could have access to the car throughout the summer. Ronald began to focus on his schoolwork more, took on responsibility in the home, and was the first person in the house ready for church each Sunday.

“I knew you could do it,” his dad said as looked over Ronald’s final grades for the school year. “I’m very proud of how responsible and focused you’ve been these last few months.”

“Hand over those keys, old man,” Ronald said to his father with a laugh.

“Not so fast,” his father said. “Remember our deal? Grades, church, chores, and hair.”

“Do I really have to cut my hair?” Ronald protested.

“That was our deal,” his father said.

“Can’t you cut me some slack this one time? I’ve done everything else you wanted,” Ronald argued. “It took me so long to grow my hair out. Besides, Moses had long hair, and Samson had long hair, and even Jesus had long hair.”

“Good point,” his father agreed. “They walked everywhere.”

## Timeless wisdom

---

During the celebration of his 100th birthday, a man was asked about the secret of his longevity.

“I never smoked, drank, or ate fried foods,” replied the man. He continued, “and I exercised every day for 30 minutes.”

“Well, a lot of people observe those same practices but don’t live to be 100,” someone in the crowd observed. “Why do you think that is?”

The old man said, “My guess would be they didn’t keep at it long enough.”

## Ancient humans cared for others

---

Popular culture paints our Neanderthal ancestors as brutish and cruel, but that picture is changing, according to the Sci-News website.

Neanderthals are known to have cared for their injured people, and new findings suggest that they took care of individuals who were suffering regardless of whether their peers could repay them in any way.

For example, the remains of one male Neanderthal 25-40 years old at time of death shows that he had a variety of diseases, including tooth loss, periodontal disease, arthritis, and other long-term health conditions. His care would have required fever management, hygiene maintenance, and helping him stay with the group when it moved its camp. For the last 12 months of his life he would have been unable to contribute much to the group, but he was carefully buried after his death.

The evidence suggests that “organized, knowledgeable, and caring health care is not unique to our species but rather has a long evolutionary history,” one scientist states.

## A once-in-a billion-year spin

---

Galaxies rotate, just as Earth and other planets do. However, their spin is remarkably consistent, regardless of size. The Discover Magazine website reports that scientists have determine that all galaxies rotate approximately once every billion years, whether they’re massive spiral galaxies or small irregular dwarfs.

Researchers measured the velocities of hydrogen in the outer discs of a variety of galaxies differing in size. The measurements allowed them to calculate the rotation period of each galaxy. “Discovering such regularity in galaxies really helps us to better understand the mechanics that make them tick,” one scientist says.

*Science is the great antidote to the poison of enthusiasm and superstition.*

## Exercise boosts immunity in older adults

---

**E**xercise is good at any age, but scientists now think that regular exercise as you get older may help boost your immune system and prevent infections.

An article on the BBC website reports that scientists in the United Kingdom tracked 125 long-distance cyclists, some in their 80s, and discovered they had immune systems comparable to those of 20-year-olds.

The researchers examined the cyclists' blood for T-cells, which aid the immune system in fighting off infections. The long-distance riders had the same level of T-cells as adults in their 20s, but a similar group of older adults who were less active produced fewer T-cells.

The research suggests that increased physical activity can also help older people respond better to vaccines for such infections as the flu.

## These foods keep your brain healthy

---

**S**ome foods help keep your heart in shape. Others help your bones. What keeps your brain and memory healthy? The CNN website offers this list of what to eat to maintain a healthy brain as you grow older:

- **Berries.** Studies suggest that eating at least a half-cup of blueberries, or one cup of strawberries, on a weekly basis may help stave off cognitive decline. Berries have anthocyanidins, whose antioxidant and anti-inflammatory effects may keep the brain in shape.

- **Green leafy vegetables.** One study of almost 1,000 adults found that a daily serving of spinach, kale, collard greens, or arugula appeared to maintain cognitive health to the extent that participants were considered to be 11 years younger than people who rarely or never consume such veggies.

- **Eggs.** Eggs contain choline, which is an important brain nutrient. In a study of 1,400 people, participants with high intakes of choline scored better of visual and verbal memory tests than those who ate less foods with choline. In addition, people with a high intake of choline over the long term seem to have better MRI brain scans, suggesting that choline may protect people against dementia.

## Millennials leading in home purchases

---

**M**illennials are buying more homes than Gen Xers, baby boomers, and other age groups, according to the Builder Online website, citing a survey by the National Association of Realtors.

Thirty-four percent of all home purchases in the United States in 2017 were made by millennials, followed by Generation X (28 percent), baby boomers (30 percent), and people born from 1925-1945 (6 percent).

In 2018, the typical millennial home buyer has a higher household income than last year (\$88,200 vs. \$82,000). He or she bought the same size home, 1,800 square feet, for more money at a higher price—\$220,000 versus \$205,000 in 2017.

Millennials in 2018 have higher student debt balances than those in previous years, and more of them say that saving for a down payment is the most difficult task in buying a home.

## Rentals up in the U.S.

---

**M**ore Americans are living in rented homes than at any point since 1965. That's from the Pew Research Center, which says that the total number of U.S. households increased by 7.6 million from 2006-2016. However, the number of households headed by homeowners has remained flat, partially because of the aftereffects of the housing crisis late in the last decade.

On the other hand, the number of rented households rose during the same time frame, from 31.2 percent in 2006 to 36.6 percent in 2016. In 1965, the rate of rented households was 37 percent.

## Yoga pants stretch sales

---

**Y**oga pants are in—whether you wear them for yoga or not. According to the Quartz website, imports of yoga pants have grown an average of 25.7 percent a year since 2010. At the same time, imports of jeans have declined by close to 4 percent a year.
