Fairway Social Committee

Jan Wallace, Chairperson

We must thank Charlie and Jean Weaver for chairing the Thanksgiving Dinner again this year and all the crew who worked so hard to make the dinner so special! We just keep getting better!

Thank you to those participating in the Fairway Chorus for all the many hours you devote to entertain our community in November and December at the FSC meetings.

Don't forget to sign up for the Golf Cart Christmas Parade on December 4th. Watch the information channel 801 for more details. You can also donate Christmas Cookies for the parade. All are welcome to come join us at the clubhouse after the parade for refreshments.

Phil and Pat Whitehouse will chair the Christmas Eve pot luck dinner this year which begins at 5:00 p.m. Look for more information on 801.

Just as a reminder for January, we will have the 2nd Event Leaders Conference on January 13, 2017 at 8:30 for those unable to attend in November.

FSC will again host a New Shareholders Breakfast January 19th at 8:30 - 9:45 a.m. We want to welcome all new home owners and give a brief summary of what the FSC is all about.

We wish all a happy Thanksgiving!

Fairway Chorus

How the West was Won" was presented by the chorus to an appreciative audience on November 1. Thanks are extended to all chorus members, special actors, narrators and instrumentalists. Helen Barron starred as the matriarch who traveled west with her family and suffered many hardships along the way, many of which she shared. Indian attacks, the Gold Rush, the Civil War, and the building of the transcontinental railroad were remembered in narrative and song.

The next presentation by the Chorus will be on December 6, at 7:00 in the clubhouse. An International Christmas will be celebrated in song and narrative. Please mark your calendar to celebrate with them. As always, new or previous members of the chorus are always welcome. Call Mary Blythe or Anna Martin, or just show up at our next rehearsal in the conference room at the clubhouse at 9:00 on Thursday, November 10.

Before you begin your project please obtain a Home Replacement or Modification Request form from the FVRA office or download it (page 12, Exhibit D, in the manual) and return the completed form to the FVRA office. The ARC, which meets most Mondays in the clubhouse, looks forward to working with you in replacing your home or planning the changes to the outside of your home.

Shuffleboard Club News

Martha Russell

ACCOLADES

Thank you to the regular Good Guys and Gals who make sure all is well at the shuffle board courts in the beginning of the season and throughout. Our sincere appreciation to Glenn Russell, Kris Wechter, Richard Clifton, Lindell Miller (newbee), Fritz Weinrich, plus our new F Maintenance Tech - Oscar. This team fully cleaned, sealed courts and painted where necessary. On top of what our FV Community got completed over the summer, WOW the Shuffleboard Courts are pristine.

Welcome back to our Season shufflers and friends of this sort. Over the next couple of weeks the Shuffle Courts area will be buzzing. League and Social shuffling will begin very soon.

- Dale Martin and Ted Moran (Directors, Tuesday and Thursday Social Shufflers) are on their way back to Fairway Village and will begin the fun at the Courts, with the assistance of Dick Frampton and Ron Moran, their loyal worker bees.
- To those who pitch in at the beginning and end of the Social and League Home games, as well as with refreshment breaks in the Clubhouse - Thank You, your efforts are appreciated for sure.

REMINDERS

Shufflers please notify your team Captain as soon as you return, so schedules can be posted.

- Orders will be taken for shirts and jackets later in the month.

Scramble News (November 5th)

It was a beautiful day for golf, although the wind did pick up and make things a little more challenging for our 155 golfers. 32 teams competed in our friendly format, with many snowbirds returning for their first scramble of the season. The course was in fantastic shape thanks to the extra car given by Bill and Rick in the weeks leading up to the scramble. The scoring breakdown was as follows: 2 teams tied at 24, 1 at 25, 9 at 27, 9 at 28, 7 at 29, 2 at 30, 1 at 31, and 1 at 33. Thanks to Stephanie for getting everyone out and to the many volunteers who helped check in the players, got the rules explained, and collected and tabulated the results. Thanks to all the golfers who participated, I do believe a great time was had by all. Next scramble is scheduled for December 3rd. See you then.

Computer Club

Ed Watzel

Staff members had a meeting with members of the FVRA and agreed to disband the club. Only a few members have been in the room the past few years.

New Group Forming

Madolyn McMahn is forming a new group to teach residents mobile devices. It is our hope that the current residents will continue to step up and accomplish what we did 15 years.

We started small with one computer teaching residents how to email. Very few residents had a computer.

In 2000 we had 251 members, eight computers and 1100 people sign in to use the room for classes and internet. We had eight to ten instructors.

Fun Shuffle Board... Sundays 6pm (new time)

Ed Watzel

COME JOIN US! Beginners Welcome!

We usually play three or four games and rotate playing partners and finish before 7:30. We encourage you to attend and learn this game. Once you learn the rules and how to keep score residents and their guests can play and enjoy the game anytime the court has not been reserved.

VINYL IS FINAL

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

December Crossword

Did you know that December is also...

Buckwheat Month. Designated the “December Grain of the Month” by the Whole Grains Council, buckwheat contains higher levels of zinc, copper, and manganese than other cereal grains, along with a very high level of protein. It’s used in soba noodles, crepes, blintzes, pancakes, and other delicious foods.

National Impaired Driving Prevention Month. This holiday season, make sure to plan for a safe way home, especially if your plans involve alcohol. If someone you know is drinking, don’t let that person get behind the wheel. Remember, too, that just because you’re driving sober, others on the road may not be. Always buckle up, drive with caution, and call 911 to report a suspected drunken driver.

Safe Toys and Gifts Month. Prevent Blindness America has declared December Safe Toys and Gifts Awareness Month, encouraging gift-givers to consider whether the toys they plan on giving suit the age and individual skills and abilities of the child who will receive them—especially for children under age 3.

Universal Human Rights Month. This month commemorates the Universal Declaration of Human Rights, adopted by the General Assembly of the United Nations on Dec. 10, 1948. Driven by the human tragedy of World War II, this document represents the first global expression of human rights.

National Handwashing Awareness Week, Dec. 4-10. Remember these four principles of hand awareness to stay healthy: Wash your hands when they’re dirty and before eating; don’t cough into your hands; don’t sneeze into your hands; and avoid putting your fingers into your eyes, nose, or mouth.

Older Driver Safety Awareness Week, Dec. 5-9. Promoting greater understanding of the importance of mobility and transportation so older adults can remain active in the community by shopping, working, or volunteering—with the confidence that lack of transportation options will not strand them at home.

Computer Science Education Week, Dec. 5-11. Computer Science Education Week (CSEdWeek) is an annual program dedicated to inspiring K-12 students to take an interest in computer science. CSEdWeek is held in recognition of the birthday of computing pioneer Adm. Grace Murray Hopper (December 9, 1906).

Kwanzaa, Dec. 26-Jan. 1. A weeklong celebration held in the United States and in other nations honoring African heritage in African-American culture, culminating in feasts and gift giving. Kwanzaa was created by Maulana Karenga and was first celebrated in 1966–67.

The smell of hate

A teacher decided to play a game with her class. She told each child to bring in a plastic bag containing a few potatoes and to give each potato the name of a person that the child didn't like. The number of potatoes that the children put in their plastic bag would depend on the number of people they don't like.

The next day some children had two potatoes, some had three, and some had five potatoes or more. The teacher then told the children to carry the potatoes with them wherever they went for a week.

Days passed, and the children started to complain about the unpleasant smell let out by the rotten potatoes. Also the children with five or more potatoes complained because they had to carry heavier bags. The children were relieved when the game finally ended.

Then the teacher told them the meaning of the game: "This is what happens when you carry hatred for somebody inside your heart. The stench of it spreads everywhere, and you carry it with you wherever you go. If you can't tolerate the smell of rotten potatoes for just one week, can you imagine what is it like to have the stench of hatred in your heart for a lifetime?"

The elephant's teeth

One day a hungry mouse in the jungle found a small nut. He tried to bite into it, but its shell was too hard and thick. Irritated, the mouse said, "Why did the gods give me such tiny teeth?"

Suddenly he heard the voice of a god from far above. "Mouse, go out and look at all the animals in the jungle. If you find one whose teeth you like, I'll give them to you."

Overjoyed, the mouse ran through the jungle, looking for the biggest teeth he could find. He looked at many animals but didn't find any teeth he liked until he spotted an elephant. Envious of the beast's thick tusks, he wandered over and asked, "Sir, are you happy with those big, long teeth?"

The elephant answered: "Friend, these are just for show. I can't use them to chew food as you do. At least you don't have to bear the weight of these huge teeth."

Hearing this, the mouse realized he was better off having tiny teeth and went off to find his nut again.

From our family to your family

Morton Plant Hospital got its start in 1914 when several local women asked railroad magnate Morton F. Plant to fund a hospital. He agreed, if the community would also make a substantial contribution. They took the challenge and the hospital opened in 1916. Throughout the years, the hospital served the community, and the community gave back, ensuring that generations of families would be able to count on the compassionate, quality care provided by Morton Plant Hospital.

One of the most noteworthy hospitals in the nation, Morton Plant Hospital was founded because a community cared. And 100 years later, one thing remains the same — our commitment to caring for your family.

The new Doyle Tower at Morton Plant Hospital, scheduled to be completed in 2017. Another example of how the community gave back.

Seeing Santa Claus

A grandmother took her grandson to the shopping mall in December to see Santa Claus. The young boy was very excited to sit on Santa's lap. "Now, little boy," Santa said, "tell Santa what you want for Christmas."

In a very loud voice, the boy said, "I want a NINTENDO, and a NEW BIKE, and some BOOKS, and—"

"You don't have to shout," Santa chuckled. "Santa isn't hard of hearing."

The boy leaned forward and whispered, "No, but my grandma is."

Wrong answer

A man was being sentenced in a California court for shooting and eating a condor—an endangered species. Looking for mercy, the defendant made a passionate speech.

"I'm truly sorry, your honor," he said. "I just moved here and I don't have a job, and I was hungry and cold. I'd never seen a bird like that, and I had no idea it was endangered. I've never done anything like this before, and I'll certainly never do it again."

The judge gave him probation, telling him not to let it happen again. Then he said: "I'm curious. What does a condor taste like?"

"Oh, kind of like a cross between a whooping crane and a spotted owl."

Reduced sentence

A criminal with a long record of transgressions was on trial for his latest crime. The jury found him guilty on 33 counts, and the judge sentenced him to 189 years in prison. Realizing that even with time off for good behavior he would be more than 100 years old when he was finally released, the prisoner burst into tears.

Touched by this display of remorse, the judge paused to reconsider. "I didn't mean to be so severe," she said. "Thinking it over, I can see that I've imposed an extremely harsh sentence. So you don't have to serve the whole time."

The prisoner beamed with new hope until the judge leaned toward him. "Just do as much as you can."

'Smart windows' coming soon?

A new flexible material for windows and sunroofs may be able to control the heat and light they receive from the sun, according to the Phys.org website. Scientists at the Cockrell School of Engineering at The University of Texas at Austin used a low-temperature process to create a material with a unique structure that doubles the efficiency of the coloration process, allowing it to switch between clear and tinted more quickly than other coatings.

The scientists, part of an international team, believe their research could lead to the creation of materials for other applications such as supercapacitors to store and release electrical energy rapidly and efficiently.

Rare shark may have lived almost 400 years

Trees can live thousands of years. Animals don't live nearly so long, but scientists have discovered what they believe may be the longest-living vertebrate animal—a Greenland shark. Analyzing carbon in the eye lenses of one Greenland shark after its death, marine biologists at the University of Copenhagen determined that the shark was 392 years old, give or take about 120 years. That beats the previous record holder for vertebrate longevity, a bowhead whale that lived about 211 years.

Little is known about the Greenland shark. It's one of the largest carnivores in the world, and dominates the food chain in northern waters. The scientists studied Greenland sharks accidentally caught by fishing boats, analyzing their eye lenses because sharks don't have the kind of bones that build up calcified rings as they age. Although some scientists disagree that the shark's age is typical, they concede that we know little about the average lifespan of this mysterious predator.

Particles may halt bleeding, save lives

Saving a life after an accident or injury is often a matter of stopping blood loss as quickly as possible. The Science Daily website reports that scientists have devised nanoparticles that can locate the site of a bleed and help form blood clots to stanch the flow.

The nanoparticles are coated with molecules that adhere to a glycoprotein in activated blood platelets and bind to those platelets to form clots. The particles have been tested in rats and pigs, and they soon will be tested for their effectiveness in human blood—potentially saving thousands of lives.

Watch the sunrise for better health

Want to lose some weight? Try getting out of bed earlier. In a study conducted at Northwestern University, researchers gave 54 people wrist monitors that tracked their sleeping patterns and exposure to light for a week and asked them to keep detailed records of what they ate. The researchers also measured participants' activity level and age, as well as the season they were being monitored.

The researchers found that exposure to early morning light, whether natural or artificial, was associated with a leaner body weight. The reason, they speculate, is that light may play a role in regulating the metabolism, similar to its effects on wakefulness and alertness. The connection isn't conclusive, but getting up a little earlier couldn't hurt.

Coffee may benefit heart attack survivors

If you've suffered from a heart attack or know someone who has, this news should perk you up: A study by York University in the United Kingdom found that drinking one or two cups of coffee a day can apparently cut the risk of premature death by 20 percent among heart attack patients.

Researchers kept track of 3,721 U.K. heart attack survivors and their coffee habits in the UK. They're not sure how coffee helps them, but other studies suggest that drinking three to five cups of coffee daily has a beneficial effect on people with Parkinson's Disease, and it may also help people with liver cancer.

Don't let wet dishes breed disease

Make sure your clean dishes are completely dry before you start putting them in the cupboard. Researchers have found that still-wet, stacked dishes can be prime breeding grounds for bacteria. In one study at a Veterans Affairs hospital, dishes were washed in a commercial dishwasher. Half were air-dried for 24 hours and the other half stacked while wet. Although researchers found no significant difference in the amount of bacteria found on either sets of plates after 24 hours, the dishes stacked wet teemed with bacteria after 48 hours. The best solution? Air dry.
