GATEWAY ACTIVITIES ORGANIZATION

GAO as we are commonly known is responsible for the operation of the Gateway social activities. The activities in turn are the responsibility of a multitude of unpaid year-around and seasonal resident volunteers. The volunteer officers, President, Vice-President and Secretary are elected to two-year terms, the volunteer treasurer serves at the pleasure of the members. The GAO Steering Committee is made up of the appointed chairmen in charge of the various activities and meets monthly October through April to plan and co-ordinate the activities. Residents with interest in any of our activities and events and especially new residents who wish to become a part of the active Gateway 'social' scene will find the monthly meetings provide an informative overview of activities. Information about our GAO is available from any of our Steering Committee Chairpersons or by contacting the officers or editor of NewsNDos.

EDITOR'S NOTES

Unless listed otherwise, the phone numbers shown in News N Dos are located within the 727 Area Code. The editor of News N Dos is responsible for all Gateway related content that appears. Anyone with any questions or concerns for the wording or structure contained in any of the articles or committee reports should address their comments to the Editor, Peter Soehnlén. (GAOnews@tampabay.rr.com or 269-9569)

GATEWAY COMMUNITY DIRECTORY

New directories were distributed with the April issue of NewsNDos. Please take the time to review your information to verify that it is correct and as you wish it to appear. If you desire any changes or corrections please contact me at the email or phone number below. These directories are meant for use by residents and should not be casually discarded or left at the Clubhouse. Should yours become lost, destroyed or be eaten by a pet please feel free to contact Peter Soehnlén, Editor of NewsNDos at (727) 269-9569 or GAOnews@tampabay.rr.com for a replacement. Additional copies will NOT be available at the Park Office.

GAO SUMMER SEASON

Summer is upon us and along with the heat comes our Summertime Activities. Last month featured our Memorial Day Picnic and I am sure a good time was had by all who attended. June brings our Annual Summertime Carport Sale. If you haven't signed up for this as of yet please contact Dorinda Barnes at 727-578-5471. Hopefully the weather will cooperate so this comes off without a hitch.

Creative Coloring hosted by Jayne Naska Sunday evenings will continue throughout the summer as will Wednesday evening Hold-em Poker Sit-N-Go's.

Don't forget we also have a monthly Potluck Dinner. Sewing Central is also going on each Tuesday morning for any of our ladies who wish to sew and do crafts or play games. As you can see there are things going on at the Clubhouse throughout the summer.

Watch our bulletin boards and display cases along with the NewsNDos monthly calendar for notifications as to when each of these activities will be taking place.

For all our seasonal 'Snow Birds,' I hope you all have a safe and wonderful summer. See you soon.

Peter Soehnlén, President GAO Activities

CREATIVE COLORING

Jayne Naska

Our Coloring Techniques classes are coming to a close and we have several people who have attended all the classes and have enjoyed learning techniques to enhance their coloring pictures.

Creative Coloring will be meeting all through the summer months, so if you are looking for something to do in the A/C, come on by the Clubhouse Sunday evenings and join us. Since the group enjoys getting together, there has been an expressed interest in meeting every Sunday and we are currently working on getting that approved. By the time this is published, Creative Coloring may be a weekly Sunday 6 – 8 pm event. Guests are also welcome to join us – bring a friend. You don't need to bring anything, we have coloring supplies for you use. Donation appreciated towards supplies. Happy Coloring.

SEWING CENTRAL

Beginning 9:30 am each Tuesday, the sewing room is open and all crafters and all ideas are welcome. Even if you don't want to join us for crafts and sewing we have plenty of games available, SCRABBLE, RUMMY CUBES etc., we would love for you to join us. We will provide fresh coffee so bring your bagged lunch.

About once each month we go out for lunch at a local restaurant.

GATEWAY MEN'S GOLF

Gateway golfers have been splitting their early morning Tuesday and Friday rounds between Mainlands Golf Club and Cypress Links at Mangrove Bay.

For you new golfers at Gateway, we play twice weekly (early mornings) Tuesday and Friday. Mainlands Golf Club offers a very affordable Back 9 with a cart for the first 6 tee times. Cypress Links is Par 3, comparably priced with Mainlands with a cart, though some choose to walk. Cypress Links is located east of 4th Street off 62nd Ave North, while Mainlands is accessed off US 19 just north of Walmart/Park Blvd. Each are between 10 and 15 minutes from Gateway. Following our round we often stop for coffee and chat at the 4th Street McDonald's just south of Gandy or breakfast at Spring Gardens on 62nd Avenue.

GATEWAY LET'S CONNECT

June Boudreau, Coordinator

Want to be reminded of the activities schedule for the park? Then join in Let's Connect by sending your e-mail address to **juneboudreau5@gmail.com** with a Subject Line of Let's Connect.

Let's Connect is a great way to stay aware of those once a month Gateway activities that we usually remember just hours before or the next day after the event. Event emails usually arrive a few days ahead but just in time for you to adjust your schedule and post a reminder to your calendar.

The Let's Connect notices now go to over 100 throughout the Park and is a great way to be reminded of events and regular activities.

GATEWAY PARK SECURITY

Our Gateway Manufactured Home Park is regularly patrolled by the Pinellas County Sheriff's Department. Siena Bay Apartments to our west is in the City of Saint Petersburg as is Itopia to our east and West Colony Apartments to the north. We are actually a Pinellas County island surrounded by City of Saint Petersburg neighborhoods.

So, for purposes of PARK SECURITY:

IF YOU SEE ANYTHING OR ANYONE SUSPICIOUS CALL THE PINELLAS COUNTY SHERIFF OFFICE @ 582-6200 TO REPORT IT.

CALL 911 ONLY IN AN EMERGENCY

MUSCOVEY DUCKS

The Editor

Muscovey ducks are present throughout Gateway and are recognized by many residents as presenting a threat to the health, safety and aesthetic beauty of our community. Spring and early summer are prime nesting season and residents are urged to take the time to inspect under shrubs and around their homes for egg-filled nests. If you observe ducks in the area around your home chances are there may be a nest(s) close by.

Locally, Muscovey ducks are considered wildlife and as such anyone feeding or otherwise nurturing the ducks are subject to a \$500 fine and/or 60 days in county jail. (Reference: Pinellas County Code, Chapter 14. Florida Administrative Code, Rule 68A-4.001.)

The Florida Fish and Wildlife Commission considers them a nuisance animal:

Muscovey ducks have been introduced into urban and suburban areas in Florida where they often occur in high densities. These birds were illegally released primarily by private individuals for ornamental purposes or as pets. Muscovey ducks can be extremely prolific and local populations can increase dramatically in a short time. As a result, controversies frequently arise between residents who enjoy the birds and residents who consider them a nuisance.

Because this introduced, non-native species sometimes creates problems through competition with native species, damage to property, and transmission of disease, in 2010 the U.S. Fish and Wildlife Service revised its regulations concerning Muscovey ducks.

FAQ'S regarding Muscovey ducks:

Does FWC remove muscovey ducks?

FWC does not remove nuisance muscovey ducks. Removal of ducks can be done by the landowner or by a hired nuisance wildlife trapper.

Do I need a permit to remove muscovey ducks from my property?

No. If the ducks are yours or have no identifiable owner and are on your property, Federal regulations allow control by landowners, wildlife management agencies, and tenants, agents, or employees without federal or state permits. **Birds may be humanely euthanized, but it is illegal to capture the birds and release them elsewhere.**

Park management requests anyone observing a nesting Muscovey to immediately notify the office.

In addition, nesting ducks attract predator and scavenging animals, raccoons, opossums, feral cats, skunks and coyotes to the area. If you observe or suspect any animal has chosen to use the area around or under your home as their own, contact the Gateway Office and request the unwelcome guest be trapped and removed.

ANNIVERSARIES, BIRTHDAYS

The Editor

Wedding Anniversaries and Birthdays listed each month in the NewsNDos are based upon information supplied directly to the Editor or to the Welcome committee person who contacted you when you took up residence at Gateway. These dates are maintained separate from Park Directory information and are published only when people have chosen to share this ‘personal’ information.

If you do not see your name(s) listed it is because the Editor does not have the information in the Anniversary and Birthday Data Files and if you wish the information be published please contact the Editor, Peter Soehnlén, 10402 1st Street; (727) 269-9569, or; GAONews@tampabay.rr.com.

Did you know June is also...

Adopt a Cat Month. Your local shelter has tons of cute, cuddly newborn kittens mellow older cats, and everything in between. Shelter staffers are ready to help you adopt your very first cat or bring home a friend for another beloved cat.

National Dairy Month. Start the summer with nutrient-rich dairy foods. From calcium to potassium, dairy products such as milk contain essential nutrients that can help you manage your weight and reduce your risk for high blood pressure, osteoporosis, and other health problems.

National Zoo and Aquarium Month. June is an excellent time to explore your local zoo and aquarium as well as the websites of America's great zoos and aquariums. Many of them have excellent educational resources—photographs, videos, facts, lesson plans, activities, and sounds so real you'll think you're there.

PTSD Awareness Month. The purpose of PTSD Awareness Month is to raise public awareness of PTSD and effective treatments and help all those affected by PTSD. Mental health experts aren't sure why some people develop PTSD and others don't, but if stress reactions don't improve over time and disrupt everyday life, seeking help to determine whether PTSD is present is important.

National Automotive Service Professionals Week, June 11-17. A weeklong celebration to honor the commitment and dedication of the automotive, truck, collision specialists and parts specialists who keep our vehicles running safely.

Men's Health Week, June 12-18. The purpose of Men's Health Week is to heighten the awareness of preventable health problems and encourage early detection and treatment of disease among men and boys. This week gives health care providers, public policy makers, members of the news media, and individuals an opportunity to encourage men and boys to seek regular medical advice and early treatment for disease and injury.

National Nursing Assistant Week, June 15-22. Nursing assistants work in hospitals and nursing homes performing everyday living tasks for the elderly, chronically ill, or rehabilitation patients who cannot care for themselves. This week is set aside to recognize the nursing assistants who dedicate their lives to the well-being of others.

Global Day of Parents, June 1. The Global Day of Parents was proclaimed by the UN General Assembly in 2012 to honor parents throughout the world in appreciation of their selfless commitment to children.

Flag Day, June 14. Fly Old Glory with pride!

Father's Day, June 18. A day to honor fathers everywhere.

What do the instructions say? Creativity expert

Yoram Solomon often conducts workshops that teach people to approach problems with an open mind. In one exercise (recounted on the Inc. magazine website), he asks participants to build a structure out of a sheet of paper. Some cut the paper into smaller pieces, although his instructions don't specifically say they can.

Once everyone is finished, Solomon asks, "Did the instructions allow you to cut the paper?" Most believe they've done something wrong. But one person usually pipes up with, "You didn't say we couldn't, either."

"To be creative," Solomon points out, "don't assume restrictions that don't really exist."

Beware these creativity myths

Creativity can seem magical and mysterious, but you shouldn't make assumptions that can hold your imagination back. Watch out for these misconceptions that can impede your efforts to find innovative ideas and solutions:

- The "eureka" moment. Many people believe that creativity is a sudden flash of insight. More often it's the result of research and persistence, immersing yourself in a subject, and then building on what you learn.
- Inborn creativity. You aren't necessarily born with the ability—or inability—to think creatively. You can learn the knack by asking questions, looking at things in new ways, and challenging the status quo.
- Uniqueness. Good ideas don't always spring from something new. Often the best ideas and solutions come from combining separate elements in different ways.
- Lone wolves. The stereotype of the genius working alone in an office or laboratory is misleading at best. Although some mavericks do produce good ideas totally on their own, many of the best ideas and solutions are the result of collaboration by smart, motivated people.
- Brainstorming. Brainstorming sessions can produce results if they're focused on a specific issue. If it's just a free-form session of throwing ideas around, chances are you won't generate practical solutions. Keep the discussion centered on the problem you're trying to solve.
- No limits. Creativity may seem to thrive on the concept of thinking beyond boundaries. In reality, constraints can force your thinking in the right direction. Try setting some limits to what you want to create—size, budget, deadlines—and see how that helps focus your imagination.

Flying in the face of disaster

In the 1980s and early '90s, Continental Airlines was a disaster. The organization had gone bankrupt twice and was on its way to a third (and final) catastrophe. It had gone through 10 presidents in 10 years, and employees mistrusted management.

Then in 1994 Gordon Bethune stepped in. Instead of running around willy-nilly trying to stamp out the various raging fires, Bethune took a step back to return to the basics. He identified Continental's key goals so that employees' efforts would be concentrated on them rather than diffused by the disaster of the moment. One of his areas of focus was creating a corporate culture. Without the commitment of the employees, the other goals would be impossible.

Drawing on the organization's history of excellence in service, he rallied the workforce. Bethune discovered that the employees weren't bad—they just worked in a dysfunctional organization. So they were quick to get behind his new leadership.

Senior management was a different story. Bethune knew he had to make wholesale changes, and that meant getting rid of the bureaucracy. In a couple of months, Bethune and his top executives replaced 50 of the company's 61 officers with 20 top-notch people.

The changes were dramatic. In one year's time, Continental went from being ranked the worst in customer satisfaction among major airlines to first.

The birth of 'excellence'

Tom Peters didn't exactly give birth to excellence, but he did establish the idea that companies can achieve excellence under the inspiration of a management guru—like himself.

It all began in the spring of 1978. John Larson of McKinsey's San Francisco office was set to give a presentation to a client. But his computer crashed and took with it his notes. He turned to another consultant, Tom Peters, to throw together a presentation that would satisfy the client.

Peters had just returned from traveling the world to compile research on best practices in business. Up until then, his research had been collecting dust after he had presented it to the McKinsey powers that be. With an opportunity to present his findings again, Peters gathered his data. In search of a sexy title to give his presentation, Peters came up with "Excellence." It was a hit.

Eventually, Peters edited the material into a manuscript. Continuing with the idea of excellence, he titled the book *The Secrets of Excellence*. But the title didn't fly with the McKinsey folks, who feared that clients would think the company was selling the secrets of client operations. In 1982, Peters and co-author Robert Waterman renamed it the more politically astute *In Search of Excellence*. And thus was excellence born.

Stay safe when working in the heat

When heat and humidity combine to reduce the amount of evaporation of sweat from the body, outdoor work can become dangerous even for those in good shape. The key rules for coping with heat are to drink plenty of water to avoid dehydration and slow down and cool off when experiencing fatigue, a headache, a high pulse rate, or shallow breathing. Overheating can cause serious, even life-threatening conditions such as heatstroke. Look out for these symptoms of heat illness:

- Heat cramps. Working in hot weather can lead to muscle cramps, especially in the legs, because of brief imbalances in body salts. Cramps become less frequent as a person becomes used to the heat.

- Heat syncope or fainting. Anyone not used to working in the heat can experience a quick drop in blood pressure that can lead to fainting. As with heat cramps, the best approach is to take it easy.

- Heat exhaustion. Losing fluid and salt through perspiration or replacing them in an imbalanced way can lead to dizziness and weakness. Body temperature might rise, but shouldn't exceed 102 degrees. The best defense is to take it easy and drink plenty of water. Don't take salt tablets without consulting a physician.

- Heatstroke. In some cases extreme heat can upset the body's thermostat, causing body temperature to rise to 105 degrees or higher. Symptoms are lethargy, confusion, and unconsciousness. Even a suspicion that someone might be suffering from heatstroke requires immediate medical aid. Heatstroke can kill.

Stay awake on the road

Fatigue can be a killer, especially when you're driving on the open highway for long periods of time. Here are a few tips for staying safe at the wheel:

- Get enough rest. Try not to start a trip late in the day. Long-distance driving is tough enough in the daytime. Be ready and awake.

- If possible, don't drive alone. Passengers can take turns driving, or at least help you stay awake if you need stimulation.

- Adjust your car's environment. Use your controls to keep you awake and alert. Keep the temperature cool, with open windows or air conditioning in the summer and frugal amounts of heat in the winter.

Try ginger for its health benefits

Looking to get over a cold a little more quickly, or ease muscle soreness? A little ginger may help. Check out this list of ginger’s healthy benefits from the Huffington Post website:

- **The common cold.** Some research suggests that ginger helps your body sweat out a cold, as well as producing a germ-fighting agent called dermicidin, which can protect you from bacteria and fungi.

- **Muscle aches.** One study by the American Pain Society found that taking two grams of ginger for 11 days can significantly reduce aches and muscle soreness caused by exercise. That’s because ginger contains anti-inflammatory compounds known as gingerols, which prevent the transmission of pain from inflammation. Try adding a few slices of ginger every time you drink a glass of water.

Watch out for ‘masked’ hypertension

Being diagnosed with high blood pressure may be scary, but thinking your blood pressure is normal when it’s not? Scarier still.

The Live Science website reports that almost one in eight Americans who believe their blood pressure is just fine may really have a masked form of hypertension that doesn’t show up when they visit their doctors. Instead their blood pressure is elevated during their daily activities, so they may be at increased risk of heart disease without realizing it.

To diagnose masked hypertension, researchers suggest wearing 12-hour blood pressure monitors that take readings through the day.

The flip side of this phenomenon is so-called “white-coat hypertension,” in which patients’ blood pressure increases at the doctor’s office (possibly from nervousness?) but is normal the rest of the time. Unlike masked hypertension, these people don’t appear to be at a higher risk of heart disease.

Cleaner air = longer life

Take a deep breath. Lots of them. You’ll be breathing longer these days, thanks to improved air quality. Researchers at Brigham Young University and the Harvard School of Public Health, writing in the *New England Journal of Medicine*, say that since the introduction of the Clean Air Act in 1978, Americans’ life expectancy has increased by 2.72 years. Although changes in smoking habits and better socioeconomic living conditions are a major factor in our increased longevity, the scientists note that as much as five weeks of our lengthened lifespans are due to better air because of cuts in auto emissions, steel mills, diesel engines, and coal-fired power plants.
