## FROM THE DESK OF THE PRESIDENT

*Kitty Wagner*

---

**H**appy New Year to you all!

Be sure to make plans to attend the Annual Meeting on Monday, January 9, 2017. If you are unable to attend the meeting in person be sure to fill out your proxy and bring it to the office. We will be having an election and need a quorum so it's particularly important to cast your vote.

This will be my last article for the Gazette as President of this Association. It was never my intention to hold this position but fate intervened and there I was. Due to that fact I have spent many sleepless nights over this past year concerned that my decisions were good ones. I have always kept the best interest and integrity of this Community first in my mind. On that note I bid you farewell and wish the best for the new Board.

## FROM THE BOARD OF DIRECTORS

---

**T**he Holiday trash schedule will not be affected. Christmas Day and New Year's Day are both on Sunday this year so Waste Pro will collect trash on Monday and Thursday and recycle on Wednesday.

## MAD HATTERS LUNCHEON

*Susan Callahan*

---

**T**he Mad Hatters Luncheon is Tuesday, January, 2017 at 12:00 P.M. Our Hostess this month is Susan Callahan and we are going to RoosterFish Grill located at 776 Missouri Ave in Largo. If you need a ride call Susan at 978-476-4333.

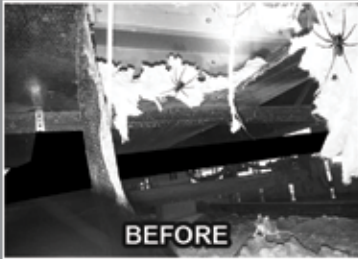

A special thanks goes to Jan Kearney our Hostess for December we had a great time at Caretta On The Gulf.

## WHO AM I?

---

**N**o one was able to identify December's WHO AM I? so I'll archive and run it in another edition.

## **Singles Luncheon**

*Anna Schloder*

---

**T**he Singles Luncheon will be on Friday, January 13, 2017 at 12:30 P.M. Our Hostess this month is Anna Schloder and we are going to The Pub located at 20025 Gulf Blvd. in Indian Shores. If you need a ride call Anna 596-9063.

A special thanks goes to Jan Troke our Hostess for December we had a great time at Olive Garden.

## **MARILYN'S LIL STORE**

*Joadee Edwards*

---

**S**aturday, January 14, 2017 from 8:00 A.M. - 1:00 P.M. is our annual fundraiser benefitting the Glenwood Social Committee.

Wednesday, January 11, 2017 at 11:00 A.M. will be the meeting for all volunteers and anyone selling at individual tables.

Thursday, January 12, 2017 at 3:00 P.M. we need volunteers to set up the tables in the clubhouse.

Friday, January 13, 2017 at 8:00 A.M. we will need volunteers and vehicles to move merchandise from the store to the clubhouse and set everything up. People who have rented individual tables can start setting up at approximately 11:00 A.M. At 2:00 P.M. we will begin selling to the community so as to avoid the crowds on Saturday. The doors will be locked at 3:30 P.M.

Saturday, January 14, 2017 the sale is from 8:00 A.M. - 1:00 P.M. All baked goods should be at the clubhouse no later 7:30 A.M. so they can be displayed by the time the doors open at 8:00. All volunteers should be at the clubhouse and garage by 7:00. Also, this year I'm looking for volunteers who own golf carts willing to give shoppers with larger purchases a ride to their vehicle in the event they were unable to get a parking space near the clubhouse. A sign-up sheet will be provided on the bulletin board at the clubhouse for those willing to participate.

**A Complete Listing of Resident Services  
can be found on the page before your calendar**

## Monthly

---

**National Bath Safety Awareness Month.** In the United States, an average of 370 people across all age groups suffer bathtub or shower-related injuries every day. Slips, falls, and hot-water burns are the prime causes of accidents in the bath and the second leading cause of accidental death and disability. Remember: Bath safety is an integral part of general home safety.

**National Blood Donor Month.** Some give blood because they've been asked to. Some know a family member or a friend who might need blood someday. Some simply believe it's the right thing to do. Whatever your reason, the need is constant and your donation is important to maintaining a healthy and reliable blood supply.

**National Stalking Awareness Month.** The National Center for Victims of Crime launched National Stalking Awareness Month (NSAM) in January 2004 to increase the public's understanding of the crime of stalking. The National Stalking Awareness Month website ([www.stalkingawarenessmonth.org](http://www.stalkingawarenessmonth.org)), launched in January 2009, provides a wealth of information about this crime and about the nationwide observance.

**National Train Your Dog Month.** The Association of Professional Dog Trainers began the National Train Your Dog Month campaign in 2010 to raise awareness of the importance of socialization and training, to inform the public that training your dog can be easy and fun, and to help new pet parents start off the year right with their newest family member.

## Weekly

---

**Diet Resolution Week, Jan. 1-7.** This week is about focusing and altering the types of food you consume rather than just reducing the amount. Try eating at least one piece of produce every day (fruit or vegetable), eating fish at least once a month (once a week would be better), and drinking at least two glasses of water a day.

**National Sugar Awareness Week, Jan. 16-20.** Can you go five days without sugar? Take the challenge to find out how difficult finding foods that do not contain some form of sugar can be, as well as how this substance can affect your body, mind, emotions, and life.

**No Name-Calling Week, Jan 16-20.** No Name-Calling Week was inspired by the popular young adult novel *The Misfits*, by James Howe. The No Name-Calling Week Coalition was created by GLSEN and Simon & Schuster Children's publishing and has been adopted by schools around the U.S., growing into one of the largest bullying-prevention initiatives in the country.

## The five-second rule may not be so safe after all

---

**W**e've all heard of the five-second rule: If a piece of food drops on the floor, it's safe to eat if you grab it in five seconds or less. That may not be true, though, according to an article on the Medical News Today website.

Researchers at Rutgers University decided to test the rule. They used four types of surfaces: stainless steel, ceramic tile, wood, and carpet. They also choose four kinds of food: watermelon, bread, bread with butter, and gummy candy. Finally, they tested four different contact times: less than a second, five seconds, 30 seconds, and 300 seconds.

They cultivated bacteria similar to salmonella and spread it on the different surfaces, allowed it to dry, then dropped each food on each surface for each designated time period. The results: The bacteria was able to contaminate the food almost instantly in every case, although with different degrees of contamination. Watermelon soaked up the most bacteria because of its moisture; the gummy treats were affected the least due to their hard surface. Nonetheless, the scientists are confident that their findings disprove the five-second rule. So you're probably safer throwing out any food on the floor.

.....  
: A fit, healthy body—that is the best fashion statement.

## Plutonian moon's red spot explained

---

**J**upiter is famous for its great red spot, but it's not the only red patch in the solar system. Charon, a moon of Pluto, also sports a reddish blotch near its north polar region, and scientists now know what causes it, according to the Sci-News website.

The spot, nicknamed Mordor Macula, covers an area the size of New Mexico, and is made of methane that comes from Pluto. Once the methane escapes Pluto's atmosphere, it falls to the surface of Charon's north pole and then freezes (winter temperatures in Charon's polar region can drop as low as negative 430 Fahrenheit). UV light from the sun turns the methane into heavier hydrocarbons that eventually become reddish organic materials known as tholins.

Data came from the New Horizons space probe. One of the project's scientists characterized the discovery as the realization that Pluto is a cosmic graffiti artist, spray-painting its nearest neighbor red.

## Marriage in trouble? Watch for these signs

---

Just because you're not having fights with your spouse doesn't mean everything is fine in your marriage. It could be in trouble without you and your partner realizing it. Watch for these signs that you need to get back on track:

- **Your partner isn't first on your list.** When you've got big news, whom do you tell first? If it's not your spouse, you may be disconnecting from him or her. Communicating about what's important to both of you is vital in an honest, healthy relationship.
- **You're focused on yourself.** Strong marriages rest on mutual goals. If you forget your partner's needs while making your own plans, he or she may begin to do the same. Although you each may want some personal time, carve out time to spend with each other—talking, taking a walk, watching a movie, or something else you both enjoy.
- **You compare your spouse to others.** Try to avoid thoughts like, "I wish Lynda was more like Diane," or "Why doesn't he bring me flowers like Paula's husband?" Comparisons lead to dissatisfaction and resentment. Be open about what you want so your partner has a chance to fulfill your needs.
- **You lead separate lives.** You may not be fighting, but you're also not doing much together. Do you watch separate TV shows, go to bed at different times, eat meals without the other person? Make more of an effort to get in sync so you don't find yourself living alone without actually moving out.

## Quick hits

---

Want to liven up the conversation at your next party? Try some of these one-liners:

- "I've been diagnosed with a certain type of brain disorder where I deny the existence of certain 1980s rock bands. There is no Cure."
- "My wife probably tells me I never listen to her."
- "And the award for best neckwear goes to ... well, look at that. It was a tie."
- "No matter how nice your son or daughter is, German children are kinder."
- "Thank you for my student loans. I don't think I can ever repay you."

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

George Lordstrom, Saint Petersburg, FL

## Oldest fossils may have evolved during hellish times

The world's oldest fossils have been discovered in Greenland, according to The New York Times. The fossils, known as stromalites (mounds that have built up over time around single-celled microbes called cyanobacteria) were found in an outcrop of rock called the Isua supracrustal belt on the southwest coast of Greenland.

The stromalites are 220 million years older than stromalites found in western Australia, previously thought to be the world's oldest fossils at 3.48 billion years old. If they're confirmed as evidence of ancient microbial life, the fossils will push back the estimated date of the formation of life on Earth to about four billion years ago, during a period when the planet was bombarded by meteors that turned oceans into steam and the surface into lava—a time dubbed the Hadean stage of Earth's history.

## Genes may control your coffee intake

The amount of coffee you drink may be based on your genetic makeup. A study by an international team of researchers, written up in the journal *Scientific Reports*, identified a gene that regulates the expression of other genes connected to caffeine metabolism.

The gene, PDSS2, hampers cells' ability to break caffeine down, which causes it to remain in the body longer. Thus, people with the gene will feel the effects of caffeine longer, reducing their desire for more.

The scientists examined genetic data from two groups of people in Italy, and they asked participants to record how many cups of coffee they drank each day. People with a variation in their PDSS2 gene tended to drink less coffee than those without the variant. The study was replicated in a similar study carried out in the Netherlands.

So if someone ever tells you that you're drinking too much coffee, you can blame it on your genes.

## Punctuation is powerful

---

**M**aria Feodorovna, the wife of Tsar Alexander III of Russia, was known for her charitable works. According to one story, she once saved a condemned man from exile in Siberia by moving a single comma in the warrant signed by her husband.

The original document read: “Pardon impossible, to be sent to Siberia.” The Empress moved the comma so the warrant read: “Pardon, impossible to be sent to Siberia.” The man was saved and released.

.....  
: There is no greater agony than bearing an untold story inside you.  
: —*Maya Angelou*

## Entice children and grandchildren to go on walks

---

**T**aking a walk is one of the simplest forms of exercise you can imagine. It’s also a fun way to spend time with your family, especially your children. Try these tips for getting them out of the house and on the trail:

- Make it an adventure. Don’t just say, “Let’s go for a walk.” Spark your child’s interest with something like, “Let’s look for leaves to collect,” or “Let’s find some animal footprints.” This makes the walk sound like more of an activity and less like a chore.
- Think ahead. Before setting off, think about where you want to go. Will it be safe for your child? You don’t want to wear children out, let them get too muddy, or force them to dodge cars and other obstacles. Plan a short walk at first. If children are still enthusiastic, you can always lengthen it.
- Walk at your child’s pace. Don’t make it a race (unless your child actually wants to run one). Match your speed to your child’s. Encourage kids to stop and look at things—bugs, rocks, trees, etc. Be willing to go off and explore in a different direction if your child wants.
- Take your pet. Most children love animals. If you don’t have a dog of your own, ask your neighbors if they’d like you to take their dog for a walk. Children will get a chance to run and play, making the walk more energetic and enjoyable.
- Dress appropriately. Make sure you and your children have the right shoes and other clothes. Sunscreen and hats are a must for bright days. Dress in layers so you can add or remove clothing depending on the temperature. If the weather is wet, wear boots.

## Pew-pew-pew! Gaming racks up high scores—and sales

---

Americans love their games, especially the electronic variety. The Entertainment Software Association surveyed more than 4,000 U.S. households on their gaming habits. If you've ever spent 12 hours slaughtering virtual zombies, these findings might be of interest:

Sixty-three percent of U.S. households in the survey have at least one frequent gamer. Forty-seven percent of gamers are between 18 and 49 years old. The average male gamer? He's 35 years old; the average female gamer is 44. The typical frequent game purchaser is 38; 60 percent of them are men.

They're spending a lot, too. Gamers spent \$23.5 billion on gaming in 2015, \$16.5 billion on gaming content alone.

## We're living longer (at least some of us are)

---

Life expectancy has increased by five years since the year 2000, according to the World Health Organization, but like many things, it's not evenly distributed. Here's a look at the average life expectancy at birth in the top and bottom five nations:

### Highest

- Japan 83.7
- Switzerland 83.4
- Singapore 83.1
- Australia 82.8
- Spain 82.8

### Lowest

- Cote d'Ivoire 53.3
- Chad 53.1
- Cent. African Republic 52.5
- Angola 52.4
- Sierra Leone 50.1

Women in Japan can expect to live the longest—86.8 years. For men, the highest life expectancy is in Switzerland, where the average male lives to 81.3 years.

.....

With me, everything turns into mathematics.  
—René Descartes

Ninety-nine percent of all statistics only tell 49 percent of the story.  
—Ron DeLegge II

## Use limitations to your advantage

---

Sometimes our limitations and constraints force us to find creative solutions. Here are two examples:

- Django Reinhardt. This jazz musician had two fingers fused together due to an accident as a child. Undaunted, he learned to play the guitar with his remaining fingers and became internationally famous—so much so that Black Sabbath guitarist Tony Iommi copied Django’s technique when he lost the tips of his right hand’s middle and ring fingers in an accident at a sheet metal factory.
- Sir Richard Branson. The British businessman has turned his dyslexia into an advantage. He says it’s forced him get better at hiring and delegating, and prevents him from micro-managing employees’ tasks because sometimes he literally can’t take over.

## Making the bed

---

South African leader Nelson Mandela was known for many things, not the least of which was his humility even after he became famous around the world. Mandela always made his own bed, no matter where he traveled. One time he was visiting Shanghai, where he stayed in a very fancy hotel. Chinese hospitality requires that you allow the maid to clean your room. Doing it yourself can be regarded as an insult.

An aide tried to explain this to Mandela. In response, the leader asked for his maids to be sent up to his room. The aide talked to the hotel manager, and soon Mandela was speaking to the staff. He explained that he always made his own bed wherever he was, and the maids agreed.

“He never really cared about what great big people think of him,” the aide wrote later, “but he did care about what small people thought of him.”

## No magic

---

An elderly gentleman was being treated by his doctor. “You’re in pretty good shape for a man your age,” she said. “But I’m only a doctor, not a magician. I can’t make you any younger.”

“I know that,” the man said. “All I want is to go on getting older.”

Have You Looked **UNDER** **PROTECT**  
Your Home Lately? **YOUR HOME**

**Fix Small Problems Today**  
**Before They Cause Serious Damage!**

We will inspect and photograph any issues, showing you pictures of the underside of your home. Damaged & worn vapor barriers can create high energy costs and allow mold & mildew to grow and weaken your sub floor creating "Soft Spots". Keep Mold, Moisture & Animals out of your Home.

Repairs will be made quickly and include a  
**20 Year Transferable Warranty!**

**10%**  
**MILITARY**  
**DISCOUNT**
