## Monthly

---

**Be Kind to Writers and Editors Month.** Yes, it's a real thing, so be creative in your efforts to shamelessly promote your craft while persuading your colleagues to pay tribute to your brilliance and dedication.

**Intergeneration Month.** Promoting the sharing of knowledge, awareness of needs, exchange of ideas, and growth that can occur only when people interact with those of differing age groups. Expand your base to broaden your horizons.

**National Pediculosis Prevention Month.** September means our children have gone back to school, and it's time to review the facts and figures about head lice. Go to <https://www.head-lice.org/> to learn more and protect your family from an outbreak.

**One on One Month.** Take time to get better acquainted with your staff, team members, and coworkers to boost morale in your organization. Carve out quality time to do the same with family, friends, and members of your community.

## Weekly

---

**International Enthusiasm Week, Sept. 1-7.** Each of us can find something to be grateful and enthusiastic about this week and each week thereafter. Count your blessings and enjoy life.

**Self-University Week, Sept. 1-7.** The first week of the month is committed to lifelong learning. Open your mind to the discoveries that await the daring among us with a desire for knowledge.

**Line Dance Week, Sept. 10-15.** If you can follow directions, you can learn to line dance. It's simple and fun, as long as you don't step on anyone's toes.

**International Clean Hands Week, Sept. 16-22.** As autumn arrives, so too does the start of the cold and flu season. Keep in mind that proper handwashing with soap and water can help prevent the spread of germs in schools, workplaces, and other public spaces.

**Banned Books Week, Sept. 23-29.** Most banned books deal with themes of inclusion, tolerance, and diversity. Read a banned book this week, and support the American Library Association as it champions free speech. The theme this year is, "Banning Books Silences Stories. Speak Out!"

## One of those days

---

A librarian was scanning a stack of returned books when she heard, “Book, book, book, book.”

She looked up and saw a chicken standing before the counter. The chicken looked at her and then at the stack of books and again said, “Book, book, book, book.”

The librarian handed the chicken a random book from the pile; the chicken grabbed the book in her beak and ran out of the library.

A few minutes later the chicken returned to the library with the book and tossed it on the counter. Again, the chicken said, “Book, book, book, book.”

The librarian handed the chicken another book. The chicken ran off with it only to return minutes later, slamming it on the counter, flapping her wings, and shouting, “Book, book, book, book!”

The librarian handed the chicken another book. This time when the chicken wandered off, the librarian followed. She tracked the chicken down the block, to the park, where a frog was sitting on the edge of a pond. The chicken showed the frog the book, and the frog said, “Read-it, read-it, read-it, read-it.”

## You know you're getting old when ...

---

Three elderly gentlemen were taking a stroll in the park. The first man said, “Isn't it windy?”

The second man replied, “I'm pretty sure it's Thursday.”

The third man said: “Me, too. Let's go get some lemonade.”

## A knock-knock joke

---

“Knock, knock.”

“Who's there?”

“Repeat.”

“Repeat, who?”

“Who, who, who, who ...”

## Plan your cookout for safety

---

If you're planning a cookout for Labor Day—or any other time—you should observe the following safety tips:

- Always wash the racks on your grill. Unwashed racks can be breeding grounds for bacteria and could contaminate your food at your next cookout. Use a brass-bristle brush to remove all the debris from the rack.
- Never place your grill close to your picnic table or other seating. Place it instead far away from where people will be gathered.
- Don't wear loose or flowing clothes when you are grilling. A drooping sleeve could brush against the grill or coals and catch fire.
- Use heat-resistant cooking mitts and long-handled utensils to avoid burns.
- Make sure you keep a fire extinguisher or a large spray bottle filled with water nearby in case of fire emergencies.
- Never add charcoal starter or fluid to coals that are already warm or hot. The fluid could cause flames to flare dangerously.
- Never use alcohol, kerosene, or gasoline to start a fire or grill. Using any of these fluids to start a fire can cause an explosion.

## Saltwater trout evolve to freshwater species

---

Evolution normally takes place over thousands or millions of years, but sometimes it can happen more quickly. The Science website reports that a group of saltwater steelhead trout transplanted from California to the salt-free waters of Lake Michigan in the 1890s have evolved into a species that can live wholly in fresh water—in only 100 years.

Genetics helped. The steelheads hatch in freshwater rivers before swimming out to the ocean for much of their lives, returning to the rivers to spawn. That probably allowed key genetic differences to develop in their new home, demonstrating how quickly an organism can change and adapt to a new environment if it has the right genetic makeup.
