"Thank you for doing a very professional job on my roof. I am not easily pleased with most contractors, ASC is the exception! Your crew was on time, sometimes even early. There are no leaks and it looks great. ASC was not the cheapest, which proves you get what you pay for."

No more dumb blondes

The stereotype of the dumb blonde doesn't hold up, according to a study from The Ohio State University. Researchers studied data from more than 10,000 Caucasian women and found that natural blondes had an average IQ score within 2 or 3 points of brunettes and redheads. No word on whether the researchers determined that blondes really do have more fun.

The difference between the poet and the mathematician is that the poet tries to get his head into the heavens while the mathematician tries to get the heavens into his head.

—G.K. Chesterton

SAVE TIME AND MONEY BY CALLING US TODAY TO GET YOUR PROJECT STARTED!

Did you know that August is also...

Back to School Month. As summer draws to a close, back-to-school season is in full effect. Remember to safely share the roads with school buses, pedestrians, and bicyclists, and provide children with the necessary knowledge to stay safe at school. Whether children walk, ride their bicycle, or take the bus to school, they—and the motorists around them—should remember to take proper safety precautions .

National Black Business Month. During August, individuals, institutions, and businesses are encouraged to visit at least one black-owned business per day. The increased sales resulting from that traffic could result in more than 40,000 additional jobs during the month and as many as 450,000 new jobs if the habit is continued over the course of a year.

National Immunization Awareness Month. National Immunization Awareness Month (NIAM) provides an opportunity to highlight the value of immunization across a person's lifespan. Activities focus on encouraging all people to protect their health by being vaccinated against infectious diseases.

Clown Week, Aug. 1-7. Celebrations take on a variety of forms, such as putting on shows in malls, child care centers, hospitals, and nursing homes, and clown appearances in parades, grand openings, and other places.

National Fraud Awareness Week, Aug. 7-13. Businesses and government agencies around the world lose an estimated 5 percent of their annual revenues to fraud. National Fraud Awareness Week seeks to educate everyone on the dangers of fraud and how to protect themselves from criminal activities.

Motorcycle Week, Aug. 14-20. For the motorcycle rider and lover, a week dedicated to the vehicle that millions of Americans enjoy. Ride, celebrate, and make new friends on the road.

National Aviation Week, Aug. 14-20. A celebration of flight, observed during the week of Orville Wright's birth, Aug. 18. Along with his brother Wilbur, Orville Wright built and flew the world's first successful airplane in Kitty Hawk, N.C., in 1903.

International Beer Day, Aug. 5. Enjoy your favorite beer, or try a new one—responsibly, of course.

World Elephant Day, Aug. 12. Asian and African elephants are loved, revered, and respected around the world, yet we teeter on the brink of seeing the last of these magnificent creatures.

National Dog Day, Aug. 31. Celebrate your dog—and dogs everywhere.

Like a good neighbor . . .

We depend on our neighbors to water our plants and walk our dogs when we're out of town—or do we? A study from the Pew Research Center found that only a little more than half of Americans—52 percent—say they trust all or most of their neighbors, and 48 percent they trust only some of their neighbors, or none at all.

The Pew Center found that among households with incomes of \$75,000 or more, 67 percent of residents trust all or most of their neighbors, but in households earning less than \$30,000, only 37 percent feel the same.

Race may also be a factor, although the connection is unclear: Sixty-two percent of white Americans say they trust their neighbors, just 31 percent of African-Americans do, and only 27 percent of Hispanics.

The Zika virus: Protect yourself with the facts

The Zika virus is spreading in the headlines and around the world, but you don't have to panic. The best defense is information. Here are some basic facts about the virus from the NBC News website:

- **Origins.** Zika comes from the continent of Africa. It was first observed in 1947, but didn't seem dangerous. That changed when it migrated across the South Pacific and ultimately arrived in Brazil, where immunity against the virus is low.
- **Effect.** The virus itself doesn't seem to cause major health problems in most people beyond a rash, headaches, and fever. But it can in some cases cause paralysis, nerve damage, encephalitis, and miscarriages, as well as birth defects and deaths in newborn children.
- **Transmission.** The Zika virus is mostly spread by mosquitoes native to tropical regions. It can also be sexually transmitted.
- **Reach.** Zika has already arrived in the United States, where approximately 700 people have been infected after traveling to foreign countries. Mosquitoes that carry the disease are common in many areas, even as far north as New York, so localized outbreaks could occur in several states.
- **Prevention.** Air conditioning and windows screens are both good defenses against the mosquitoes. In addition, officials advise that people wear long clothing and insect repellent when going outside.

Get started on your writing project today

If you've dreamed of writing a novel, a short story, or even a poem, but you don't know how to get started, don't worry. Most creative writers have trouble with the first page from time to time. Try these tips for charging up your imagination:

- **Try some exercises.** Instead of launching right in on your thousand-page trilogy, try writing a few short scenes to get the hang of the process. Don't be a perfectionist—just get your story down as quickly as you can until you're used to writing.
- **Keep a notebook.** Whether you use paper or a smartphone, keep a running list of observations about the people and things you encounter every day. Use it to spark your imagination when you feel low on ideas.
- **Find the right time.** Determine when you feel most creative. For many people, it's the first few hours of the morning, but some do just as well writing late at night.
- **Cut yourself some slack.** Your first attempt probably won't be perfect. Remember that you're just trying to get your ideas out on paper (or the screen). You'll have plenty of time to rewrite and revise later.
- **Have fun.** If writing is drudgery, it may not be for you. Whatever you're working on, relax and try to enjoy what you're doing. Your emotions will show through in the finished product.

Shake up your habits to spark innovation

Innovation doesn't happen all by itself—you and your team have to work persistently to develop creative new ideas. Here are some strategies to kick your innovative impulses into high gear:

- Change your routine. Reschedule your day so you're doing things in a different order.
- Vary your surroundings. Rearrange your office for a different view, or switch offices with someone else if that's practical. Hold meetings off-site.
- Share data differently. Look for different ways to distribute information. For instance, write a report in rhyme, or deliver a presentation as a skit.
- Switch jobs. Spend a day doing someone else's job—inside your department or outside it.

Act of compassion

In these days of political polarization, this story about acceptance seems appropriate: When former Vice President Hubert Humphrey died, hundreds of political figures from around the world came to his funeral. One was former President Richard Nixon, who resigned from office in the wake of the Watergate scandal. Everyone wondered how the disgraced ex-president would be received.

When then-President Jimmy Carter arrived, he noticed Nixon standing alone. Instead of heading for his seat, Carter walked toward Nixon, held out his hand, and then gave Nixon a hug, saying, “Welcome home, Mr. President, welcome home!”

Despite belonging to a different political party, Carter decided to show compassion toward someone whom many ignored. It was an extraordinary gesture of acceptance.

A life in books

Pulitzer Prize-winning writer Geraldine Brooks’ love of books from a young age was supported by a woman she never met. According to *The Power of Good*, by Mark McCrindle (Hybrid Publishers), Brooks’ grandfather mentioned to a friend named Althea Glasby that his granddaughter loved to read, and so every year for Christmas young Geraldine got a book signed, “To Geraldine, with love from Althea Glasby.”

“I have no idea what this woman spent so much time and thought on a child she didn’t know,” Brooks said as a grownup. “Whatever the reason, I wish I could thank her in person. I wish I could tell her how those books shored up a love for the written word that grew over time into a career and a calling. I would like to give her one of the books I’ve written, nice, hardback first edition. The signature wouldn’t be as fine and fluid as hers, but in my own pedestrian scrawl I would say thank you, for the gifts that helped to lead me to a life in books.”

A costly game

Bill and Fred were playing golf one day. When they came to a hole with a large water hazard, Bill teed up and watched his ball drop into the water. He checked his golf bag and found he didn’t have any extra balls, so he asked Fred to give him one.

That ball, too, went into the water, so Fred gave him another—which also sank. After the third golf ball disappeared into the drink, Fred said, irritated, “You know, those golf balls cost \$10 a piece!”

“Hey,” Bill said, “you shouldn’t play the game if you can’t afford it.”

Loneliness is bad for the heart

Loneliness and isolation may be bad for your mental health, and they can also have a negative impact on your physical health. That comes from a British study reported on the CBS News website, which found that in addition to high blood pressure and compromised immune systems, loneliness can apparently lead to problems with the heart.

The British researchers looked at data from more than 180,000 people. They found that adults with few friends or social relationships were 29 percent more likely to suffer a heart attack or angina, and also 32 percent more likely to have a stroke.

The cause and effect relationship remains unclear, but the findings suggest that strong relationships can influence your health in many ways.

Watch for the dangers of carbon monoxide

Carbon monoxide (CO) is a colorless and nearly odorless gas created by the incomplete burning of solid, liquid, and gaseous fuels. It's poisonous to people and pets, so be careful. Symptoms of the poisoning are:

- Headache
- Fatigue
- Shortness of breath
- Nausea
- Dizziness

To prevent CO poisoning, take these precautions at work and at home:

- Buy and install a CO alarm. Make sure it meets safety requirements, and follow the directions for proper placement and installation.
- Install appliances properly. Most of them should be installed by a professional.
- Check your appliances. Have your heating system inspected and serviced every year.
- Only burn charcoal outdoors. Never burn it in a tent, home, garage, vehicle, etc.
- Make sure you turn off fuel-burning engine equipment when you are inside a garage or basement. Just having the doors open does not ensure your safety.
- Always follow the manual directions when servicing fuel-burning equipment.
- Do not use gas appliances, such as ranges, ovens or clothes dryers, to heat your home.
- If you use a fuel-burning appliance that is approved for indoors, make sure it is vented to the outside following the manufacturer's instructions.
- Install and use exhaust fans over gas stoves.
- Open flues when you use your fireplace.

Lost in translation

Henry was visiting a distant country where he didn't know the language. He managed fairly well with the help of a guide, but on Sunday he wanted to go to church, and his guide had the day off. So he found a small church in the village where he was staying and followed a friendly-looking man inside.

The man greeted him and smiled, so Henry took a seat next to him and decided to copy his every action. When his new friend rose with the congregation to sing a hymn, Henry did the same, finding the hymn by looking at the man's hymnal. When the collection plate came around, Henry put in the same amount of money as the man next to him.

Toward the end of the service, the minister made some kind of announcement. The man next to Henry stood up, so Henry did too. The congregation gasped in shock.

After the service, the minister approached Henry. So Henry's surprise, the minister spoke English. "You don't know a word of our language, do you?" the minister asked kindly.

"Uh, no." Henry was nervous. "Is it that obvious?"

"Well, when I was announcing the birth of a new child and asked the father to stand up..."

The real problem

A little girl was running a high fever with a bad cough and an aching feeling throughout her body, so her father took her to see the doctor. After waiting for an hour, the doctor finally took them into her office for an examination.

"Now, Christina," she said after checking her heartbeat and looking down her throat, "What's bothering you the most?"

"My brother Sam," she replied honestly. "He breaks all my toys!"

High stakes

A man walked into a bar and ordered a beer. As he drank, he noticed slabs of beef hanging from the ceiling on hooks. "What's this about?" he asked the bartender.

The bartender smiled. "Well, if you can jump up and pull one of them, we cook it up and give you free beer all night. If you miss, though, you have to put \$100 into the charity jar we keep back here for orphans. What do you say?"

The man looked up, then shook his head. "Sorry. The steaks are just too high."

Try these tips when deadlines are tight

Being creative is hard enough when you've got time to sit and think, but when you're on a deadline, inspiration can feel impossible to summon. Don't give up, though. Try these tips for creativity when time is tight:

- **Eliminate distractions.** Find a quiet room, or put up a "Do not disturb" sign where everyone can see it. If you play music, keep it low and soothing so it doesn't disturb your concentration.
- **Don't watch the clock.** You'll only increase the pressure on yourself if you obsess about every passing second. Concentrate on your task, not on how much time you have to complete it.
- **Take a break.** Sometimes you need to let your mind relax. Take a short walk or get a cup of coffee and clear your mind by chatting with a co-worker or just thinking of a different subject.
- **Have a drink.** Of course you don't want to start drinking at work, but some studies suggest that a small amount of alcohol can loosen up your mind and help you develop new ideas. Just remember not to drink so much you can't get back to the task at hand.
