From your Board of Directors

There was no Board of Directors meeting scheduled in August, 2015. Our financial report for the month of July 2015 shows that income for the month was \$39,356 with expenditures of \$35,344. The financial statement for each month is posted on the bulletin board at the rear of the hall for everyone to review.

Caution! Driving on roads when we have a large volume of rain.

Slow Down!!!

From The Office

Shut off water valves

If you are using the water outdoors, please remember to shut off the valve at the house instead of just turn the nozzle on the hose.

Multiply Your Monthly Mania!

As you probably already know; patronizing the advertisers in this newsletter also pays YOU with our Monthly Mania Cash Give-a-Way. **We pay out \$400 every month to residents** who submit tickets they have received from using the businesses in the newsletter. Winning is easy, just patronize any advertiser in the newsletter, then submit either the ticket or a paid receipt to us for your chance to win!

Now You Have More Chances to Win!

We are now offering unlimited entries into our Monthly Mania drawing by just *SUGGESTING* a business to advertise.

Here is how it works:

1. Call our office and suggest a business to advertise in the newsletter
2. We will take down your information (name, address, phone number) and enter you into the next month's drawing for over \$400 in cash prizes
3. The more businesses you suggest, the more chances you have to win.
(To qualify each resident can only suggest a business once)

What businesses would you like to see advertising?

We have spots available in the following categories:

- | | | |
|-------------------------------------|--------------------------------------|-------------------------------|
| • Accountant/Tax Prep | • Foot Specialist - Podiatrist | • Moving Services |

Maintenance Staff Assistance

If you identify a maintenance item around the Community, please ask someone in the office (Jane or a member of the board) to complete a work order for Lam or Jim. This allows them to track, prioritize and complete their daily work load. Thank you!

Soliciting

Soliciting of any kind is not allowed in Golden Gate. If anyone comes to your door trying to sell anything, please be safe and just say no thank you; close your door and call the police non-emergency number (on page 2 of the Golden Gate Telephone Directory (727) 541-0758. Do not confront the solicitors and remember you are not being “mean” when you call the Police you are protecting yourself and your Community.

Articles for the Newsletter

Any article submitted to the Golden Gate Newsletter should have the author identified. If you have a computer with an email connection, articles may be emailed to ggmedia@tampabay.rr.com, preferably by the Monday before the third Tuesday of the month. The Board of Directors’ Meeting is the third Tuesday of the month and the agreement with the publisher gives us up to the day after the meeting to deliver copy to be published. If you don’t have a computer you may continue to deliver a double-spaced paper copy, again, preferably by the Monday before the third Tuesday of the month.

Returning Residents

U.S. Postal Service Carrier
If you are returning to the Community after being gone for the summer, please put a note on the outside of your box stating you are back. Also please remove sticker dot from your box.
Thank you.

WEED PROGRAM

As most of you are aware, we have a problem with the growth of weeds during the summer months, typically May through September. The weed problem we are concerned about is in the planter boxes and the front of the homes. Even those homes that have mulch or stones in the planter boxes will have weed growth.

The board does send "friendly reminders" to alert residents as stated in rule #16..."Each shareholder is responsible for the neat and orderly appearance of his or her premises at all times.

However, the general response to the friendly reminders has been less than satisfactory.

We would like to aid in solving this problem by having our maintenance staff spray weed killer in the planter boxes or in front of the home for any resident that desires to participate. There will be a \$40.00 per year fee to cover the cost of the material for spraying from May through September. If you wish to participate in this program, send a check or pay cash to Jane in the office. If you choose to participate in this program, our maintenance staff will spray, beginning in May and ending in September. However, if you have ornamental plants that could be harmed by the spraying, you will have to make other arrangements, since we will not be responsible for any damages. If you choose not to participate, the weed issue for planters and the front of your home will continue to be your responsibility, and be subject to the terms of rule #16 concerning work done in your absence.

SUMMER OFFICE HOURS

The Office will be closed on Fridays, through September 4, 2015. Please plan to conduct any office business you may have from Monday through Thursday during this time period. Don't forget, there is a self-serve copy machine in the hall near the entrance to the Patio for your use. If you have an emergency and need something from the Office on a Friday during this time-frame, you can call the out-of-hours number ((727)-578-2891) and the Director on call will assist you. Thank you and have a GREAT Summer.

Sidewalk cleaning

Due to the heavy rain we experienced last month we were unable to begin the pressure washing our sidewalks as planned so we hope begin this month. The sidewalks in the worst condition will be done first. For anyone who is not in residence at the time of their cleaning, no water will be turned on at your home.

Open Door Policy

The Board of Directors at Golden Gate have always had an "open door policy". There are a number of ways for you to discuss any Community issue with them either during the summer months or during the peak season. At least one Director is in the office between the hours of 9:00 AM and 11:00 AM that you can request to speak to; you can write a letter or email, or there are intake forms to submit issues that will be kept confidential and responded to, and they conduct Director's Workshops on Thursday mornings at 9:30 AM to discuss, plan and schedule work programs on items as they arise. A notice of these workshops is posted on the bulletin board by the Tuesday of the week they are scheduled.

As you know, being on the Board is a volunteer job. Please utilize any way listed above to bring issues to their attention. Please respect that outside of these venues, they are retired

City life? Not for all young adults

The TV sitcom *Friends* depicted a group of young New Yorkers enjoying life in the big city—but in the end, at least two of them chose to move to a house in the suburbs. Young adults in real life appear to be making the same choice (without the laugh track). A survey of more than 1,500 people born since 1977, released by the National Association of Home Builders, found that few of them want to remain in the city for their entire lives.

Sixty-six percent indicated they'd like to live in the suburbs, and 24 percent have their hearts set on a rural residence. Only 10 percent want to live in the center of an urban area. They're mostly looking for space: Eighty-one percent said they want three or more bedrooms wherever they end up living.

Online videos bigger than TV these days

Video has taken over the Internet, especially among the younger generation. A survey of 13- to 24-year-olds by Defy Media found this evidence of the influence of YouTube and other video providers on youthful fans:

- Millennials watch an average of 11.3 hours of free online video a week, and 10.8 hours of subscription video—but only 8.3 hours of scheduled broadcast TV.
- Videos are more popular than online TV content. Seventy-six percent of young people in the survey said they find YouTube more entertaining than TV programs (more popular with 55 percent of participants).
- They're tolerant of advertising on the Internet. Fewer than half—41 percent—said online videos have too many advertisements, but 63 percent feel TV does.

Mathematics is the art of giving the same name to different things.

—Henri Poincaré

Get the full impact from these healthful foods

Certain foods have definite health benefits, but you have to eat them the right way to get their full impact. Here are some common foods you might be eating “wrong,” according to the CNN website:

- Flaxseed. Full of fiber and omega-3, these little seeds may improve your heart health—as long as you grind them up first. Sprinkling them whole over your cereal or yogurt will keep their nutrients locked inside.
- Broccoli. Eat this raw or steamed, not cooked, to receive the full dose of vitamin C, chlorophyll, and antioxidants this vegetable offers.
- Strawberries. Slicing this delicious fruit exposes its healthful nutrients to light and oxygen, which can dilute their effects. Eat them whole, or hold off cutting them until the last minute.
- Garlic. The enzyme allicin, found in garlic, may help ward off cancer, but its benefits are more pronounced when it’s exposed to air. Let garlic sit for about 10 minutes after chopping to release this enzyme fully.
- Tomatoes. Fresh tomatoes are tasty, but you’re better off cooking them. The antioxidants in them increase in potency when they’re heated to about 190 degrees Fahrenheit.

Stone tools point to early use by primitive humans

Humans have been using tools for longer than we’ve known. As reported by the journal *Nature*, a team of archeologists in Kenya have found stone tools dating back 3.3 million years, some 700,000 years older than the oldest tools previously discovered.

Before this find, the oldest known stone tools came from sites in Ethiopia and were believed to have been used some 2.6 million years ago. Still, evidence of earlier tool use suggested that humans may have been using stone for longer than that—fossils of animal bones, also in Ethiopia, show signs of cutting some 3.4 million years ago.

The Kenyan tools were dated with an analysis of the sedimentary layer where they were uncovered. Scientists speculate they may have been used to open nuts or fruits with hard surfaces. Weighing in at about 6.6 pounds, the tools are 10 times heavier than any stone tools discovered so far.

Keep relationships healthy over long distances

Ten years ago, some 2.9 percent of all marriages were long-distance relationships. Today that number has grown. Maintaining any kind of relationship takes work; when partners are separated, the effort grows. Keep your relationship steady and solid with these tips:

- Set ground rules. The secret to success in a long-distance relationship is managing expectations. Talk over how you'll handle the separation—who will be responsible for bills, child care, and other household issues. Do this ahead of time so nothing falls through the cracks. Set up a schedule for regular phone calls so you can plan conversations effectively.
- Communicate—but not too much. Regular contact is essential to the health of any marriage, so make a point of getting in touch as often as you need to. Just don't overdo it. If one partner feels crowded or badgered by insistent demands, he or she may back off, making the relationship even more complicated.
- Vary your channels. Don't rely on the telephone alone. Use e-mails and texts to send quick messages without interrupting the other person at work or at an awkward moment. Variety helps strengthen any relationship, so look for different ways to connect.
- Plan positive visits. You'll want to get together with your partner as often as you can. Don't put too much pressure on yourselves to make each visit spectacular, though. Give yourselves time to relax so no one feels personally responsible for the visit's success. You both need some downtime to get used to being with each other again.
- Be flexible. Travel plans can change at a moment's notice. An emergency may delay or interrupt a phone call. Although you're disappointed, do your best to respond positively and patiently when other demands disrupt your planned activities. Getting into a fight over every minor crisis won't keep your relationship strong.

Physical fitness is not only one of the most important keys to a healthy body, it is the basis of dynamic and creative intellectual activity.

—John F. Kennedy

Keeping up with current events

How much do you know about current events? The Pew Research Center News IQ survey examined the knowledge of more than 3,000 U.S. residents in an interactive quiz that asked them to identify a series of photographs, charts, and maps. Here's how the participants measured up when asked to ...

- Identify a photo of Martin Luther King Jr.: 91 Percent
- Identify the country led by Kim Jong-il from a photo (North Korea): 82 percent
- Identify the location of Guantanamo on a map (Cuba): 78 percent
- Name the country the U.S. recently re-established relations with (Cuba): 76 percent
- Identify the proposed route of the Keystone Pipeline on a map: 73 percent
- Identify Malala from a photo (2014 Nobel Prize winner): 93 percent
- Identify Pope Francis's home country on a map (Argentina): 52 percent
- Give the correct number of female Supreme Court justices (three): 33 percent

Have you taken your fish oil today?

Natural dietary supplements are big business in the U.S. As part of the National Health Interview Survey, researchers looked at the use of natural supplements other than vitamins and minerals. Comparing figures from 2002, 2007, and 2012, the trends they found include:

- Fish oil. This was the top product used by adults in 2012, as well as among children (though in 2007, Echinacea was the most popular supplement among children).
- Melatonin. This sleep aid came in second for children in 2012, increasing significantly from 2007.
- Glucosamine/chondroitin. Use of this decreased between 2007 and 2012, along with a drop in the use of Echinacea and garlic.
- Ginseng. This showed another large decline from 2002 to 2007, along with the use of Gingko.
- Green tea and milk thistle. Use of these held steady (though low) between 2007 and 2012.

Monkey see, monkey do, monkey—cook?

Humans and chimpanzees share many genetic traits, and scientists have recently discovered one that may surprise fans of the Cooking Channel and the Food Network: a basic understanding of how to cook food.

Chimps have long exhibited a preference for cooked food over raw. A team from Harvard and Yale decided to see if they could be taught to “cook” food on their own. Observations have shown that chimps are willing to give up something like a slice of raw sweet potato if they expect to receive a cooked one in a short time. To test their hypothesis, the scientists devised a process to mimic cooking (since they didn’t want the apes to use actual heat): two plastic bowls that fit closely together, with a bit of pre-cooked food hidden in the lower bowl.

The scientists would put a piece of raw potato into the bowl, then switch it after a few minutes for the cooked one. After a while, the chimpanzees began doing the same thing—placing a piece of food into the bowl, waiting, then looking for the tastier result.

The researchers believe this shows a basic cognitive ability to understand the cooking process, as well as the patience to carry out—traits that may have driven crucial changes in human evolution.

Follow the right FORM for effective innovation

Innovation may seem spontaneous, but it generally succeeds because the groundwork has been methodically laid ahead of time. To spark creative thinking in your organization, follow consultant Charles Day’s acronym FORM:

F: Focus. Start by deciding what’s important to your team and organization. What were you created to achieve? Identify the key goals of your vision so you have something to work toward.

O: Organization. Decide on a structure for developing and implementing ideas. Who is responsible for specific tasks? What jobs should be shared? How will you make decisions?

R: Resources. Gather what you’ll need to implement your plans. This includes not just tools and materials, but people. Identify the types of talents you’ll need to bring an idea to reality.

M: Measurement. Look to the end as you begin. Determine how you’ll know whether you’ve succeeded or failed. Goals should be specific and clear to everyone, and they must be relevant to your organization’s vision.

Probe your personality to achieve lasting results

People who succeed at their jobs, in their careers, and at the game of life are generally aware of their strengths and honest about their weaknesses. If you want to achieve greatness, focus on these key elements:

- Identity. Who are you? Don't think about your job, but your values and deepest beliefs about people and life.
- Accomplishments. What have you already done in your career? Examining your past successes can help you move forward to new victories.
- Reputation. How do others see you? Get some honest feedback. If you're not happy with the answer, improve your attitude so people see a more positive you.

The Best Antidote

A young wife lived with her husband's mother. Although she loved her husband, she found her mother-in-law impossible to deal with. In her desperation, she decided to poison the woman and get her out of her life.

She found a doctor willing to help her. As he gave her the poison, the doctor said, "Just so that no one suspects you, treat your mother-in-law as nicely as you can. Give her a little bit of this poison every day, and in a month your problems will be over."

The wife followed his instructions, treating her mother-in-law with special kindness as she slipped the poison into her food every day. Toward the end of the month, she went back to the doctor.

"Something strange happened," she said. "Ever since I've been nice to her, she's been nicer to me. Now she seems more like a friend than a mother-in-law. Can you give me an antidote for the poison before she dies?"

The doctor smiled. "I gave you ordinary vitamins. The only poison was in your own mind."

The world is shaped by two things—stories told and the memories they leave behind.
