Book Recommendation:

Here Vultures Fly

by Rudy Rodrigues

This is the narration of the personal experiences of the author, Rudy Rodrigues, during his ten years of service with the United Nations in Afghanistan, where he was engaged in emergency relief and later rehabilitation programs in close collaboration with the Communist government, the mujahideen, the Taliban, and the post-Taliban government.

The author was responsible for opening the first UNICEF office in Kyrgyzstan soon after the collapse of the Soviet Union in a unique environment and culture. During this time, he was working with a government unfamiliar with the United Nations and its goals and objectives. In addition, the Kyrgyz population was traumatized by this sudden period of transition and uncertainty. A major focus of the author's work was gaining the confidence of the government in Uzbekistan and to ensure the building of meaningful partnership programs for women and children.

This book also covers the adventures, romance, and thrill of being born and raised in Kenya; serving as an officer in the army; the challenges of working in Papua New Guinea; and having the glorious opportunity of working in the UN in different parts of the world with a multiethnic/multicultural community.

About the Author

Rudy Rodrigues was born and raised in Kenya. He graduated from the Royal Military Academy Sandhurst and the British Army Staff College. He was commissioned and served as an officer in the Kenya Army in both command and staff appointments. Resigning after sixteen years of active service, he then immigrated to Canada with his wife and three children.

Later, Rodrigues was appointed country director of a Canadian NGO in the Sudan, with a mandate to provide leadership, strategic planning and the delivery of UN (WFP) emergency relief supplies to the more than three million starving people displaced by the famine of 1985. He did so using a fleet of 350 cargo vehicles and a staff of over 3,000 people. This trucking operation was later taken over by the UN, and Rodrigues served as its Director.

In 2006 Rodrigues ended his career, and moved from Afghanistan, where he was last working with the United Nations. He retired to Winter Park, Florida where he lives today, and enjoys traveling, writing and spending time with his family, children and grandchildren.

Control that holiday glow

Candles are a popular holiday decoration, but they're also one of the most dangerous. It's important that you follow these precautions to prevent full-blown fires:

- Never leave a lighted candle unattended.
- Always put candles in a metal or ceramic holder. Never place them in combustible containers or ones that can melt.
- Put out candles once they get within two inches of their holders or decorations. This is especially important to follow with natural or plastic decorations that often grace holiday candle holders.
- Keep wicks trimmed to a quarter-inch.
- Never burn candles near things that can catch fire—including Christmas trees and curtains.

Be safe on your bicycle

Bicyclist deaths have risen significantly in recent years, and adult men, not kids, are most often the victims, according to the Medline Plus website. In 2015, the most recent year figures are available, biking deaths rose 12 percent. Of the 818 fatalities in 2015, a hefty 85 percent were men, with an average age of 45.

A report by the Governors Highway Safety Association noted that bikers often believe they have the right of way and are unable to stop in time to avoid a collision. Drivers also often don't see bikers until it's too late.

Intersections aren't the most dangerous area. Seventy-two percent of bicycle fatalities occur away from intersections. More than half take place between 6 p.m. and 6 a.m.

Alcohol, whether consumed by the biker or the driver, is also a factor in 37 percent of collision deaths.

If we are creating ourselves all the time, then it is never too late to begin creating the bodies we want instead of the ones we mistakenly assume we are stuck with.

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Did you know that December is also...

Bingo's Birthday Month. With origins that date back to a 1530s Italian lottery game, different versions of Bingo were played in Germany and France for hundreds of years before it reached North America in 1929. The game has been popular in the United States since then, used by churches to raise funds and by casinos that promise huge jackpots to a lucky few.

Root Vegetables Month. Looking for something healthy to offset the sugary treats of the holiday season? Consider a carrot soup seasoned with turmeric and ginger; add shaved beets and radishes to a salad; or try a side of mashed parsnips or baked sweet potatoes with your next meal.

National Eggnog Month. Spike it with bourbon, whiskey, or rum; add a splash to your coffee; or enjoy a glass with a sprinkle of cinnamon on top. For those who love the rich, creamy beverage known as eggnog, this is the month to indulge.

Seasonal Affective Disorder Month. About 20 percent of the population suffers from a mild form of depression during the cold-weather months. Most experience fatigue, irritability, a lack of concentration and other symptoms in the winter months. Check in with your health care provider if you or someone you know experiences changes in moods and behaviors this winter.

Christmas Bird Count, Dec. 14–Jan. 5. For more than 100 years, the Audubon Society has relied on volunteer birders throughout the Western Hemisphere to conduct an avian census. Go to <http://www.audubon.org/join-christmas-bird-count> to find out the details about CBC activities in your area.

Hanukkah, evening of Dec. 12–evening of Dec. 20. This eight day “Festival of Lights” is commemorated by the nightly lighting of a menorah, the recitation of special prayers, and feasting in the Jewish community.

National Ugly Christmas Sweater Day, Dec. 15. We all have one from our Aunt Betty in Bugtussle. Don't hide it in your closet or regift it—wear it proudly on this day. You will be in good company.

Christmas, Dec. 25. Celebrated throughout the world with the exchange of gifts, decorations, songs, feasting and more, this day commemorates the birth of Jesus Christ.

Boxing Day, Dec. 26. Started in the Middle Ages and now celebrated on Dec. 26 in Canada, South Africa, New Zealand, Australia, and several European countries, this is the day that churches open their alms boxes and distribute the collection to the needy.

Rehab after heart attack is often ignored

Approximately 790,000 adults in the United States suffer heart attacks every year, and about 210,000 of them are repeat attacks.

Cardiac rehabilitation is crucial to preventing a second heart attack, but the Centers for Disease Control and Prevention report that only one in three survivors opt to participate in it.

Cardiac rehab includes exercise counseling, lifestyle advice for a healthy heart, and stress-reduction tips, all of which can reduce those chances of a second (or third or fourth) attack. Cardiac rehab also means extended medical supervision after discharge from the hospital, according to the WebMD website.

If you or someone you know has suffered and survived a heart attack, keep in mind that rehab might prolong life and prevent a new crisis.

Is that still safe to eat?

Is that fruitcake that's been in your pantry since last year safe to eat? Maybe not, but the CNN website offers this list of foods you can safely store for years:

- **Honey.** Because it's low in water and sugars, bacteria can't easily grow in it. Small amounts of hydrogen peroxide in honey also inhibit the growth of microbes.

- **Dried legumes.** Beans, lentils, and other legumes stored in airtight, waterproof containers can last for years without losing their nutrition value.

- **Soy sauce.** Unopened, soy sauce can last for three years on the shelf, thanks to its combination of fermentation and salt.

- **Vinegar.** Its acidic nature makes it difficult for bacteria to thrive. White vinegar will stay unchanged almost indefinitely, but other vinegars may change color or produce sediment in the bottle over time.

- **White rice.** The key is temperature. White rice stored in an airtight container at about 27 degrees Fahrenheit can last up to 30 years, although brown rice has a shorter shelf life.

- **Dark chocolate.** Chocolate fans rejoice! As long as it's stored at a constant temperature, dark chocolate is safe to eat for two years or longer.

Early humans didn't intermix as previously thought

Anthropologists have long speculated that Neanderthals and early modern humans mingled together some 32,000 years ago, with Vindija Cave in Croatia a prime spot for mating. Now, according to the American Association for the Advancement of Science's website, they're not so sure.

Earlier carbon dating procedures seem to show that Neanderthals and modern human coexisted in an around the cave. Recently, however, a more detailed form of dating suggests that Neanderthals lived in the area and used the cave more than 40,000 years ago—8,000 years before early modern humans began living in the region.

Scientists developing energy-producing clothes

Someday soon you may be able to charge your smartphone or Fitbit with a simple walk around the block, according to the NBC News website. Scientists at the University of Texas at Dallas are working to develop fabrics using carbon nanotubes, which are hollow and 10,000 times thinner than a human hair. When twisted into coils and stretched, they can produce a minuscule electrical current. One recent test of a tight shirt using the special yarn produced 16 millivolts every time the person wearing it inhaled—not enough to charge a smartphone, but enough, perhaps, to send health information to another location.

When every minute counts

After years spent teaching meditation to terminally ill patients, Stephen Levine began to ponder the changes one might make in their lives if they knew their time was coming to an end. To test out his theory, he decided to spend a year of his life as if it were his last. He called it “the year to live.”

Levine soon realized there was no time to waste on regrets and bitterness. Every minute counted. This experiment helped him to let go of old resentments and forgive past wrongs. His view of the world became more compassionate, and he began to experience a heightened sense of gratitude and appreciation for the people and experiences he now encountered.

During that year, Levine lived a more positive and meaningful life.

How would you spend your days if you knew you had only one more year to live? What changes would you make? Who would you forgive?

Why not do all of that now?

Misunderstanding

There once were two brothers. One was named Trouble, and the other was named Mind Your Own Business. One day, the boys decided to play a game of hide and seek. As Mind Your Own Business counted to 100, Trouble ran off and found a place to hide.

Mind Your Own Business began looking under porches, behind bushes, and inside garbage cans for his brother. He soon encountered a police officer who'd been standing on the sidewalk watching him. "What are you doing?" the cop asked.

"Looking for Trouble," the boy replied.

"Is that so?" replied the officer, "What is your name?"

"Mind Your Own Business."

"I'm taking you in," the officer snapped as he put the boy in the back of the squad car and drove away.

Why don't cannibals eat clowns? - They taste funny.

A ghost walked into a bar and ordered a shot of whiskey.
"Sorry," said the bartender. "We don't serve spirits here."

Would you mind repeating that?

Joe asked the clerk for some assistance with hearing aids.

"The devices we have in stock range in price from \$3 to \$3,000," the clerk replied. "I know \$3,000 seems like a lot of money, but you really do get what you pay for."

"So what do I get for \$3?" Joe asked.

"This." The clerk handed Joe a long piece of black yarn with a suit coat button attached to one end and a paper clip attached to the other end. "The button end goes in your ear and you can tuck the paper clip end in your pocket."

"Seriously? How will this help me hear any better?" Joe asked.

"It won't," the clerk replied, "but when people see the button in your ear they will usually speak louder."

Monthly Mania: It Pays (Up to \$100) To Patronize the Advertisers in Your Newsletter

THOUSANDS manufactured home residents have won over **\$137,200** since our contest began. It's simple to play ... when you patronize a current advertiser, ask for a Monthly Mania ticket (or a reasonable facsimile) and fill it out completely. Put the ticket in our Monthly Mania drop box in your community or mail your paid receipt to us at **Monthly Media • 220 Bahama St. • Venice, FL 34285**. That's all you do. At the end of the month the Publishers will pick up the tickets and hold a drawing. If your ticket is drawn, we mail you a check.
