"Thank you for doing a very professional job on my roof. I am not easily pleased with most contractors, ASC is the exception! Your crew was on time, sometimes even early. There are no leaks and it looks great. ASC was not the cheapest, which proves you get what you pay for."

The church held a “Marriage Seminar and the priest asked Luigi, as his 50th wedding anniversary approached, to share some insight into how he managed to stay married to the same woman all these years. Luigi replied,” Well I tried to treat her well and spend money on her. But the best thing I did was take her to Italy for our 20th anniversary.” The priest said “Luigi, you are an inspiration to all husbands here today. Please tell the audience what you plan for your wife for your 50th anniversary.” Luigi proudly replied “ I’m gonna go get her.”

Congratulations to all our couples celebrating 50 yrs of marriage during 2016.

February Is...

American Heart Month. Heart disease kills an estimated 630,000 Americans each year. February has been celebrated as American Heart Month since 1963 as part of the effort to urge Americans to join the battle against heart disease. Learn how to reduce your risk through lifestyle changes and, in some cases, medication.

Black History Month. An annual observance in the United States, Canada, and the United Kingdom to commemorate the history and contributions of black people. Black History Month was officially recognized by the U.S. government in 1976, with President Gerald R. Ford urging Americans to “seize the opportunity to honor the too-often neglected accomplishments of black Americans in every area of endeavor throughout our history.”

Grapefruit Month. Rediscover the naturally invigorating grapefruit. Loaded with vitamin C, grapefruit helps boost the immune system during these winter months when colds and flu are at their peak. Whether you enjoy it fresh from its golden skin or straight from a glass, there’s nothing quite like the bold taste and healthy goodness of grapefruit.

Library Lovers’ Month. Library Lovers’ Month is a month-long celebration of school, public, and private libraries of all types. This is a time for everyone, especially library support groups, to recognize the value of libraries and to work to assure that the nation’s libraries will continue to serve.

Weekly

National School Counseling Week, Feb. 1-5. Sponsored by American School Counselor Association, National School Counseling Week highlights the impact school counselors can have in helping students achieve school success and plan for a career.

Burn Awareness Week, Feb. 1-7. Designed to provide an opportunity for burn, fire, and life safety educators to unite in sharing burn awareness and prevention messages in communities, and to kick off a year full of burn awareness education.

National Entrepreneurship Week, Feb. 20-27. National Entrepreneurship Week is a celebration of a lifelong learning challenge for youths and adults interested in finding exciting career opportunities. Teachers and students can get involved at all levels, as well as entrepreneurs, policy makers, community leaders, and parents.

National Engineers Week, Feb. 21-27. Dedicated to ensuring a diverse and well-educated future engineering workforce by increasing understanding of and interest in engineering and technology careers.

Cold weather dangers to watch for.

Winter is far from over, and that means staying safe in cold weather is still important. Remember these tips for getting by until spring:

- Frostbite. Frostbite can occur in a short amount of time, especially with children. They can lose body heat quickly, sometimes in as little as 20 minutes. Dress kids warmly, but don't over bundle them, which can cause sweating and speed the loss of body heat. Also, discourage kids from eating snow, since it lowers body temperature, which can decrease resistance to frostbite.
- Carbon monoxide. Check your furnace and other heating appliances to make sure they aren't creating a danger to your co-workers or family. Carbon monoxide poisoning is often mistaken for the flu. The symptoms include achiness, headache, and nausea. Carbon monoxide is odorless and colorless, and it can affect children before it affects adults.
- Vehicles. We all know to walk carefully on icy roads and sidewalks during winter. But injuries can also stem from sliding and skidding vehicles that may not be able to stop before hitting someone. Be sure to walk in bright or reflective clothing, and be careful when walking near snow piles and drifts that may obscure your view or the view of a driver.

Valentine's Day, love, and money

Money may not buy you love, but on Valentine's Day it can buy a lot of flowers, candy, and jewelry. Americans last year spent \$18.9 billion on Valentine's Day, with the average person paying \$142.93—\$96.63 on their spouse or significant other, and the rest going to gifts for family members, co-workers, teachers, and others.

Men spent more than women—an average of \$190.53, compared to \$96.58. Almost 52 percent of men bought candy for their partners, 61 percent went for flowers, and 21 percent splurged on jewelry.

The gift giving wasn't limited to people, either—21.2 percent bought something for their pets.

Up all night? Fight insomnia with this information

Approximately 6 percent of people in the U.S. suffer from insomnia and the negative effects it can have on health. If you can't fall asleep at night, these facts from the Live Science website may help:

- Keep a consistent schedule. If you can't get to sleep after a weekend, the reason may be that you've stayed up later for a couple of days. Stick to a consistent routine so you're rested on Monday morning.

- Sleeping pills aren't the answer. Specialists caution that medications don't cure insomnia and may increase other health problems.
- Hormones may play a role. Women are twice as likely to struggle with insomnia than men, studies show. Sleepless nights may be associated with women's menstrual cycles, as well as pregnancy, menopause, and other hormonal changes.

Nobody wants to fall into a safety net, because it means the structure in which they've been living is in a state of collapse and they have no choice but to tumble downwards. However, it beats the alternative.

—Lemony Snicket

Self-employment supports the U.S. economy

Self-employment is alive and well in the U.S., according to a Pew Research Center analysis of Census Bureau data. Ten percent of Americans workers—14.6 million people—reported being self-employed in 2014, and another 20 percent (29.4 million) said they worked for self-employed bosses.

Although the self-employed do hire others, their hiring is on a smaller scale, with only 1 in 4 having any paid employees: a median of 3 people, and an average of 8.6.

The Pew statistics show that self-employment plays a vital role in the U.S. economy: Eighty-one percent of people in the agriculture, forestry, and fishing industries were either self-employed in 2014 or worked for someone who was, along with 68 percent of workers in the construction field, and 53 percent of those in professional and business services.

Technology taking over the college classroom

College students used to invest in pens, pencils, notebooks, and maybe a pocket calculator before going to class. That's so 20th century. These days 81 percent use a mobile device like a smartphone or a tablet computer to do their studying, according to research by McGraw-Hill Education and Hanover Research.

Smartphones in particular are becoming the tool of choice, with 51 percent of students now using them for study, up from 36 percent in 2013. In general, 77 percent of college students say that technology has helped improve their grades, and 48 percent feel they save time with it.

Reduce stress with these simple steps

Stress can undercut your effectiveness at work. Every job has less than enjoyable moments, but when you start feeling ready to burst, put some of these techniques into action:

- Take a 15-minute break. Once a day, spend 15 minutes relaxing. Try meditation, a quick walk, or some inspirational reading. Don't think about your problems, just immerse yourself in the activity. You'll feel better when you get back to work.

- Learn to say no. You probably can't turn down orders from your boss, but you can take more control of your time by not letting co-workers bury you with requests. Help out as much as you can, but let people know—politely—that you've got to stick to priorities. You'll avoid being overwhelmed by extraneous tasks.

How TB changed our culture

Tuberculosis once ravaged the nation, and although it's relatively rare in the U.S. now, its impact is still felt today. Here are few ways, according to "The Forgotten Plague," a PBS television series, it continues to influence U.S. culture:

- Ice cream cones. Waffle cones to hold ice cream were developed to replace the small glass containers vendors served ice cream in at the beginning of the 20th century. Customers would return the bowls for reuse, but concern about germs generated the need for something that would reduce the possibility of contagion.

- Short skirts. Long women's skirts that dragged on the ground could easily pick up germs from the streets, especially since spitting was once considered socially acceptable until concerns about disease rose. Women quickly adopted skirts and dresses with shorter hemlines that reduced the danger of picking up unwanted germs and bacteria.

- Shaving. Long beards and mustaches for men were considered stylish, but again, worries about the germs they could carry changed people's minds. The clean-shaven look caught on and became a symbol of the rising middle class.

Start your day with a breakfast that counts

Breakfast is the most important meal of the day, many experts (and moms) say, so nutrition and good choices in the morning are key to a healthy lifestyle. Keep these tips in mind to start your day off right:

- Don't skip it. You may think you're too busy or you'll save on calories. In reality, you may not have the energy you need to get going, and you'll probably be more tempted by snacks later in the day.

- Watch the sugar. A food labeled "low fat" may be high in sugar content (yogurt, for example). Juices and coffee drinks can be loaded with extra sugar as well. Keep an eye on unwanted sugar so you don't absorb needless calories—and crash later in the day.

- Get lots of protein. If you put milk on your cereal, remember to drink all of it instead of dumping it in the sink when you're finished eating. Otherwise, try a hard-boiled egg, or spread some peanut butter on your toast.

- Get plenty of fiber. Fiber makes you feel full longer. Bran flakes or an oat bran muffin (without too much sugar) can give you what you need. You can also add chia seeds or ground flax seeds to your cereal.

A simple favor

A man taking a walk one day noticed a small boy trying to use the doorbell on a house across the street. The boy was very short, and the doorbell was too high for him to reach.

After watching the boy's efforts for a minute, the man crossed the street to help. "Hello there," he said, ringing the bell. "What do we do now?"

The boy looked up at him. "Run!"

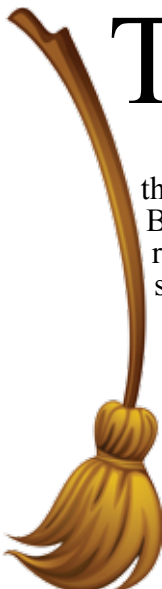

Best boss ever

Samantha walked into her boss's office. "Tom, my daughter's class is taking a field trip tomorrow, and they want me to drive a dozen third-graders across town to the zoo and stay there with them all day."

Tom shook his head. "Sorry, Samantha, but half the office is out sick. I can't give you the day off."

"Thanks, Tom," she said with a sigh of relief. "I knew I could count on you!"

The best example

The master of a monastery in China was known for his wise teachings. Instead of lecturing people, though, he would demonstrate his purposefulness by sweeping the steps of the monastery every morning with all his being.

Would-be disciples would come to the monastery and ask the man sweeping the steps where the master was. He would reply, "The teacher is teaching now." Because most of the aspirants were looking for a man dispensing advice, they rarely recognized the master—or understood that his "teaching" was meant to show that he was always present in his approach to work and to life.

The price of success is hard work, dedication to the job at hand, and the determination that whether we win or lose, we have applied the best of ourselves to the task at hand.
