HOMEOWNERS BOARD MEETING (HLA,INC.) will be held after Social Club meeting Jan 4th. Board meetings are open to all owners in the park. If you have a concern this gives you an opportunity to voice that concern. Please attend.

HOMEOWNERS ANNUAL MEETING AND ELECTION:

ANNUAL Meeting Jan 26th – 3:15pm - Clubhouse

ELECTIONS: 4:00pm to 5:30pm – Library

On January 26 2017 elections will take place to elect 4 members to the board. Candidates will be announced at three Social Club meetings prior to the voting date. Diane Piscopo is the chairperson assigned to conduct the nomination process and a committee will oversee the election. Anyone interested in running for the board please contact Diane or a member of the committee. Committee members will be announced at Social Club. Only one vote per residence owned.

SOCIAL CLUB:

Social Club is held every Wednesday morning beginning with social hour at 9:00am and meeting at 10am. Free coffee. Donuts may be purchased for \$1.00. As the name implies this is a good way for all residents (renters and owners) to get acquainted with your neighbors and to learn of all the activities available in the park. Please try to attend one of the meetings.

First pancake breakfast Sat Jan 21st – 8:00am to 9:45am – Please bring your own plates, cups, and utensils. Tickets are \$2.00pp. On sale end of December during Social Club or see Trudy and Bing Bingham for tickets.

**A Complete Listing of Resident Services
can be found on the page before your calendar**

“Fashion with a Twist “ – A wacky fashion show

January 14, 2017 – 2pm -4pm - tickets \$3.00 – no tickets at the door – Chairpersons are Judi Farmer and Dorothy Archibald - This is unlike any fashion show you may have seen. Come and be prepared to laugh as your fellow residents try to be serious models. The high fashion houses of Europe and America beware!

ACTIVITIES

DANCE – Jan 19th – Bert and Sassy – tickets \$6.00 – BYOB

EXERCISE CLASS – Power walk – every Tues, Thurs, Sat – 11am - Clubhouse
Get healthy with power walk DVD – Come and sweat!

BOCCE: Please sign up for the Men vs Women Bocce Tournament
Starting Jan 23rd – 9am – Must be a member of Bocce to sign up
Yearly dues for Bocce - \$3.00 -
Tournament played Jan 23rd, Jan 27th, finals Jan 30th

Our teams are randomly picked and then posted in Clubhouse and at the court. The finals consist of the Men’s champion vs the Women’s champion, best of three games. The finals is also our hot dog day, hot dogs cooked and served at the court. If you are thinking of playing Bocce this year now is the time. Next tournament will be Canada vs USA. Starting Feb 24th.

Bocce Picnic – Finals of USA vs Canada tournament – March 6th

Bocce members: Start thinking about officers for next year. Elections will be in March.

BRIDGE Players needed: If interested sign up on Bulletin Board in Clubhouse.

SHUFFLEBOARD: Always looking for new members. Please contact Doug Berman 388-6638 for more information. Fun shuffling Wednesday evenings at 7:00pm. Please come up to the courts and try this exciting game. A good way to meet other residents and to have a pleasant evening. BYOB

Thank you:

Karen Burton and Stephanie Brenner – Thank you for your enthusiastic efforts in collecting donations of money and toiletries for our veterans in need. Thanks to you and our residents that donated, our veterans received gift cards to purchase much needed items.

Harriet Ha-sidi – Thank you Harriet for organizing your annual collection of blankets for the migrant workers. It gives us all a “warm “ feeling to donate and helps a migrant family to keep warm during the cold winter nights.

Don Halker – Thank you Don for organizing our Christmas parade. What a nice way to celebrate the holiday season here in Harbor Lights. Let’s do it again next year! Thanks to all who walked, rode bikes, and drove those beautiful golf carts.

Chuck Lacrosse and Jo Stead – Thank you for a great Christmas Eve cocktail party. A wonderful way to meet with friends and neighbors and to wish everyone a Merry Christmas. Thank you also to the wonderful choir giving us such beautiful Christmas music and to help us remember why we celebrate this holiday.

A big thank you to all who helped decorate the front entrance to our park and to all the residents who decorated their homes so beautifully for the holidays.

REMEMBER: If you have guests with dogs, make them aware the dogs must be walked on a leash in the pet section. You must pick up their waste! Many complaints about this!! Let’s try and be good neighbors.

One of those blond jokes

Courtesy Rosemary McGrath

One day Jan’s husband came home from the office and found her sobbing convulsively, “I feel terrible”, she told him. “I was pressing your suit and I burned a hole in the seat of your trousers”. “Forget it”, consoled her husband, “Remember that I bought an extra pair of pants for that suit”. “Yes, and its lucky for you that you did”, said Jan, drying her eyes. “I used them to patch the hole”.

Brain drain: Control your appetite after a long day at the office

Ever notice that you can feel starving after a long day at work even though you've spent it mainly at your desk? Scientists, as reported by The New York Times, say it happens because your brain, feeling tired, starts to want more fuel to keep going—even though you haven't exactly been digging ditches for eight or nine hours. The problem is that you're consuming calories your body doesn't actually need because your brain is telling you to.

One way around this dilemma is exercise. In an experiment at the University of Alabama at Birmingham, 38 college students met to discuss what their favorite pizza was. After the discussion, they were allowed to eat as much pizza as they wanted. On another day, they were brought back and given a series of tests from college entrance and graduate-level exams. Afterward, half the students worked out on treadmills while the rest sat quietly. The entire group was again served all the pizza they wanted, but the treadmill group ate less—about 25 fewer calories than at their previous session. On the other hand, the rest of the group actually ate 100 calories more.

The study suggests that a light workout after a mentally strenuous day may curb one's appetite—good to know before you sit down to eat.

Eat lots of these foods to prevent prostate cancer

Prostate cancer is one of the most common forms of cancer in men—more than 180,000 cases are diagnosed each year. Diet can be a factor, doctors say, especially one of foods high in saturated fats found in meat and dairy products. Men may be able to reduce their risk of developing prostate cancer by eating more of these healthy foods:

- Broccoli. Benefits: Low in carbohydrates and rich in antioxidants and phytochemicals that may prevent cell changes contributing to cancer.
- Salmon. Benefits: Lots of omega-3 fatty acids that can inhibit prostate cancer.
- Brazil nuts. Benefits: Selenium; six to eight nuts contain 700 percent of a daily serving.
- Tomatoes. Benefits: Lycopene. Men who eat 10 portions of tomatoes a week may reduce their risk of prostate cancer by 18 percent.
- Walnuts. Benefits: Walnuts and walnut oil have been shown to reduce levels of the hormone IGF-1, which has been linked to prostate cancer.
- Coffee. Benefits: Antioxidants, as well as stimulating the body to metabolize sugars more efficiently. Green tea shares similar qualities.

The five-second rule may not be so safe after all

We've all heard of the five-second rule: If a piece of food drops on the floor, it's safe to eat if you grab it in five seconds or less. That may not be true, though, according to an article on the Medical News Today website.

Researchers at Rutgers University decided to test the rule. They used four types of surfaces: stainless steel, ceramic tile, wood, and carpet. They also choose four kinds of food: watermelon, bread, bread with butter, and gummy candy. Finally, they tested four different contact times: less than a second, five seconds, 30 seconds, and 300 seconds.

They cultivated bacteria similar to salmonella and spread it on the different surfaces, allowed it to dry, then dropped each food on each surface for each designated time period. The results: The bacteria was able to contaminate the food almost instantly in every case, although with different degrees of contamination. Watermelon soaked up the most bacteria because of its moisture; the gummy treats were affected the least due to their hard surface. Nonetheless, the scientists are confident that their findings disprove the five-second rule. So you're probably safer throwing out any food on the floor.

Plutonian moon's red spot explained

Jupiter is famous for its great red spot, but it's not the only red patch in the solar system. Charon, a moon of Pluto, also sports a reddish blotch near its north polar region, and scientists now know what causes it, according to the Sci-News website.

The spot, nicknamed Mordor Macula, covers an area the size of New Mexico, and is made of methane that comes from Pluto. Once the methane escapes Pluto's atmosphere, it falls to the surface of Charon's north pole and then freezes (winter temperatures in Charon's polar region can drop as low as negative 430 Fahrenheit). UV light from the sun turns the methane into heavier hydrocarbons that eventually become reddish organic materials known as tholins.

Data came from the New Horizons space probe. One of the project's scientists characterized the discovery as the realization that Pluto is a cosmic graffiti artist, spray-painting its nearest neighbor red.

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Marriage in trouble? Watch for these signs

Just because you're not having fights with your spouse doesn't mean everything is fine in your marriage. It could be in trouble without you and your partner realizing it. Watch for these signs that you need to get back on track:

- **Your partner isn't first on your list.** When you've got big news, whom do you tell first? If it's not your spouse, you may be disconnecting from him or her. Communicating about what's important to both of you is vital in an honest, healthy relationship.
- **You're focused on yourself.** Strong marriages rest on mutual goals. If you forget your partner's needs while making your own plans, he or she may begin to do the same. Although you each may want some personal time, carve out time to spend with each other—talking, taking a walk, watching a movie, or something else you both enjoy.
- **You compare your spouse to others.** Try to avoid thoughts like, "I wish Lynda was more like Diane," or "Why doesn't he bring me flowers like Paula's husband?" Comparisons lead to dissatisfaction and resentment. Be open about what you want so your partner has a chance to fulfill your needs.
- **You lead separate lives.** You may not be fighting, but you're also not doing much together. Do you watch separate TV shows, go to bed at different times, eat meals without the other person? Make more of an effort to get in sync so you don't find yourself living alone without actually moving out.

Quick hits

Want to liven up the conversation at your next party? Try some of these one-liners:

- "I've been diagnosed with a certain type of brain disorder where I deny the existence of certain 1980s rock bands. There is no Cure."
- "My wife probably tells me I never listen to her."
- "And the award for best neckwear goes to ... well, look at that. It was a tie."
- "No matter how nice your son or daughter is, German children are kinder."
- "Thank you for my student loans. I don't think I can ever repay you."

Monthly

National Bath Safety Awareness Month. In the United States, an average of 370 people across all age groups suffer bathtub or shower-related injuries every day. Slips, falls, and hot-water burns are the prime causes of accidents in the bath and the second leading cause of accidental death and disability. Remember: Bath safety is an integral part of general home safety.

National Blood Donor Month. Some give blood because they've been asked to. Some know a family member or a friend who might need blood someday. Some simply believe it's the right thing to do. Whatever your reason, the need is constant and your donation is important to maintaining a healthy and reliable blood supply.

National Stalking Awareness Month. The National Center for Victims of Crime launched National Stalking Awareness Month (NSAM) in January 2004 to increase the public's understanding of the crime of stalking. The National Stalking Awareness Month website (www.stalkingawarenessmonth.org), launched in January 2009, provides a wealth of information about this crime and about the nationwide observance.

National Train Your Dog Month. The Association of Professional Dog Trainers began the National Train Your Dog Month campaign in 2010 to raise awareness of the importance of socialization and training, to inform the public that training your dog can be easy and fun, and to help new pet parents start off the year right with their newest family member.

Weekly

Diet Resolution Week, Jan. 1-7. This week is about focusing and altering the types of food you consume rather than just reducing the amount. Try eating at least one piece of produce every day (fruit or vegetable), eating fish at least once a month (once a week would be better), and drinking at least two glasses of water a day.

National Sugar Awareness Week, Jan. 16-20. Can you go five days without sugar? Take the challenge to find out how difficult finding foods that do not contain some form of sugar can be, as well as how this substance can affect your body, mind, emotions, and life.

No Name-Calling Week, Jan 16-20. No Name-Calling Week was inspired by the popular young adult novel *The Misfits*, by James Howe. The No Name-Calling Week Coalition was created by GLSEN and Simon & Schuster Children's publishing and has been adopted by schools around the U.S., growing into one of the largest bullying-prevention initiatives in the country.

Oldest fossils may have evolved during hellish times

The world's oldest fossils have been discovered in Greenland, according to The New York Times. The fossils, known as stromalites (mounds that have built up over time around single-celled microbes called cyanobacteria) were found in an outcrop of rock called the Isua supracrustal belt on the southwest coast of Greenland.

The stromalites are 220 million years older than stromalites found in western Australia, previously thought to be the world's oldest fossils at 3.48 billion years old. If they're confirmed as evidence of ancient microbial life, the fossils will push back the estimated date of the formation of life on Earth to about four billion years ago, during a period when the planet was bombarded by meteors that turned oceans into steam and the surface into lava—a time dubbed the Hadean stage of Earth's history.

Genes may control your coffee intake

The amount of coffee you drink may be based on your genetic makeup. A study by an international team of researchers, written up in the journal *Scientific Reports*, identified a gene that regulates the expression of other genes connected to caffeine metabolism.

The gene, PDSS2, hampers cells' ability to break caffeine down, which causes it to remain in the body longer. Thus, people with the gene will feel the effects of caffeine longer, reducing their desire for more.

The scientists examined genetic data from two groups of people in Italy, and they asked participants to record how many cups of coffee they drank each day. People with a variation in their PDSS2 gene tended to drink less coffee than those without the variant. The study was replicated in a similar study carried out in the Netherlands.

So if someone ever tells you that you're drinking too much coffee, you can blame it on your genes.

There is no adequate defense, except stupidity, against the impact of a new idea.
