Submitted by Pat Jones

The Board met on Monday, November 23 for a regular meeting. Present at the meeting were P. Jones, B. Connors, P. Willden and J. Bobb. Our treasurer Judy brought to the attention of the board that we were now being charged a monthly service fee. A motion was made to see about changing banks. (Follow-up - since the meeting Judy has approached the bank about the charges and the account is now listed as a small business with no monthly fees. All fees have been returned).

Old business included updating the membership lists and a review of the 10/24/15 meeting with Leslie and Joey.

New business included a review of HB 307 which was signed and went into effect on July 1, 2015. This law governs the HOA's of mobile home parks.

Also brought up was a request to reinstate pool hours for kids. Those hours would be 10 - 2 and 5 - 7.

Also discussed was the possibility of having a non-denominational Sunday service at the clubhouse. This was agreed to in theory but we will be looking for community response as to whether there is an interest in adding this to our weekly activities. The meeting adjourned.

On Tuesday, November 24 there was a meeting with Leslie and Joey concerning rent increases. The board had a list of reasons why the rent should not be increased and a few of those reasons follow. One was the lack of full time management from January thru the end of September as Debbie was overseeing other parks, leaving us with poor management. The number of times the office was closed during the workweek. The problems at the clubhouse concerning homeless people and vandalism. The lack of a library since the end of July. The deplorable state of the clubhouse kitchen. No increase in Social Security due to low cost of living increase. Why Twin Lakes is not used in their market pricing comparison. The number of evictions that have occurred in the past 2 years. (This is a considerable expense.) Rules violations (baby on property, carport eyesores, pull houses, and allowing someone to solicit.

The library update is that ELS has a \$50,000 flood deductible so decided to do the ENTIRE state of Florida as one claim. The adjuster has been here and now the office is waiting for a check. Work to be done includes a drainage upgrade (this caused the problem), mold remediation, new carpeting, painting, bookshelves and books. A new ice machine is to have been ordered as the one we have is not working and repair is not available, and there is no warranty. Leslie was to check with 2 other properties about the type of machine they just got and get one for us.

Pool rules for kids will be reinstated as they are in the Prospectus and Rules and Regulations. The times are 10:00 a.m. to 1:00 p.m. and 5:00 p.m. to 6:00 p.m. There will be a new pool sign with these hours listed.

In the next budget there will be a request for funds to add additional water shutoffs on each side of the park so that the entire side is not affected by a leak. There will also be NO OUTLET signs added to the front entrances.

The meeting adjourned with Joey saying he would forward our request and we should hear back within 2 weeks. As of this writing we are awaiting the corporate response to a lower rent increase.

Hillcrest Ladies Friendship Club

MINUTES, DECEMBER 8, 2015

The December meeting of the Hillcrest Ladies Friendship Club came to order at 1:00 p.m. Thirty-five people were present for our catered Christmas celebration.

Guests were introduced.

Judy Bobb led us in prayer.

Our luncheon included salad, 1/2 chicken, stuffing, mashed potatoes, green beans, gravy. Pie and cheesecake served for dessert. Coffee, tea and wine was available for all. it was a delicious meal with lots of leftovers for us to take home.

Following the meal we had a very brief meeting.

Carole gave the Treasurer's report.

Jane read the November minutes.

There was no Sunshine Ladies report this month.

Carole stated we received \$280 in donations for CLOTHES FOR KIDS.

Our Hostesses: Judy Bobb, Janet Boswell, Andre-Ann and Diane Hiawati were given a round of applause for all their hard work to make this Christmas celebration festive.

Twenty-five donated prizes and 5 poinsettias were won by various attendees. Those who donated prizes were thanked profusely.

Next month is an election month. Sally, Jane and Diane's offices are open for replacement. Any who wish to be considered, inform Carole before next month's meeting.

Our next meeting will be on Tuesday at 1:00 p.m. on January 12th. The hostesses for January will be Leona and Janet. Please bring a smile, a cup, a \$2 donation and a non-perishable donation for the Food Bank.

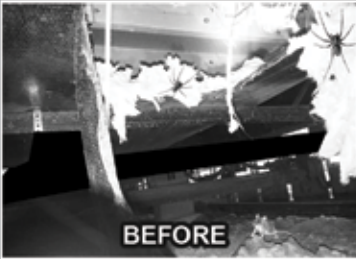

Our meeting ended at 2:25 p.m.

Respectfully submitted,
Jane C. Perley, Secretary

Did you know that January is also...

National Bath Safety Month. Bath safety is an essential aspect of general home safety. An average of 370 people across all age groups suffer injuries in the bathtub or shower daily. Learn how to equip your bathtub or shower with safety precautions like grab bars and anti-skid strips to prevent serious injury.

National Blood Donation Month. Some give blood because a friend asks; others do so because it just seems like the right thing to do. Whatever your reason, the need is constant and your donation is important for maintaining a healthy and reliable blood supply.

National Mentoring Month. Mentoring young people can change your life—and theirs. Volunteering as a mentor or becoming an informal mentor to a young person you know is a valuable step in igniting the mentoring effect in your community.

Thyroid Awareness Month. Thyroid disease affects approximately 200 million people worldwide. If left undiagnosed and untreated it can cause depression, tremors, muscle weakness, and constant fatigue. Learn how to perform a thyroid neck self-exam, and talk to your doctor if you detect any lumps.

National Home Office Safety and Security Week, Jan. 3-9. Thousands of people working from home face risks in their residential workplace: clutter that can cause trips and falls, inadequate electrical wiring that presents a fire hazard, and other dangers. Take some time this week to ensure that your home office doesn't endanger your health and safety.

International Snowmobile Safety Week, Jan. 16-24. Snowmobiling is a fun and exciting family activity enjoyed by over 4 million people in the U.S. and Canada. International Snowmobile Safety Week educates people about safe snowmobiling practices and shows how operating safely can prevent mishaps and injury.

National Sugar Awareness Week, Jan. 18-22. The average American consumes about three pounds of sugar each week, for a total of 3,550 pounds in his or her lifetime. During this week, take the challenge: Go five days without eating any sugar and see how much better you feel.

National Certified Registered Nurse Anesthetists (CRNA) Week, Jan 24-30. CRNAs provide more than 34 million anesthetics each year. This event helps patients, hospital administrators, health care professionals, policymakers, and others become more familiar with the CRNA credential and the exceptional nurses who have earned it.

Never too late to succeed

A poor boy named Harlan with only a sixth-grade education wouldn't have made anyone's list of the most likely to succeed. His first major success came when at the age of 39, when he was able to come up with the financing to open a small-town gas station and restaurant. He did pretty well, too—but only for a while.

With the onset of World War II, Harlan's once-solid customer base left the small town to enlist in the military or take factory jobs in the city. Still, he managed to hold on until a new interstate highway eliminated his drive-by trade. Then, after nearly 30 years in business, Harlan was forced to sell his dream to pay off his debts.

Broke and nearing 70, Harlan could have closed the curtain on his career ambitions. Instead, he took to the road, offering to share his pressure-cooking techniques with other restaurant owners if they'd agree to become his franchises. He sold only five in the first two years, but he stuck it out.

Four years later the self-proclaimed Colonel Sanders had sold more than 600 Kentucky Fried Chicken franchises. And by the time Harlan Sanders died at age 90, KFC was a worldwide brand.

Is today's success holding you back?

Timanthes was a celebrated Greek artist of the 4th century B.C. As an aspiring young painter, Timanthes worked with a respected tutor to learn his craft. After several years, he produced what he believed was his masterpiece.

Delighted with his accomplishment, the young artist stopped striving to further his art. Instead, he devoted hours each day to gazing at his painting, mentally patting himself on the back for his achievement. Then one morning, when he arrived at the studio, he was horrified to find that someone had slathered paint across the canvas, destroying his work. The tutor eventually confessed that he'd done the deed.

"I did it for your own good," he explained. "The painting was holding you back." He urged the artist to try again: "See if you can do better."

Timanthes took his teacher's advice. His next effort, "The Sacrifice of Iphigenia," became his signature work and is regarded as one of the finest paintings of its time.

You should celebrate jobs done well. But don't get so caught up in yesterday's achievements that you forget tomorrow's challenges.

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Giant lizards once roamed Australia

Movies like *One Million Years B.C.* show humans battling dinosaurs, but T. Rex and other prehistoric creatures died out long before Raquel Welch's ancestors designed the first fur bikini. Still, recent discoveries suggest that prehistoric could have fought large reptiles, or at least co-existed with them at one time.

Scientists from the University of Queensland have dug up a small bone that they have determined could have come from a gigantic lizard that lived in Australia as recently as 50,000 years ago.

As reported on the eScience News website, the bone is only 1 centimeter long, but scientists are certain that it belonged to a huge creature that may be related to the Komodo Dragon or another species known as *Megalania Prisca*. *Megalania* once roamed eastern Australia, and reached a length of 11 to 16 feet. Its sharp, curved teeth would have been a ferocious challenge for early humans in the territory, but so far no evidence of any terrifying encounters have been unearthed.

How much do you know about science?

We rely on science and technology for many of the necessities and conveniences of modern life, but how well does the average U.S. citizen really understand science? A survey by the Pew Research Center sought the answer to that question. The survey asked a series of basic science questions and received these results:

- The core of the Earth is our world's hottest layer: 86 percent answered this correctly.
- Uranium is needed to create nuclear energy and weapons: 82 percent.
- Comets comprise a core of ice and a tail of gases: 78 percent.
- Tides are created by the moon's gravity: 76 percent.
- The polio vaccine was developed by Dr. Jonas Salk: 74 percent.
- Astrology is different from astronomy: 73 percent.
- Cell phones use radio waves: 72 percent.
- A light-year is a measure of distance: 72 percent.
- Amplitude (height) determines the loudness of sound: 35 percent.
- Water boils at a lower temperature in Denver than in Los Angeles: 34 percent.

EQUIPPED WITH HIS FIVE SENSES, MAN EXPLORES THE UNIVERSE AROUND HIM AND CALLS THE ADVENTURE SCIENCE.

Learn the ABCs of skin cancer

That dark spot on your skin may be a freckle—or it may be skin cancer. How can you tell? The American Academy of Dermatology takes an alphabetical approach to identifying potentially dangerous skin conditions:

- **A: Asymmetry.** Is the spot or mole generally circular, or does one side look different from the other?
- **B: Border.** Is the edge of the item uneven, notched, or blurry?
- **C: Color.** Does the object vary in color in different areas?
- **D: Diameter.** Is the area larger than a pencil eraser?
- **E: Evolving.** Has the object changed its size, shape, or color?

Contact a dermatologist if you answer “yes” to any of these questions.

Just a rash? Check it out

A rash may be nothing to worry about, but sometimes it can be a sign of something serious. Doctors recommend you pay attention if a rash exhibits any of these symptoms:

- The rash spreads quickly across your body, which could indicate a major allergic reaction.
- You have a fever along with the rash. This could be a sign of a serious infection, so get to the hospital immediately.
- Your rash forms blisters or becomes painful.

The foundation of success in life is good health. That is the substratum fortune; it is also the basis of happiness. A person cannot accumulate a fortune very well when he is sick.

Get to the root of problems

When you can't solve a seemingly impossible problem, do you just throw your hands high in frustration and walk away? Most of the time that's not an option. Try re-framing the problem with these suggestions from Tina Seeling, author of *Inside Out: Get Ideas Out of Your Head and Into the World* (HarperOne):

- **Revise your question.** Turn the problem around by re-examining your real goal. Instead of "What new product will make lots of money?" ask, "What do our customers buy, and what do they avoid?" or "How can we offer more of what already works?"
- **Look for bad ideas.** You can unleash your creativity by flipping the process. Try to identify what doesn't work, what's failed in the past, or what would completely capsize any solution. You may be able to adapt a seemingly impractical solution, or eliminate a factor that's holding you back.
- **Question your assumptions.** Many of us fall into the trap of assuming that the answer we're seeking will look like solutions that have always worked. Take a close look at the problem, your organization, or your industry and identify practices that have never been questioned. Ask, "Why are we doing it this way?" You'll often find a new approach by going against the conventional wisdom.

Play these roles when developing ideas

Thinking creatively requires different mindsets at different stages of your project. If you can shift gears yourself, do that; if not, bring in a colleague to help you sort through the issues. Focus on these key roles as spelled out by Walt Disney:

- **Dreamer.** Don't limit your vision at the outset. Let your mind roam widely as you explore concepts, ideas, and solutions. You don't have to be practical at this stage—just allow yourself to daydream as you think about what you want to achieve.
- **Realist.** Once you've got a plan or idea you want to put to work, start narrowing it down until it's doable. You may end up eliminating the less practical aspects, but if you keep your mind on the core idea, you'll come up with a plan that satisfies your goal while succeeding in the real world.
- **Critic.** Poke holes in your plan so you can patch them up effectively. Run a test or set up a pilot program before rolling your solution out completely. Don't think of obstacles as failures; use what you learn to make your idea viable.

A bet's a bet

A gambler walked into a bar in a small town and loudly announced, "I hear the people in this town are a bunch of hard drinkers. Well, I'll give \$500 to anybody in here who can drink 10 shots of Jack Daniels back to back."

The room was quiet. No one took up the man's offer, but one customer got up and walked out.

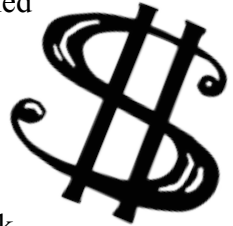

Thirty minutes later the same gentleman came back and found the gambler still sitting at the bar. "Is that bet still on?"

"It sure is!" The visitor promptly ordered 10 shots of Jack Daniels lined up across the bar.

The man picked up the first shot, drank it down, and proceeded to finish the rest of the shots one after another. The bar patrons cheered as he downed the last shot, and the gambler looked at him in amazement.

"Fair's fair," he said, counting out the \$500. "If you don't mind my asking, why did you leave and come back?"

"Oh, I had to go to the bar down the street first to see if I could do it."

A valid question

A father and his 6-year-old son were visiting the zoo. Standing in front of the polar bear cage, the father began talking about how dangerous polar bears could be and how caretakers at the zoo took special care not to let them escape.

Suddenly the boy grew worried. "Daddy, if a polar bear gets out and eats you ..."

"Yes?" the father asked, touched by his son's concern.

"Then what bus do I take to get home?"

Founded in 1916.

Caring Ever Since.

From our family to your family

Morton Plant Hospital got its start in 1914 when several local women asked railroad magnate Morton F. Plant to fund a hospital. He agreed, if the community would also make a substantial contribution. They took the challenge and the hospital opened in 1916. Throughout the years, the hospital served the community, and the community gave back, ensuring that generations of families would be able to count on the compassionate, quality care provided by Morton Plant Hospital.

One of the most noteworthy hospitals in the nation, Morton Plant Hospital was founded because a community cared. And 100 years later, one thing remains the same — our commitment to caring for your family.

The new Doyle Tower at Morton Plant Hospital, scheduled to be completed in 2016. Another example of how the community gave back.
