## Manager's Corner

---

**MANAGER**

**D**ear Residents,  
I wanted to take a moment and introduce myself as the new manager and my assistant Jessica Ramsey. I have been in property management for 11 years and I'm excited to be part of the Equity Lifestyle team. My background has been in managing homes and also apartments while now making the move into manufactured homes. Jessica has a career that has always focused on customer service and she is great with conflict resolution. Together we have a list of things we would like to see happen in the community and goals to be accomplished as a team. We are always up for suggestions on items that you would like brought to our attention. We look forward to meeting each and every one of you! Hope you all are enjoying your community and if there is anything we can do to make your home more enjoyable, please let us know.

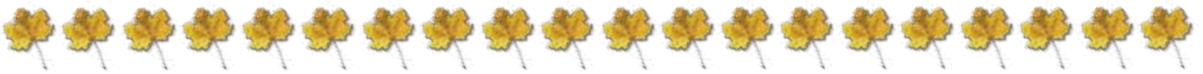

Sincerely,  
Leslie Johnston

## Have An Issue?

---

**R**esident Objection Forms – If you have a complaint, please complete a resident objection form and return to us in the office or drop in the night drop. Please allow two weeks for review and action if any is deemed necessary. Please remember that these forms are for use regarding rules and regulations violated as outlined by our community rules and regulations, we can only take action against these violations. If you do not have a copy of the rules and regulations please contact the office and we will be happy to provide you with one. Resident objection forms can be found in the clubhouse. These forms must be signed and dated; if all information is not included the form will not be reviewed and will be discarded. We in the office are spending entirely too much time answering phone calls and talking with residents visiting the office to voice complaints. You **MUST** complete a resident objection form for your complaint to be reviewed and the complaint must be a violation of the community rules and regulations. These forms can also be used to give someone notice for something well done or to report a problem with community property such as a broken toilet paper holder or a stuck door. We thank you for your cooperation!

## Just a Couple of Friendly Reminders

---

**G**arbage Pickup – We just want to send out a little reminder about garbage pickup times. We have heard that some of the garbage is being out too late and this is causing maintenance to have to take more time picking up garbage and less time attending to issues that need to be handled in the community. Please make sure that your garbage is at the end of your driveway/carport no later than 8:00 a.m. Monday and Friday. If you need a special pickup please call the office and we will handle accordingly. Thank you so much for your cooperation!

**Speed Limits** – We have had many complaints of people speeding through the community; in the community rules and regulations on page 3; under section IV, Motor Vehicles, subsection 1 it does state that all drivers must observe speed limits and stop signs as posted within the community. The speed limit is 10 MPH. Please be courteous and follow these guidelines. We appreciate your cooperation!

## Gobble, Gobble, Gobble

---

**T**hanksgiving is November 26th this year. As in the past, the Park will supply funds for the main part of the entree. The traditional turkey, dressing, potatoes, gravy and cranberry sauce will be provided. There will also be an alternative meat available for those who don't like turkey.

Social hour begins at 3:00 p.m. with dinner served at 4:00 p.m. There will be a table sign up sheet on the social club board. Each table will need a hostess to organize the side dishes and desserts for their table.

Table set ups can begin at noon on Thanksgiving. Please do not plan on using the kitchen facilities for your private table. Those cooking the turkeys and provided sides will need unencumbered access to all area of the kitchen.

There will be a cutoff date to sign up for the dinner. This date has not yet been determined but will probably be at least the Saturday before the holiday. This event is open to all Hillcrest residents. If you wish to bring non-residents there will be a nominal charge (usually \$5.00 per person).

Continue to check the social club bulletin board for additional information.

**A Complete Listing of Resident Services  
can be found on the page before your calendar**

## Welcome Back

Submitted by Pat J. - HOA

---

It's that time of the year. The weather is drying out and cooling off. It is with anticipation that we await the return of our northern friends. We hope you had a wonderful summer and are bringing back some amusing stories to share.

To the year-round residents, now is the time that the social activities kick off in earnest. If you want to know your neighbors, join a club. There are many clubs that are active from November through April. Among these are the Social Club, Friendship Club, Shuffleboard Club, Bingo, Crafts, Game Night, Sunday Football, and of course, the Homeowners Association. To join most of these clubs just show up or ask a board member how to join. Bingo, crafts, game night and football Sundays are open to all without a membership commitment.

## Networking for Progress

Submitted by Pat Jones

---

There is an organization in Florida call Networking for Progress that is made up of representatives from ELS mobile home parks and corporate ELS. They discuss and try to bring resolution to many common concerns. Of course the individual park prospectus, lease, rules and regulations and bylaws take priority over any situation. With that being said, the following are items currently under discussion and some with resolutions.

There is now an agreement in place for the HOA (Homeowners Association) to request to perform work. There is now an application to perform this work. In the past we have volunteered to deal with the back wall (before the mold was this big a problem) and we offered to build the closet in the hall (providing Hillcrest supplied the materials). In place now is a procedure for specifically addressing who owns items purchased by the HOA for the benefit of the community and who has the obligation of replacing it in the future, and the quality of that replacement.

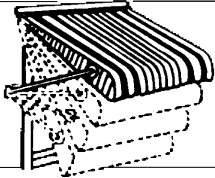

Management Discretion/Special Exceptions. This privilege is to be used sparingly. ELS has agreed to write a policy addressing this privilege. This discussion is ongoing so I wouldn't expect to see any changes just yet. Do be aware however, that in the future you may NOT get what you want if there must be an exception to a rule. This would cover such things as fences, improperly installed storage sheds, additions to carports without proper permits from the city, etc.

Golf cart drivers. The legal age in Florida to drive a golf cart is 14; however, some communities have stricter rules.

## Multiply Your Monthly Mania!

**A**s you probably already know; patronizing the advertisers in this newsletter also pays YOU with our Monthly Mania Cash Give-a-Way. **We pay out \$400 every month to residents** who submit tickets they have received from using the businesses in the newsletter. Winning is easy, just patronize any advertiser in the newsletter, then submit either the ticket or a paid receipt to us for your chance to win!

### Now You Have More Chances to Win!

We are now offering unlimited entries into our Monthly Mania drawing by just *SUGGESTING* a business to advertise.

Here is how it works:

1. Call our office and suggest a business to advertise in the newsletter
2. We will take down your information (name, address, phone number) and enter you into the next month's drawing for over \$400 in cash prizes
3. The more businesses you suggest, the more chances you have to win.  
*(To qualify each resident can only suggest a business once)*

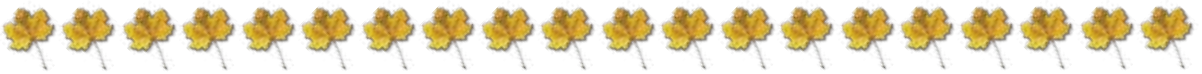

### What businesses would you like to see advertising?

We have spots available in the following categories:

- |                                     |                                      |                               |

# ELS Complaint Procedure

---

There is a procedure in place for resolving problems. The complaint procedure, also called the Nelson Procedure after the person who came up with this plan.

## **FIRST: COMMUNITY MANAGER**

Put the concern in writing, including a fair date (no less than 5 business days) of when you expect an answer. You could put on your form the following: *“The courtesy of a reply by \_\_\_\_ (5 business days) would be appreciated.”*

If the complaint concerns the Community Manager, proceed to Step 2 after discussing the problem with the manager. A copy of the complaint should be sent to the manager.

## **STEP 2. REGIONAL MANAGER**

Send a copy of your concern to your regional manager, with a copy of the first step attached and again give a reasonable date (no less than five business days) by which you expect an answer.

## **STEP 3. VICE PRESIDENT**

Send the concern on to the Vice President for your area, along with the copies sent in Step One and Two. Again give no less than 5 business days for a response.

In our area the Vice President

Regional Vice President Dawn Rumpf

Email is Dawn\_Rumpf@equitylifestyle.com

The mailing address is:

Equity Lifestyle Properties

5100 W. Lemon Street

Suite 109

Tampa, FL 33609

The Fax number is 813-282-6754

If a response is not received by the date indicated in Step 3 communication, move to Step 4.

## **STEP 4: ERIC ZIMMERMAN**

Send copies of all of the above steps by registered letter to Eric Zimmerman. Once again ask for the 5 business day period for a response. This should be by registered letter so there is no argument as to whether the complaint was received or not. An email will accomplish the same goals and provide a paper trail and an accurate account.

**VICE PRESIDENT** Leslie Taylor-Rharbi

Email is Leslie\_Taylor-Rharbi@equitylifestyle.com

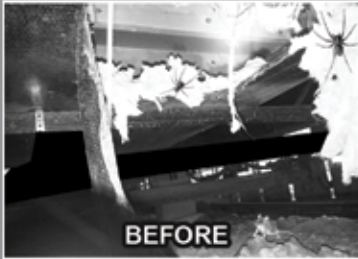

**REGIONAL VICE PRESIDENT** Eric Zimmerman

Email is Eric\_Zimmerman@equitylifestyle.com

ELS recommends that the first point of contact should be directly from an individual resident to the community manager. As stated in Step One this complaint must be in writing. Sitting and discussing it with the community manager is just a gab session. It is recommended by the Hillcrest HOA that you give a copy of the complaint to the HOA so we can help follow up.

One final thing from ELS. **No action will be taken regarding frivolous complaints.** No definition or example given of a frivolous complaint.

# November Crossword

## Moo! Cows may be smarter than you think

---

**W**hat's the smartest animal you can think of? Dolphins and chimpanzees may spring to mind quickly, but don't neglect one often-overlooked farm animal: the cow.

College students at the University of Sydney (as reported by the Huffington Post) conducted experiments with dairy cows and found that our bovine friends are capable of quickly mastering a maze to find food, and thus may possess better problem-solving skills than previously known.

The cows were tested in a T-shaped maze similar to those used with mice and rats. They learned to follow a sound through the maze to get to their food, with one of them reaching its goals within the first 20 seconds of the test.

The results suggest that cattle farmers could train cows to obey specific sound signals to come in for milking, producing greater efficiency on dairy farms.

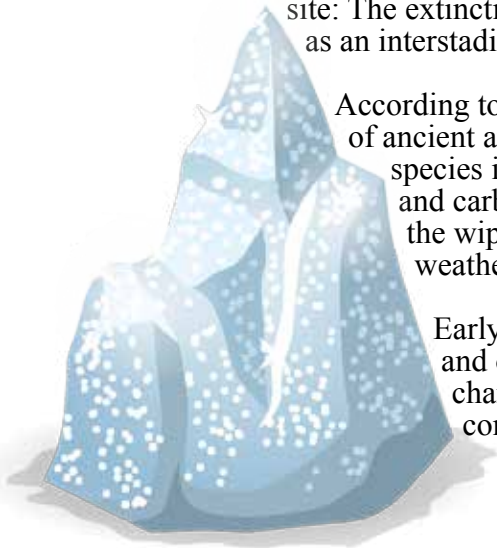

## Global warming, not Ice Age, may have killed mammoths

---

**G**iant woolly mammoths roamed the Earth until about 11,000 years ago, when they abruptly went extinct. For years, scientists theorized that they were killed by the cold temperatures of the last Ice Age. Now some believe the explanation is just the opposite: The extinction event was caused by a sudden warming event known as an interstadial.

According to research published in the journal *Science*, DNA studies of ancient animals point to the sudden extinction of many large species in past ages. As more DNA from fossils became available, and carbon dating methods improved, scientists discovered that the wipeouts didn't correspond to the rise of glaciers and cold weather, but rather to periods of rapid global warming.

Early humans also contributed to the demise of the mammoths and other large beasts, but the evidence suggests that climate change was a major factor in their extinction—raising concerns about the future of our present environment.

## Have a nice flight (if you can)

---

**F**lying may be the fastest and safest way to travel, but we all have our own preferences and quirks when traveling by air. A survey of more than 1,100 family travelers by ExpertFlyer looked at passenger habits. Their findings included:

- **Airline choice.** United? American? Southwest? Forty-five percent of participants said that airline mile redemption was a factor in choosing which airline to fly on.
- **Storage space.** Space is at a premium on most airplanes. Seventy-five percent admitted to “stealing” overhead bin space beyond their authorized allotment.
- **Food.** In-flight meals aren’t the only option if you’re hungry. More than one-third of passengers said they bring their own food to eat during flight.
- **Complaints.** Flying can be stressful. The top complaint: A bad seat or a seat not near companions (35 percent), followed by delays (25 percent), and general discomfort (24 percent).
- **Worries.** Lost luggage is one thing, but 21 percent of survey participants said that terrorism is their biggest concern when traveling with their families. That was followed by getting lost or separated (19 percent) and crime (19 percent).

## Who’s drinking all the coffee?

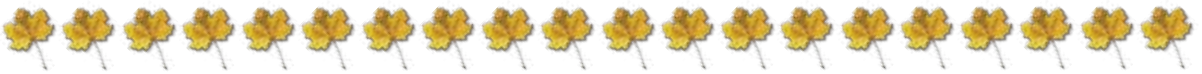

---

**L**ots of people depend on coffee to get them through the day. According to figures from Gallup, 64 percent of U.S. adults drink at least one cup a day. Some drink more:

- One cup                    26 percent
- Two cups                 19 percent
- Three cups               8 percent
- Four or more            11 percent
- None                        36 percent

Coffee is somewhat more popular with the older generation, with 74 percent of people 55 or older drinking it daily, a habit shared by just 50 percent of the 18-34 crowd. Women drink a little more than men: Sixty-six percent of women report having one or more cups per day, while 62 percent of men say the same. And Caucasians drink more than African-Americans—67 percent to 59 percent.

## November Is...

---

**Military Family Appreciation Month.** Throughout November, military families serving around the world are honored through a variety of observances and recognized for their commitment and the many contributions they make every day in support of the military and our nation.

**National Epilepsy Awareness Month.** The Epilepsy Foundation estimates that 65 million people around the world, and 2 million in the U.S., have epilepsy—a neurological condition in which disturbances in the electrical activity of the brain cause seizures. National Epilepsy Awareness Month seeks to break down barriers stopping people with epilepsy from reaching their fullest potential.

**National Peanut Butter Lover's Month.** Celebrate your love of peanut butter this month by sharing these facts with your friends: One 12-ounce jar of peanut butter contains about 540 peanuts; one acre of peanuts can produce enough peanut butter for 30,000 sandwiches; and peanuts contribute more than \$4 billion to the U.S. economy every year.

**Native American Heritage Month.** Beginning as a single day of recognition for the contributions the first Americans have made to the establishment and growth of the U.S., Native American Heritage Month was designated in 1990 by President George H. W. Bush.

## Week to Week in November

---

**National Animal Shelter Appreciation Week, Nov. 2-8.** Approximately 3,500 animal shelters across the United States serve the estimated 6-8 million homeless animals in need of refuge each year. Show them some love and support.

**National Hunger & Homelessness Awareness Week, Nov. 14-22.** Held each year the week before Thanksgiving to give Americans a time to show compassion for people experiencing hunger and homelessness.

**Geography Awareness Week, Nov. 15-21.** Spatial thinking through maps is one of the most important skills that students can develop as they learn geography, Earth and environmental sciences, and so much more. Celebrate and explore the power of maps!

**American Education Week, Nov. 16-20.** Take this opportunity to celebrate public education and honor individuals who are making a difference in ensuring that every child receives a quality education.

## Stay healthy when you travel

---

**C**an your hotel room make you sick? Whether you're on vacation or traveling for work, you don't want your accommodations to create health issues. Try these tips to stay healthy wherever you crash:

- Get a smoke-free room. Avoid exposure to leftover smoke and nicotine by requesting a smoke-free floor when you make your reservations, or at least a nonsmoking room.
- Resist the minibar. Decline a minibar key when you check in. You'll be free of temptation to indulge in unhealthy (and expensive) drinks and snacks.
- Ditch the bed cover. Bed covers can be hiding places for bugs and other pests. Store it in a dresser or a corner of your room before going to bed.
- Bring your own disinfectant. Wipe down the phone, TV remote, and other devices with an antibacterial spray or wipe before using them to get rid of any harmful bacteria and germs from previous guests.
- Use fresh cups. Don't drink from reusable glasses and cups. Stick with your own water bottle, or plastic disposable cups wrapped in plastic.

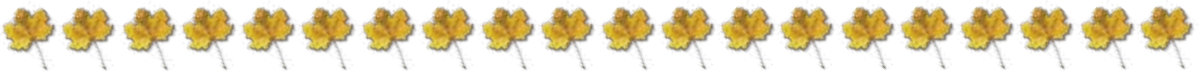

## Don't sabotage your diet during the long afternoon

---

**Y**ou can eat a healthful breakfast and a nutritious lunch, yet still undercut your efforts to stay fit if you slack off in the afternoon. Watch out for these post-lunchtime habits that can add on extra pounds (from the Health Magazine website):

- Heavy snacks. A mid-afternoon snack can turn into a second lunch if you're not careful. Don't overdo it. Limit your snacking to 150 calories or fewer.
- Avoiding the gym. Schedule time for exercise; don't skip it just because you're busy or tired. Burning calories is important to staying in shape.
- The coffee shop. If you need a dose of caffeine, don't overload on extra sugar and cream, and resist the scones and muffins. Have a cup of coffee or tea at work, or ask a friend to pick up something salubrious for you so you don't face the temptation.
- Workplace celebrations. Birthdays, showers, good-bye parties and the like usually feature treats that can pack on the pounds. Share your good wishes, but don't go overboard on the goodies.

## Mice controlled with new brain implants

---

**B**rain control seems to be a reality—in mice, at least. Scientists at the Washington University School of Medicine and the University of Illinois have developed a tiny implant, thinner than a human hair, that allows them to control the movements of mice.

Previous attempts involving photostimulation through fiberoptic cables or drug injection through metal tubes required surgery and damaged brain tissues. The new technique uses a small device mounted to the head of a mouse and powered by a battery. The device delivers drugs from small reservoirs to the mouse's brain. In one test, a mouse was made to walk in circles after its brain was injected with a chemical that mimics morphine.

In another set of experiments, scientists modified mice brains to make them sensitive to light and stimulated brain cells with tiny LEDs. The mice were kept on one side of a cage by flashing light pulses on specific brain cells.

Scientists and physicians hope that the experiments will lead to more minimally invasive procedures to treat humans suffering from stress, depression, addiction, and pain.

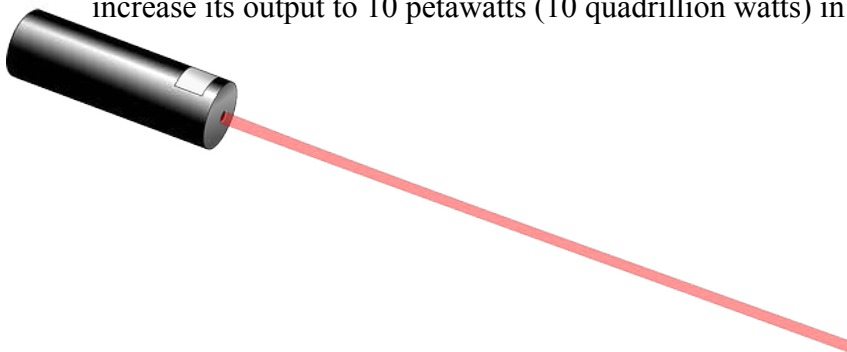

## Lasers become even more powerful

---

**T**he most powerful laser beam yet developed is at Osaka University in Japan, according to the Fortune magazine website. In July, researchers fired a beam for one-trillionth of a second containing energy equivalent to 1,000 times the amount of electricity consumed by the entire world—2 quadrillion watts.

The beam was generated using a device called a Laser for Fast Ignition experiments (LFEX), which amplifies laser energy with four specialized devices inside the laser. Scientists hope to increase its output to 10 petawatts (10 quadrillion watts) in the near future.

## Laughter and tears

---

**A** wise old man sat sitting with a group of friends cracked a joke. Everyone laughed. After a moment, he told the same joke again. This time, only a few people laughed.

He repeated the same joke over and over again. When there was no more laughter, he asked, “You can’t laugh at the same joke over and over again, but why do you keep crying over the same things over and over again?”

When no one could answer, the old man explained: “The novelty of jokes is in the element of surprise. Crying, on the other hand, is the exact opposite. It is the element of predictability or certainty that drives many of us to cry over the same things.”

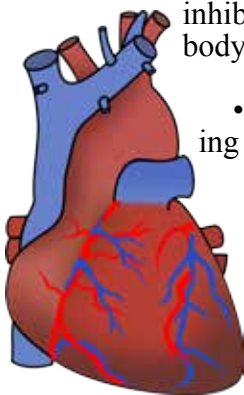

## Watch for these risks of high blood pressure

---

**I**f you haven’t checked your blood pressure lately, you may not be aware of some of the risks associated with hypertension. Here’s what high blood pressure can do to you:

- Heart attack. Your coronary arteries can be damaged and blocked, as high blood pressure causes atherosclerosis.
- Stroke. Hypertension can cause the arteries in your brain to weaken, potentially leading to a stroke if they clog or burst.
- Heart failure. Narrowed arteries caused by hypertension can increase your heart’s workload, which may lead to an enlarged heart unable to supply enough blood to the rest of your body.
- Kidney failure. High blood pressure can also caused narrowing of arteries in the kidney, inhibiting their ability to filter blood and regulate hormones and fluids in your body. Ultimately, kidneys can shut down if the arteries grow blocked.
- Vision loss. In the eyes, hypertension can cause bleeding, as well as swelling of the optic nerve—both of which can damage your eyesight.
