FOR AD RATES & INFO 727-484-7488 • info@monthly-media.com

From The President

Kathy Bornick

Please do not feed the birds, the fish, the wild life of any kind. Throwing food in the lake attracts alligators and could cost someone their pets or even a child (remember Orlando). Please stop.

The Health Department has again strongly recommended that we place all garbage in cans with lids. Please do NOT place garbage outside your unit in plastic bags. The birds and wild life rip them open and spread garbage all over the street!

From The Office

Kay Tyrrell

Te are currently installing the last phase of new pedestals for this year. Also the putting green carpet has recently been installed and has enhanced that area of the property. We have had TruGreen as our fertilizer for our lawns for a little over a year. The lawns have shown a steady improvement in that time. A few months ago we changed to Aquatic Systems for our Lake and Pond Maintenance, we now have better service and the waterways are looking much better.

Continue to inform the office of your guests and your coming and goings. This way we know where to send any important correspondence while you are out of the Park.

Holiday Shores Activities Association

Marie Rapoza

he Activities Association had a very quiet and low-key July. The hot and oppressive heat made us all lack energy and enthusiasm.

The July 4th Get-Together was cancelled due to the lack of participation.

The monthly luncheon at Jungle Prada Tavern on Thursday, July 15th was a great success. Approximately 19+ residents were in attendance. Lucy has a surprise for everyone—scratch tickets to gag gifts (e.g. toilet paper). A lot of laughter and fun was echoed throughout the restaurant

As stated in last month's newsletter, the activities are limited for the summer. However, don't forget to check the lobby, the bulletin board in the clubhouse and the A-frames for any August happening(s).

Check the bulletin board for upcoming trips. If interested, call Lucy at 391-1835.

Sharing and Caring

Dolly Lake

PLEASE call me if you know of someone who is ill, in the Hospital, having surgery, or has passed away, etc. Very often, people think someone else has called me, therefore I am not informed. So please give me a call at 399-0147!! Thanks for your help

We would to express our sympathy to the family and friends of Myra Fogg who passed away in July.

Watch for the dangers of carbon monoxide

arbon monoxide (CO) is a colorless and nearly odorless gas created by the incomplete burning of solid, liquid, and gaseous fuels. It's poisonous to people and pets, so be careful. Symptoms of the poisoning are:

- Headache
- Fatigue
- Shortness of breath
- Nausea
- Dizziness

To prevent CO poisoning, take these precautions at work and at home:

- Buy and install a CO alarm. Make sure it meets safety requirements, and follow the directions for proper placement and installation.
- Install appliances properly. Most of them should be installed by a professional.
- Check your appliances. Have your heating system inspected and serviced every year.
- Only burn charcoal outdoors. Never burn it in a tent, home, garage, vehicle, etc.
- Make sure you turn off fuel-burning engine equipment when you are inside a garage or basement. Just having the doors open does not ensure your safety.
- Always follow the manual directions when servicing fuel-burning equipment.
- Do not use gas appliances, such as ranges, ovens or clothes dryers, to heat your home.
- If you use a fuel-burning appliance that is approved for indoors, make sure it is vented to the outside following the manufacturer's instructions.
- Install and use exhaust fans over gas stoves.
- Open flues when you use your fireplace.
- Choose the proper size wood-burning stove for your home.
- Have a professional inspect, clean and tune up your central heating system (furnaces, flues, and chimneys) annually.

Act of compassion

In these days of political polarization, this story about acceptance seems appropriate: When former Vice President Hubert Humphrey died, hundreds of political figures from around the world came to his funeral. One was former President Richard Nixon, who resigned from office in the wake of the Watergate scandal. Everyone wondered how the disgraced expresident would be received.

When then-President Jimmy Carter arrived, he noticed Nixon standing alone. Instead of heading for his seat, Carter walked toward Nixon, held out his hand, and then gave Nixon a hug, saying, "Welcome home, Mr. President, welcome home!"

Despite belonging to a different political party, Carter decided to show compassion toward someone whom many ignored. It was an extraordinary gesture of acceptance.

A life in books

Pulitzer Prize-winning writer Geraldine Brooks' love of books from a young age was supported by a woman she never met. According to The Power of Good, by Mark McCrindle (Hybrid Publishers), Brooks' grandfather mentioned to a friend named Althea Glasby that his granddaughter loved to read, and so every year for Christmas young Geraldine got a book signed, "To Geraldine, with love from Althea Glasby."

"I have no idea what this woman spent so much time and thought on a child she didn't know," Brooks said as a grownup. "Whatever the reason, I wish I could thank her in person. I wish I could tell her how those books shored up a love for the written word that grew over time into a career and a calling. I would like to give her one of the books I've written, nice, hardback first edition. The signature wouldn't be as fine and fluid as hers, but in my own pedestrian scrawl I would say thank you, for the gifts that helped to lead me to a life in books"

A costly game

Bill and Fred were playing golf one day. When they came to a hole with a large water hazard, Bill teed up and watched his ball drop into the water. He checked his golf bag and found he didn't have any extra balls, so he asked Fred to give him one.

That ball, too, went into the water, so Fred gave him another—which also sank. After the third golf ball disappeared into the drink, Fred said, irritated, "You know, those golf balls cost \$10 a piece!"

"Hey," Bill said, "you shouldn't play the game if you can't afford it."

ARPET "DRY"

Did you know that August is also...

Back to School Month. As summer draws to a close, back-to-school season is in full effect. Remember to safely share the roads with school buses, pedestrians, and bicyclists, and provide children with the necessary knowledge to stay safe at school. Whether children walk, ride their bicycle, or take the bus to school, they—and the motorists around them—should remember to take proper safety precautions .

National Black Business Month. During August, individuals, institutions, and businesses are encouraged to visit at least one black-owned business per day. The increased sales resulting from that traffic could result in more than 40,000 additional jobs during the month and as many as 450,000 new jobs if the habit is continued over the course of a year.

National Immunization Awareness Month. National Immunization Awareness Month (NIAM) provides an opportunity to highlight the value of immunization across a person's lifespan. Activities focus on encouraging all people to protect their health by being vaccinated against infectious diseases.

Clown Week, Aug. 1-7. Celebrations take on a variety of forms, such as putting on shows in malls, child care centers, hospitals, and nursing homes, and clown appearances in parades, grand openings, and other places.

National Fraud Awareness Week, Aug. 7-13. Businesses and government agencies around the world lose an estimated 5 percent of their annual revenues to fraud. National Fraud Awareness Week seeks to educate everyone on the dangers of fraud and how to protect themselves from criminal activities.

Motorcycle Week, Aug. 14-20. For the motorcycle rider and lover, a week dedicated to the vehicle that millions of Americans enjoy. Ride, celebrate, and make new friends on the road.

National Aviation Week, Aug. 14-20. A celebration of flight, observed during the week of Orville Wright's birth, Aug. 18. Along with his brother Wilbur, Orville Wright built and flew the world's first successful airplane in Kitty Hawk, N.C., in 1903.

International Beer Day, Aug. 5. Enjoy your favorite beer, or try a new one—responsibly, of course.

World Elephant Day, Aug. 12. Asian and African elephants are loved, revered, and respected around the world, yet we teeter on the brink of seeing the last of these magnificent creatures.

National Dog Day, Aug. 31. Celebrate your dog—and dogs everywhere.

New moon discovered around distant dwarf

The solar system is a little bit larger these days. The Hubble Space Telescope has found a new moon orbiting the dwarf planet Makemake in a region of space beyond the planet Neptune known as the Kuiper Belt, where many other small planet like objects have been found. Makemake is slightly smaller than Pluto, another dwarf planet, and is covered by a layer of frozen methane.

According to the Sci-News website, the moon, nicknamed MK2, is approximately 100 miles around and orbits close to 13,000 miles above Makemake. Astronomers discovered it after examining observations from the Hubble made in 2015. Astronomers believe that it is the product of a collision between Makemake and another celestial object or was captured by Makemake billions of years ago.

Wookie alert! New species sited on Earth

hewbacca has been sighted—not a long time ago in a galaxy far, far away, but in Papua New Guinea. It's the name of a newly discovered species of flightless beetle, dubbed Trigonopterus Chewbacca because of its distinctive pattern of scales.

As reported on the (e)Science News website, Chewbacca is one of four new black weevils discovered by an expedition of scientists looking for examples of the Trigonopterus beetles. The website notes that unlike its fictional namesake, this Chewbacca doesn't depend on size and brawn to scare enemies off, because it measures only 2-3 millimeters in length.

New evidence changes theory about dinosaur extinction

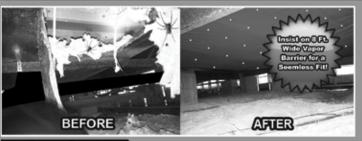

or years scientists and dinosaur enthusiasts have accepted the theory that a giant asteroid caused the mass extinction of the dinosaurs 66 million years ago. Now that theory has undergone some tweaks, as reported on the Science News website.

The asteroid probably didn't help matters, but evidence now suggests that the dinosaurs had begun dying out long before it struck. Dinosaur species began disappearing faster than new ones evolved some 40-50 million years before the asteroid's impact—a loss in diversity that made surviving the event more difficult.

Many species of birdlike dinosaurs kept going, ultimately evolving into the birds we see today. Scientists speculate that because much of the diet of today's birds consists of seeds, earlier flying reptiles may have relied on the same food source, which can last for decades.

Like a good neighbor . . .

Te depend on our neighbors to water our plants and walk our dogs when we're out of town—or do we? A study from the Pew Research Center found that only a little more than half of Americans—52 percent—say they trust all or most of their neighbors, and 48 percent they trust only some of their neighbors, or none at all.

The Pew Center found that among households with incomes of \$75,000 or more, 67 percent of residents trust all or most of their neighbors, but in households earning less than \$30,000, only 37 percent feel the same.

Race may also be a factor, although the connection is unclear: Sixty-two percent of white Americans say they trust their neighbors, just 31 percent of African-Americans do, and only 27 percent of Hispanics.

The Zika virus: Protect yourself with the facts

The Zika virus is spreading in the headlines and around the world, but you don't have to panic. The best defense is information. Here are some basic facts about the virus from the NBC News website:

- Origins. Zika comes from the continent of Africa. It was first observed in 1947, but didn't seem dangerous. That changed when it migrated across the South Pacific and ultimately arrived in Brazil, where immunity against the virus is low.
- **Effect.** The virus itself doesn't seem to cause major health problems in most people beyond a rash, headaches, and fever. But it can in some cases cause paralysis, nerve damage, encephalitis, and miscarriages, as well as birth defects and deaths in newborn children.
- **Transmission.** The Zika virus is mostly spread by mosquitoes native to tropical regions. It can also be sexually transmitted.
- Reach. Zika has already arrived in the United States, where approximately 700 people have been infected after traveling to foreign countries. Mosquitoes that carry the disease are common in many areas, even as far north as New York, so localized outbreaks could occur in several states
- **Prevention.** Air conditioning and windows screens are both good defenses against the mosquitoes. In addition, officials advise that people wear long clothing and insect repellant when going outside.

• Ads over 10 words must be accompanied by \$.80 per extra word or publisher will edit. • No mobile home sales, no professional products or services. SORRY: No ads accepted by phone or email. DEADLINE: 10th OF EACH MONTH.

The night shift takes a bigger toll on women

Torking the midnight shift is hard on everyone, but it may be more detrimental to women's health than men's, according to a study by a sleep research center at the University of Surrey.

The center put 16 male volunteers and 18 females in a controlled environment where each day lasted 28 hours without natural day-night light levels. Every three hours during "daytime" the volunteers performed a range of tasks that measured brain function, alertness, motor control, and memory. Both men and women were affected by the lack of natural circadian rhythms, but the impact was greater on women, who exhibited more problems than men during the early hours of their awake period. The information is useful for everyone contemplating work on the so-called graveyard shift.

Loneliness is bad for the heart

oneliness and isolation may be bad for your mental health, and they can also have a negative impact on your physical health. That comes from a British study reported on the CBS News website, which found that in addition to high blood pressure and compromised immune systems, loneliness can apparently lead to problems with the heart.

The British researchers looked at data from more than 180,000 people. They found that adults with few friends or social relationships were 29 percent more likely to suffer a heart attack or angina, and also 32 percent more likely to have a stroke.

The cause and effect relationship remains unclear, but the findings suggest that strong relationships can influence your health in many ways.

Choose the right food to combat stress

Te all have our go-to foods when we're stressed out—chocolate cake or a bowl of ice cream. But certain foods can actually help you relax without blowing your diet. Consider these alternatives:

- Leafy greens. Spinach, lettuce, and other leafy vegetables can help your brain produce dopamine, which can calm you down.
- Turkey. The tryptophan in turkey boosts serotonin levels, relieving depression.
- Salmon. Salmon is high in omega-3 fatty acids, which can inhibit hormones that cause stress.

Brit astronaut runs marathon in space

stronauts in the International Space Station travel thousands of miles around the Earth each day, but one man has added to that total on his own: British astronaut Tim Peake ran an actual marathon while in orbit, running 26.2 miles strapped to a treadmill as more than 37,000 runners participated in the London Marathon 250 miles below.

Running in zero gravity, Peake completed his marathon in three hours, 35 minutes and 21 seconds—an impressive figure, though about 15 minutes more than his time running an actual marathon on Earth in 1999, when he finished at 3:18:50.

Try these tips when deadlines are tight

Being creative is hard enough when you've got time to sit and think, but when you're on a deadline, inspiration can feel impossible to summon. Don't give up, though. Try these tips for creativity when time is tight:

- Eliminate distractions. Find a quiet room, or put up a "Do not disturb" sign where everyone can see it. If you play music, keep it low and soothing so it doesn't disturb your concentration.
- **Don't watch the clock**. You'll only increase the pressure on yourself if you obsess about every passing second. Concentrate on your task, not on how much time you have to complete it.
- **Take a break**. Sometimes you need to let your mind relax. Take a short walk or get a cup of coffee and clear your mind by chatting with a co-worker or just thinking of a different subject.
- Have a drink. Of course you don't want to start drinking at work, but some studies suggest that a small amount of alcohol can loosen up your mind and help you develop new ideas. Just remember not to drink so much you can't get back to the task at hand.

Every discovery in science is a tacit criticism of things as they are. That is why the wise man is invariably called the fool.

—Martin H. Fischer
