## This from Ace Reporter Tom Lenard

Saturday Feb.26, 2017 started out as a cloudy and cloud covered day. I looked out the window and said to myself, "Oh, it doesn't look good for the 6th Street Party that is to be from noon to 4:PM today". Well, as typical Florida weather would have it, by 10:30 AM the sun was out and the day turned to be absolutely perfect.

Fred started the grill and the Honeymooners brought the rest of the spread. Wow!!! If anyone left hungry it was their own fault.

The Balloon Girl was there, making hats and flowers and animals. The music was accompanied by line-dancers, fox-trotters, and swingers, with a waltz or two in between.

Lots of fun, conversations and time spent with neighbors and good friends. Some took a turn singing and entertaining over 135 plus attendees.

Thank You Fred for another outstanding event.

**C**ongratulations to Honeymoon neighbors Ray Varney and Eva Miller who recently became newly-weds! They got married on the beach at Honeymoon Island on Friday,

March 3. Ray was busy cooking hot dogs and burgers over a hot grill the very next day for the reception that closed Third Street!

Thank you for sharing your happy day with your neighbors, and we wish you good health and much happiness!

## **Carolyn Carr says:**

**I bumped into an old friend who had become an engineer and asked what was he doing.**

**He explained that he is working on "Aqua-thermal treatment of ceramics, aluminum and steel within a constrained environment".**

**I was very impressed.....**

**Upon further inquiring, I learned that he was washing dishes with hot water under his wife's supervision.**

## **Cook/Bake Off**

**F**ebruary 22nd was the ?? Annual Chili Cook-Off/Bake-Off here at Honeymoon. As usual, it was a great turnout with many entrants and many many judges. Top prize money went to Darlene Orvis. Second place went to Debbie and Donny, who are friends of Kathleen and Gus. And third place went to Phil Hanood's mom, Marlene.

At the dessert table, Pat Gilliland's Hummingbird Cake was the favorite, followed by Linda Shuttleworth's Cream Puffs, and Mary Jane DaLuz's Chocolate-Banana Squares.

Many thanks to Dorothy O'Brien and everyone who helped her organize this event.

**P**at Gilliland has another cruise lined up for next year. This one departs Miami January 13th 2018 on Carnival's "Vista" with stops at Grand Turk, Dominican Republic, Curacao and Aruba, returning to Miami January 21st, 2018.

Contact Pat at 727-733-5202 for more information.

**I**t's that time of year again – when the "Snowbirds" start heading north. Many of you are probably aware that the Pinellas County Sheriff's Office offers house checks while you are away from your home for any length of time. To sign up for this service, call 727-582-6177 and provide the following information:

- The date you will be leaving and the date of your return (if you are a seasonal resident, please estimate your return).
- The address for the house check. Honeymoon Mobile Home Park, 1100 Curlew Rd., your street name and your lot number, Dunedin Florida 34698
- The homeowner's name.
- The phone number to reach the homeowner while away.
- The address of your destination.
- Telephone number and address for a local contact (family member, neighbor, etc.).

Please share whether or not someone else will have access to your home, if you will leave lights or TV on or on a timer, if you have pets on the premises, and if you have your vehicle parked on the property. Also share whether non-owned vehicles may be parked on your property.

Last but not least, mention that you are a member of the Honeymoon Park Neighborhood Watch Program.

This is a wonderful service that the Sheriff's Department offers, and you should not hesitate to take advantage of it.

**B**ut just what is the Honeymoon Park Neighborhood Watch Program? It is sponsored by the Crime Prevention and Community Awareness Division of the Pinellas County Sheriff's Office, and our Neighborhood Watch Representative is Steve Dennis. It is based on the following principles:

- Observation....Neighbors looking out for neighbors
- Communication....Eyes and Ears of law enforcement
- Education....Personal safety, privacy, identity, property security
- Awareness....Eliminating criminal opportunity
- Involvement....Community participation

## **A friend has shared the “Law of Rules”**

---

1. Law of Mechanical Repair – After your hands become coated with grease, your nose will begin to itch and you'll have to pee.
2. Law of Gravity – Any tool, nut, bolt, screw, when dropped, will roll to the least accessible place in the universe.
3. Law of Probability – The probability of being watched is directly proportional to the stupidity of your act.
4. Law of Random Numbers – If you dial a wrong number, you never get a busy signal; someone always answers.
5. Variation Law – If you change lines (or traffic lanes), the one you were in will always move faster than the one you are in now.
6. Law of the Bath – When the body is fully immersed in water, the telephone will ring.
7. Law of Close Encounters – The probability of meeting someone you know increases dramatically when you are with someone you don't want to be seen with.
- 8.. Law of the Result – When you try to prove to someone that a machine won't work, IT WILL!!

*...continued on page 14*

- 
9. Law of Biomechanics – The severity of the itch is inversely proportional to the reach.
  10. Law of the Theater and Hockey Arena – At any event, the people whose seats are furthest from the aisle, always arrive last. They are the ones who will leave their seats several times to go for food, beer, or the toilet and who leave early before the end of the performance or the game is over. The folks in the aisle seats come early, never move once, have long gangly legs or big bellies and stay to the bitter end of the performance. The aisle people also are very surly folk.
  11. The Coffee Law – As soon as you sit down to a cup of hot coffee, your boss will ask you to do something which will last until the coffee is cold.
  12. Murphy's Law of Lockers – If there are only 2 people in a locker room, they will have adjacent lockers.
  13. Law of Physical Surfaces – The chances of an open-faced jelly sandwich landing face down on a floor are directly correlated to the newness and cost of the rug.
  14. Law of Logical Argument – Anything is possible IF you don't know what you are talking about.
  15. Law of Physical Appearance – If the clothes fit, they're ugly.
  16. Law of Public Speaking – A closed mouth gathers no feet!
  17. Law of Commercial Marketing Strategy – As soon as you find a product that you REALLY like, they will stop making it or the store will stop selling it! (like Rye-Krisp)
  18. Doctors' Law – If you don't feel well, make an appointment to go to the doctor; by the time you get there, you'll feel better. But if you don't make an appointment, you'll stay sick.

**A**pril 16th is Easter, and this year a potluck dinner is being planned for 2:00 in the afternoon. In addition, there will be an Easter bonnet decorating contest. This is a new event, and it sounds like fun. Sign up sheet is at the clubhouse.

**S**ending a big Thank You and job well done to Barb Potts, the co-ordinator of the Ladies Lunch. Anywhere from 20 to 30 ladies get together the third Friday of the month, year-round. Barb spends time checking out different eateries, and makes the reservations and coordinates rides for anyone who needs one. The group is smaller during the summer months, but still enjoys the outing.

Thanks again, Barb!

# Help for Severe Aortic Stenosis

Severe aortic stenosis is a narrowed aortic heart valve that doesn't open and close properly, reducing blood flow to the rest of the body.

Morton Plant Hospital is now enrolling eligible patients in the Medtronic Evolut R low-risk trial, which investigates the safety and effectiveness of a transcatheter aortic valve replacement (TAVR) system in patients with severe aortic stenosis who are at a low surgical mortality risk. TAVR is a minimally invasive alternative to open-heart surgery used to treat failing aortic heart valves in patients with severe aortic stenosis. Morton Plant Hospital was chosen as the first hospital in Tampa Bay to offer the TAVR procedure for patients with severe aortic stenosis who were at an intermediate or high surgical mortality risk. Our team has completed more than 700 TAVR procedures over the last five years.

To see if you or a loved one with severe aortic stenosis may be eligible for this trial, or for more information on the trial, call the Center for Advanced Valve and Structural Heart Care at Morton Plant Hospital at **(855) 44-VALVE (855-448-2583)** or visit **[MortonPlantValveTrial.org](http://MortonPlantValveTrial.org)**.

**W**e need to also thank Jerri Gropp for keeping the library so organized. She has added shelving all around the walls, and has filled it all up with books! In fact, she can't accept any new books unless she gets rid of some old ones.

So, thanks, Jerri, for keeping us in reading materials!

**L**ooking through the calendar, everything we do wouldn't be happening without a volunteer to be in charge. So, thanks to all who are willing to share their passions and skills with the rest of us.

If any of you have an idea for an activity we should try, bring it up to a board member, or Eddie Briggs. Perhaps others would be interested as well.

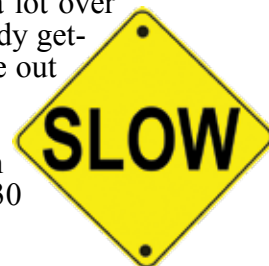

We do need someone to be in charge of the Thanksgiving Dinner this year. Please contact a board member, or Eddie Briggs if you would like to do this. Ann Scott will be willing to advise, as she did it last year.

**H**i,  
Great Strawberry Social on Sunday and good turnout. Thanks to Pat, Christine, Debbie and Elaine for all their help. Job well done.

Sorry we had to come home. Very cold and windy. See you next year. Hope you can make that cruise.

All the best  
love Ralph and Carolyn Carr xoxo

**O**ne of the biggest complaints from our residents is SPEEDING down our streets. We live in an over-55 community, and many of our neighbors are a lot over 55! So we need to be mindful of us older folks that aren't as steady getting around, or as sharp as we used to be, and the younger folks that are out walking, jogging, and riding bikes on our streets.

I was reading a newsletter from another park, and speeding is a problem there, as well. And their speed limit is 15 mph. If our speed limit was 30 mph, I suspect we would still have folks driving faster than that.

Let's try to remember, when we get behind the wheel, to barely touch that gas pedal until we reach Curlew or Alt 19!

Check out [mjbakesalot.com](http://mjbakesalot.com). It's a food blog by MaryJo Boyle with recipes for delicious breads, cakes, cookies and pies. While you are at it, also check out [joeshealthymeals.com](http://joeshealthymeals.com), a food blog by Joe Boyle. Between the two, we should get plenty of mouth-watering recipes to keep us happy and healthy!

## From the Editor's Desk

---

Another season is coming to an end – some people have already left for the northern climes, in hopes that the snow is gone. With the Grace of God and some luck, we will all be here again in the fall.

Over the summer, remember that you can get the newsletter on line at [www.monthly-media.com](http://www.monthly-media.com). If you would like to share a story, contact me at [honeymoongazette@gmail.com](mailto:honeymoongazette@gmail.com). Don't forget we also have a Facebook page - Honeymoon Mobil Home Park Community Association, INC.

For those who are leaving soon, safe travels to you. For those who are leaving later, enjoy the activities still to come.

## Big dinosaurs, big eggs, and hatching times

How long did dinosaur eggs take to hatch? Paleontologists know very little about dinosaur embryology, but with CT scanners and high-resolution microscopy, they're finding out more.

The SciNews website reports on a recent find: Non-avian dinosaurs likely took longer to hatch than their feathered counterparts, much as modern reptiles hatch at a later age than today's birds. Scientists looked at the fossilized remains of two dinosaur embryos, looking at the formation of their teeth. Analyzing growth lines, they were able to determine that one dinosaur had died at three months, and the other at six months.

The difference in hatching times may have had an impact on the large dinosaurs' eventual demise. Because they require more food and other resources to live to adult size, larger reptiles were likely more vulnerable than smaller animals (amphibians, birds, and other mammals) to an extinction event.

## Did you know that April is also...

**ASPCA Month.** The American Society for the Prevention of Cruelty to Animals was the first humane society established in North America, and today it's one of the largest in the world. The ASPCA's mission, as stated by founder Henry Bergh in 1866, is "to provide effective means for the prevention of cruelty to animals throughout the United States."

**Global Child Nutrition Month.** Sponsored by the Global Child Nutrition Foundation, whose mission is to expand opportunities for the world's children to receive adequate nutrition for learning and help them achieve their potential. "We envision a future where school meals sustainably nourish all children and help them, their families, communities, and nations to thrive," reads its vision statement.

**National Autism Awareness Month.** Launched by the Autism Society nearly a quarter-century ago, this event is a nationwide effort to promote autism awareness, inclusion and self-determination for all, and assure that each person with autism spectrum disorder is provided the opportunity to achieve the highest possible quality of life.

**National Kite Month.** Every year in April, kite enthusiasts across North America celebrate the history and the future of the world's favorite pastime by letting their kites fly. April was chosen as National Kite Month because as the first month in spring, it's when most kite fliers are starting to bring their kites out of the closet and prepare for warm weather and summer fun.

**National Youth Violence Prevention Week, April 3-7.** A campaign to raise awareness and educate students, teachers, school administrators, counselors, school resource officers, school staff, parents, and the public on effective ways to prevent or reduce youth violence.

**National Robotics Week, April 8-16.** The purpose of National Robotics Week is to celebrate the United States as a leader in robotics technology development, educate the public about how robotics technology affects society, advocate for increased funding for robotics technology research and development, and inspire students of all ages to pursue careers in robotics and other science, technology, engineering, and math-related fields.

**Animal Care and Control Appreciation Week, April 9-15.** A week of appreciation and recognition for the hard-working men and women who risk their lives and devote huge amounts of personal time and resources while serving the public as well as animals in need.

**Money Smart Week, April 22-29.** Money Smart Week began as a coordinated effort of the Money Smart Advisory Council, a diverse group of more than 40 Chicago-area organizations working together to promote personal financial literacy.
