## **Why Men are Never Depressed**

---

Men are just happier people! What do you expect from such simple creatures?

- Your last name stays put.
- The garage is all yours.
- Wedding plans take care of themselves.
- Chocolate is just another snack.
- You can never be pregnant.
- You can wear a white T-shirt to a water park.
- You can wear NO shirt to a water park.
- Car mechanics tell you the truth.
- The world is your urinal.
- You never have to drive to another gas station restroom because this one is just too icky.
- You don't have to stop to think which way to turn a nut on a bolt.
- Same work, more pay.
- Wrinkles add character.
- Wedding dress \$5000.00 – Tux rental \$100.00
- People never stare at your chest when you're talking to them.
- New shoes don't cut, blister, or mangle your feet.
- One mood all the time.
- Phone conversations are over in 30 seconds flat.
- You know stuff about tanks.
- A five-day vacation requires only one suitcase.
- You can open all your own jars.
- If someone forgets to invite you, he or she can still be your friend.
- Your underwear is \$8.95 for a three-pack.
- Three pairs of shoes are more than enough.
- The same hairstyle lasts for years, even decades.
- You only have to shave your face and neck.
- You can play with toys all your life.
- One wallet and one pair of shoes—One color for all seasons.
- You can wear shorts no matter how your legs look.
- You can “do” your nails with a pocket knife.
- You have freedom of choice concerning growing a mustache
- You can Christmas shop for 25 relatives Christmas Eve in 25 minutes.

So there it is---Men are just happier people.

## Calling all cruisers!

**P**at has put together another cruise with Advantage Cruises and Tours.

Royal Caribbean's "Freedom of the Seas" will depart January 7th, 2017 from Fort Lauderdale, Fl. Ports of call will be Labadee, Haiti; San Juan, Puerto Rico; Philipburg, St. Maarten; Bassaterre, St. Kitts & Nevis with a return to Fort Lauderdale January 15th, 2017. Contact Pat Gilliland at 727-733-5202.

**A**t the April 21 Board of Friends Meeting, President Dale Wittig announced the appointment of Christine Cook and Vic Howarth to the Board of Directors. They have both shown an interest in joining the board, and have both been active in park functions. They will replace openings created by Bob Kittle and Audrey Chalk who are leaving.

## Carolyn Carr reports:

**A**nice, calm and respectable lady went into the pharmacy, walked up to the pharmacist, looked straight into his eyes, and said, "I would like to buy some cyanide. The pharmacist asked, "Why in the world do you need cyanide?" The lady replied, "I need it to poison my husband." The pharmacist's eyes got big and he explained, "Lord have mercy! I can't give you cyanide to kill your husband, that's against the law. I'll lose my license! They'll throw both of us in jail! All kinds of bad things will happen. Absolutely not! You CANNOT have any cyanide!"

The lady reached into her handbag and pulled out a picture of her husband in bed with the pharmacist's wife.....

The pharmacist looked at the picture and replied, "You didn't tell me you had a prescription."

## This from Stephen Dennis, our Neighborhood Watch Chairman:

---

To all "Watch" members:

I send this as a reminder that summer is here and many of our neighbors have gone to points north. Thus the need for those of us who live here full-time to remain vigilant.

Sheriff's Release - Looks Suspicious??. Call First.. 727-582-6200

If you think it looks suspicious, and you are just thinking of calling the Sheriff's Office,

Do not think any further.....**Call: 727-582-6200 Immediately.**

Our job as "Watch" members is to:

**OBSERVE AND REPORT ONLY.**

Absolutely **NO CONFRONTATION.**

The Honeymoon Neighborhood Watch and the Pinellas County Sheriff's Office depend on each other in saying "No to Crime".

The following Sheriff's Release issued by Deputy Jessica Hughey demonstrates that a call to the Sheriff first could prevent or solve further criminal activity:

I, (Deputy Hughey), recently received an e-mail from a Neighborhood Watch Captain about an incident that took place in his community. A neighbor saw a vehicle occupied by 3 male subjects who got out of the vehicle and jumped a fence, only to return a short while later.

Instead of notifying the Sheriff's Office, the resident notified the Crime Watch Captain a couple of days later. Another neighbor was able to obtain a tag number and gave it to the Crime Watch Captain also a couple of days later.

The Crime Watch Captain advised me of the situation and provided me with the tag number. After doing some research, I learned that the vehicle had been reported **STOLEN** 2 days prior to when this incident occurred. The day after this incident was reported to the Crime Watch Captain, it fled from one of our Deputies. One day later, the vehicle was finally recovered and only 1 female juvenile suspect was taken into custody.

So please stress to your community the importance of notifying the Sheriff's Office if any suspicious activity is occurring.

***The most important phone call that should be made first, is to the Sheriff's Office.*** Had this incident been reported as it was happening, we could have possibly detained and arrested those 3 subjects that were observed.

Honeymoon Park Matters...You Matter...Getting Involved Matters

**W**ay back in February there was a fire outside of the clubhouse! Careless smoking was most likely the cause. Smoldering mulch burst into flames about 5:30 in the afternoon. Fortunately it was still daylight and the fire was extinguished before too much damage was done. The downspout and the fence by the pool entrance were slightly melted, and the mulch burned, but all damage was quickly repaired by Doug.

Even though many activities have ended for the season, the memories linger on. About 20 people got together every Monday at 1:00pm to play Cribbage. They each chip in \$3.00 and there are 3 to 4 winners, depending on how many play that day. The group welcomes more players and will gladly give instructions to newbies. Put Cribbage on your “bucket list” for next season!

April 15th was the last “Chase the Ace” karaoke night. I had heard reports about how much fun it was, so I had to check it out for myself.

In addition to Honeymoon's usual singers, we were entertained by Willie Nelson, Kermit the Frog, Louis Armstrong, Ellwood Blues, Dolly Parton, and the King himself, Elvis! Just to name a few!

I hope we get to see some more of Mr. Jon Solomon at future parties. He is a great entertainer, and I'm sure he has more great singers in his closet! I even heard a rumor that he performed in Vegas! How lucky are we to have him now living at Honeymoon!

## A Walk Thru Time

---

I have borrowed a copy of a little book called “A Walk Thru Time”. Honeymoon Park 30th Anniversary 1968 – 1998. It is full of fascinating glimpses into the history of the park. The copy I have is from Pat Curran, and I suspect there are more copies around the park. This being the year 2016, we are only 2 years away from Honeymoon Park's 50th anniversary!

Following is an excerpt from the book, titled “Unplanned Improvements:” In the mid '80s, the Park was faced with a series of sewer crises. The first two, occurring in 1982 and 1983, were small sink holes that were quickly repaired. The third was more extensive and happened during the summer of 1984 when the majority of residents were away. One section of the sewer collapsed, requiring the rerouting of the entire sewer line down West Street.

After the repairs were completed, West Street was resurfaced and reopened. The new sewer system continues to work well (as of 1998), but has been the site of one unfortunate incident. Pat Rago, the current manager, accidentally slipped into the lift station while cleaning it and had to be rescued from a fate worse than death! Injured and badly in need of a bath, Pat was hosed down and transported to the hospital by ambulance. Changes have been made to make sure this type of accident never happens again.

Another unexpected repair was made to the office when Helen Slovic's car accidentally went out of control. She pulled up in front of the office to make a rent payment, and accidentally hit the gas instead of the brake pedal. Her vehicle went airborne through the office window and stopped just short of the manager's desk. It was humorously surmised that she was either overly anxious to pay the monthly rent or highly resentful about doing it.

## I received this email from a friend and thought I'd share it

---

### PHENOMENAL 2 LETTER WORD

This two-letter word in English has more meanings than any other two-letter word, and that word is UP. It is listed in the dictionary as an [adv.], [prep.], [adj.], [n] or [v].

It's easy to understand UP, meaning toward the sky or at the top of the list, but when we awaken in the morning, why do we wake UP? At a meeting, why does a topic come UP? Why do we speak UP, and why are the officers UP for election (if there is a tie, it is a toss UP) and why is it UP to the secretary to write UP a report? We call UP our friends, brighten UP a room, polish UP the silver, warm UP the leftovers and clean UP the kitchen. We lock UP the house and fix UP the old car.

At other times, this little word has real special meaning. People stir UP trouble, line UP for tickets, work UP an appetite, and think UP excuses. To be dressed is one thing but to be dressed UP is special.

And this UP is confusing: A drain must be opened UP because it is blocked UP... We open UP a store in the morning but we close it UP at night. We seem to be pretty mixed UP about UP!

To be knowledgeable about the proper uses of UP, look UP the word UP in the dictionary. In a desk-sized dictionary, it takes UP almost 1/4 of the page and can add UP to about thirty definitions. If you are UP to it, you might try building UP a list of the many ways UP is used. It will take UP a lot of your time, but if you don't give UP, you may wind UP with (UP to) a hundred or more.

When it threatens to rain, we say it is clouding UP. When the sun comes out, we say it is clearing UP. When it rains, it soaks UP the earth. When it does not rain for a while, things dry UP.

One could go on and on, but I'll wrap it UP, for now...My time is UP! Oh...One more thing: What is the first thing you do in the morning and the last thing you do at night? U P! Did that one crack you UP? Don't screw UP.. Send this on to everyone you look UP in your address book..Or not...it's UP to you. Now I'll shut UP!

## Here is an easy delicious-sounding recipe I want to try:

**PEACH COBBLER DUMP CAKE**

- 2 (16 oz) cans peaches in heavy syrup
- 1 (18.25 oz) package yellow cake mix
- ½ cup butter
- ½ tsp ground cinnamon (or to taste)

1. Preheat oven to 375 degrees
2. Empty peaches into bottom of 9x13" pan
3. Cover with dry cake mix and press down firmly
4. Cut butter into small pieces and put on top of cake mix
5. Sprinkle cinnamon over top and bake 45 minutes at 375 degrees
6. Bake 45 minutes at 375 degrees

## Coffee may keep you healthy

Is drinking coffee good for you? A recent article on The New York Times website linked to a number of different studies touting the positive effects of caffeine on several different health problems. They include:

- Liver damage. A review of data collected by studies of more than 430,000 people found that coffee may lower the risk of cirrhosis of the liver, a disease associated with overindulgence in alcohol (among other causes).
- Tinnitus. Researchers kept track of more than 65,000 women and found that those who drank more than one 8-ounce cup of coffee a day were less likely to suffer from tinnitus, that persistent ringing or buzzing in your ears.
- Auto crashes. A study of truck drivers who routinely work on long hauls found that coffee drinkers (or consumers of other caffeinated drinks) seem 63 percent less likely to be involved in crashes while driving.
- Melanoma. An analysis of health and dietary data involving more than 400,000 people ages 50-71 found that those who drank four or more cups of coffee a day were 20 percent less likely to develop skin cancer. (The researchers cautioned that avoiding exposure to the sun's ultraviolet rays is still the most important way to avoid melanoma.)

## State of health: What's the best place for you to live?

Where you live may affect your health, at least according to the Gallup/Healthways Well-Being Index. Their most recent report (using data from 2014) ranked all 50 states in order of health. The top 10 healthiest states?

- Alaska
- Hawaii
- South Dakota
- Wyoming
- Montana
- Colorado
- Nebraska
- Utah
- New Mexico
- Texas

The least healthy state, according to the Index, was West Virginia. The Index looks at a variety of factors, including purpose, social relationships, financial stability, community, and physical health.

## How fast do you want that package?

Americans tend to be an impatient bunch. A study by fulfillment software vendor Temando found that 80 percent of U.S. consumers want same-day shipping from retailers, and 61 percent want their purchases shipped out even faster, within three hours.

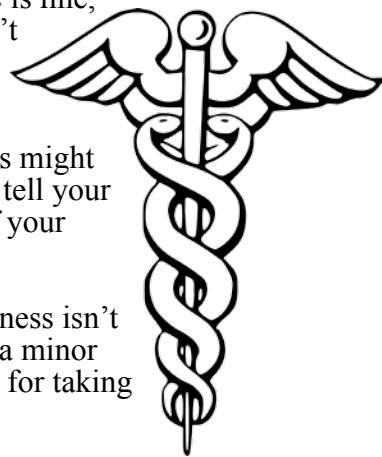

Retailers haven't responded, at least not yet. The study noted that only 53 percent offer same-day shipping even though 55 percent of buyers indicated they'd be willing to pay for it, and only 20 percent send products within three hours, although 31 percent said they'd be ready to pay for that.

## Watch your words when talking to doctors

Communicating with your doctor is important, but you can overdo it. From the Prevention.com website comes this lists of things doctors don't want to hear from their patients:

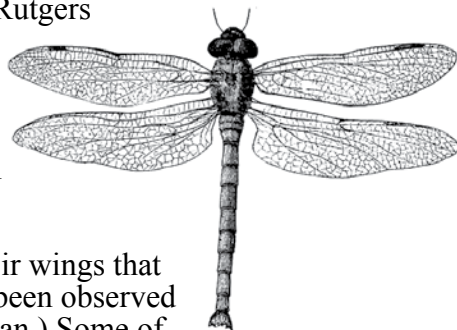

- "I'm sure I have \_\_\_\_." Researching your symptoms online is fine, but most doctors want to diagnose illnesses themselves. Don't walk into the doctor's office insisting you know what's wrong.
- "It's probably just stress." Writing off your problems to stress might keep you from fully describing what's going on. Be ready to tell your doctor all your symptoms so he or she can get a clear idea of your illness.
- "I'm sorry for wasting your time." You may feel that your illness isn't important, but doctors would prefer that you come in before a minor ailment turns into a serious one. You don't have to apologize for taking care of your health.
- "Haven't you heard of this new drug?" Doctors are busy people who don't have time to keep up with every new medication, no matter how hard they try. Don't insist that your doctor prescribe something you saw on TV, but do print out articles that might be helpful in treating your illness.
- "You're supposed to be the expert." Again, doctors are human, and they sometimes miss things. Have realistic expectations, and talk openly about your needs so the doctor can make an informed decision.

## Dragonfly breaks record for longest flight

**B**irds may fly great distances, but the world's leading long-distance flyer is a dragonfly an inch and a half long, according to biologists at Rutgers University-Newark. A species of dragonfly known as *Pantala flavescens* can be found in areas as far apart as eastern Canada, Texas, Japan, and India. Their work found that dragonflies in all these locations share a common gene pool, showing that they were able to travel vast distances to intermingle with local species.

The dragonflies have an increased surface area on their wings that lets wind carry them across oceans. (Some have already been observed migrating between Asia and Africa across the Indian Ocean.) Some of them may actually make the long journey without stopping, stroking the air and then gliding for extended periods to conserve their energy.

Monarch butterflies were previously thought to migrate the farthest distance of any creature—2,500 miles—but if the Rutgers biologists are correct, the dragonflies have set a new record.

## Microwaves make rubies sparkle

**W**ant to make your jewelry sparkle? Try putting it in the microwave. Actually, that may not be your best or safest bet, but scientists have discovered that a microwave treatment can improve the clarity and color of rubies, which aside from jewelry are used in high-power switches and sensors.

As reported on the Science Daily website, a research team at India's Institute of Minerals and Materials Technology (IMMT) put a series of natural, hexagonal rubies in a standard 3MW microwave furnace and heated them at 1,500 degrees Celsius. The microwaves changed the gemstones' color and structure, turning them from reddish black to bright pink and smoothing out defects and impurities by altering their atomic layout and crystal structure.

The process is promising because it's quicker than regular heating and ensures uniformity, and is also more energy efficient.

## Did Neanderthals build their own fires?

Our Neanderthal ancestors may have used chemistry to start fires, according to an article on the Scientific American website. Archeologists have found chunks of black manganese oxides in Neanderthal sites for years. Previously they believed the oxides were used for dark body paint, although other sources like ash and charcoal would have been more easily available to them.

Scientists at Leiden University in the Netherlands, though, analyzed some chunks of manganese found at a site in southern France and discovered that the blocks contained manganese dioxide, which is more flammable than other types of manganese. Groundup particles of the substances can lower the ignition temperature of wood by more than 100 degrees—suggesting that instead of relying on naturally occurring fires sparked by lightning, Neanderthals were able to build fires on their own.

## Radio bursts detected from neutron star

They're not signals from an advanced alien civilization, but they've been a mystery to astronomers for years. Fast radio bursts, or FRBs, are bursts of energy from outer space lasting just milliseconds but emitting as much energy as the sun produces in 10,000 years. Only 17 have ever been recorded, all of them apparently one-time events.

But a repeating FRB has recently been detected, according to the Sci-News website: Astronomers from McGill University using the Arecibo radio telescope in Puerto Rico have recorded a series of 10 FRBs they believe may emanate from a rotating neutron star in a distant galaxy.

This conflicts with previous theories that FRBs are caused by cataclysmic events such as supernovas or the creation of black holes. Whatever their origin, the truth is out there.

**The important thing in science is not so much to obtain new facts as to discover new ways of thinking about them.**

## Monthly Mania: It Pays (Up to \$100) To Patronize the Advertisers in Your Newsletter

**14,492 manufactured home residents have won over \$130,374** since our contest began. It's simple to play ... when you patronize a current advertiser, ask for a Monthly Mania ticket (or a reasonable facsimile) and fill it out completely. Put the ticket in our Monthly Mania drop box in your community or [mail your paid receipt](#) to us at **Monthly Media • PO Box 1023 • Venice, FL 34284**. That's all you do. At the end of the month the Publishers will pick up the tickets and hold a drawing. If your ticket is drawn, we mail you a check.

(Allow 4-6 weeks for mailing of check). **This month's cash winners are:**
