LAKE HAVEN HOME OWNERS ASSOCIATION UPDATE

By now I am sure many of you are aware that Community Manager Patrick Brislin has resigned. ELS Regional Manager Joseph Oxford has assured us that he is actively seeking a replacement; in the interim, temporary management oversight is being provided by other ELS-owned parks in the local area. The HOA Board Of Directors will meet with Mr. Oxford on April 19 to discuss issues of mutual concern. Your Park President will update you on the results of that meeting.

The newly elected Board members met and voted for Board Officers as follows:

President- Lei Crance – Unit #79
 Vice President - Denny Wolff – Unit #40
 Treasurer - Phyllis Becker – Unit 457
 Secretary - Pat Walker – Unit #53
 Directors- Becky Love – Unit # 295
 Lori Mocerino – Unit #254
 Linda Parker – Unit #465

ELS recently performed an inspection of every Lake Haven property to ensure compliance with Prospectus requirements. This inspection will be conducted annually. The inspection was mutually agreed upon between ELS Regional management and the HOA Boards of ELS-owned properties in the West Florida area. The intent is not to place undue pressure on anyone but rather to ensure the park is well maintained. Congratulations to those who had no issues to be corrected. Most other issues were minor and were quickly resolved. The HOA appreciates your efforts to ensure that Lake Haven remains a place we are all proud to call home.

APRIL 2017 HAPPENINGS

Wow that winter flew by quickly! It is amazing that it is already time for most of our part time residents to be heading back home to spend time with their friends and family.

Although we have no calendar events planned for the month of April except the last BBQ of the year on April 1st please do not stop keeping an eye on your information tubes in the coming months. Here in Park III we are seeing more and more permanent residents and have a tossed around a few ideas for some community activities this summer. There are also events held throughout the summer in the other parks that I encourage you to keep an eye out for and watch their calendars as well.

I would like to thank each and every one of you who chose to participate in the activities this past season. Both the fall sale and the spring White Elephant sale were extremely successful and that is 100% due to the dedication and hard work of the entire community. Thank you!

PARADISE ISLAND UPDATE

Pat Walker, Association Secretary

The “season” is on its way out – it seemed to fly by as always. Most of our seasonal residents have either left or are packing up to get outta Dodge before the heat and humidity arrive for a long visit. We held our annual Snowbird Farewell Ice Cream Social even though it seems we have fewer and fewer snowbird residents every year as most of the newer folks are choosing this as their permanent home. With Shirley & Sheila transferring to Park #3 next season, that leaves just the Lueck’s, Haskell’s, Chauncey’s and McLaughlin’s sharing part of their lives with us. We welcome their annual visits.

Thanks Carolyn and Irene for the corned beef & cabbage pot luck dinner – it scored a 5 star rating from the Paradise Island Gourmet Society. It is a tossup between Carolyn and Denny for the title of Chef Of The Year. Both love to cook and both do a fantastic job. Denny & Judy are off to Germany for a river cruise, so the onus is on Carolyn to keep us well fed this month so belly up to the table, tuck in your napkin, grab your fork and get ready! Celebrating an early Easter, she has planned a baked ham entrée for pot luck and on Saturday April 8 she is cooking up one of her Lake Haven-famous country breakfasts. I can already taste those warm biscuits covered in sausage gravy – yum, yum. Tickets are only \$5 so get yours early. Then just so you can gain a few more unwanted pounds, Pub Night with Trivia is planned for April 22. Tickets are \$8 to feast on sliders and other comfort food, so come enjoy a casual meal and challenge your memory with a fun game of Trivia. Flyers will be distributed with event details.

It’s a bit early I know but don’t forget Kentucky Derby Day – Saturday, May 6. It’s an official Party Day for Lake Haven and Paradise Island is the place to be. We’ll gather in the clubhouse at 4:30 PM for a pitch-in dinner then turn on the telly so you can yell and scream as you urge your favorite steed toward the finish line. Put it on your calendar now so you don’t book a conflicting event.

The hobby club ladies have been busy too. The annual Baby Shower for the Bay Area Pregnancy Center was March 14.....so many cute things; our ladies are very generous and the

...continued on page 6

club pitches in an additional \$100 for diapers. We made Valentine cards, birthday cards and on top is a card for Mother's Day. It will be sad to have Irene & Lorraine depart for the summer; they are so talented and so willing to share their card-making skills. Hobby is always open to new members, so if you have an interest in arts and crafts, come join us on Tuesday mornings.

As you are aware the election for Paradise Island Association officers was conducted at the March meeting. It was heart-warming to see so many of you attend for this important function of our Association. The results are: President – Lei Crance; 1st VP – Carolyn Bailey; 2nd VP – Irene Haskell; Treasurer – Terri Jo Oller; Secretary – Pat Walker. Congratulations! It goes without saying that we appreciated the leadership of outgoing President, Richard Crance. No one could question his desire to perform the requirements of the position in an exemplary manner.....and he did it while maintaining his sense of humor and enthusiasm. Something tells me that since he is out of office and has so much free time his golf score may drop a few points and there might be more fish to store in the freezer. Thank you for your service, Mr. President. And if Lei needs any mentoring, advice and counsel is close at hand. Janel, thank you for taking on the task of keeping our Association solvent. I'm sure not many realize how much personal time is required to record and properly track all the financial transactions that occur on an almost daily basis. We appreciate your being willing to step up to the plate when our need was urgent. Great job! Carolyn and Irene switched positions and will continue doing the quality job they have always done. We welcome Terri Jo to the team; with her banking background she will be a great asset. As for me, "secretary" seems to be a major part of my personal identity, and since no one else is eager to do the job, I don't mind doing it..... however, if anyone ever expresses a desire for the job – it's theirs!

Just a word in closing, I know we all get tired of ragging on the dog owners, most of whom are very conscientious about picking up after their pets; however, Tiki Island is once again becoming almost unusable from the debris pets leave behind. Residents enjoy using Tiki for picnics or to just sit and watch the turtles but it has become unpleasant to do so. Please be considerate of your neighbors and pick up after your pets. Thanks! While we are on the subject of pets.....we have a leash law in the park; please do not let your pet run loose, it is for their safety as well as peace of mind for those who enjoy walking.

Exploring the mysteries of an ancient codex

British and Dutch scientists have used high-tech imaging to uncover the secrets of an ancient Mexican manuscript, the eScience News website reports. The manuscript, known as the Codex Seiden, is a strip of deer hide five meters long that's been covered with gesso (a white plaster composed of gypsum and chalk) and folded according to style to make a document 20 pages long.

It dates back to approximately 1560, and was found in what's now known as the Oaxaca region of Mexico. Like other codices from that area and others, the Codex Seiden uses brightly-colored symbols to record history: wars, genealogy, and cultural information.

One intriguing discovery: The high-tech imaging found the image of an individual represented by a glyph of a twisted cord and a flint knife. The man or woman resembles a character found in other codices, and may be an important ancestor of two families connected to other archeological sites in Mexico.

Collision course

A huge space cloud is on a collision course with our galaxy, but don't panic—it's not expected to reach us for another 30 million years. According to NASA's Science Mission Directorate website, Smith's cloud, as it's known, is composed of enough gas to create two million stars the size of our size, and is orbiting the Milky Way at 700,000 mph.

The collision won't have much impact for anyone still around, as the cloud is much smaller than our galaxy, but scientists are watching it closely anyway, seeking explanations for its origin as well as other secrets of the universe.

Big dinosaurs, big eggs, and hatching times

How long did dinosaur eggs take to hatch? Paleontologists know very little about dinosaur embryology, but with CT scanners and high-resolution microscopy, they're finding out more.

The SciNews website reports on a recent find: Non-avian dinosaurs likely took longer to hatch than their feathered counterparts, much as modern reptiles hatch at a later age than today's birds. Scientists looked at the fossilized remains of two dinosaur embryos, looking at the formation of their teeth. Analyzing growth lines, they were able to determine that one dinosaur had died at three months, and the other at six months.

The difference in hatching times may have had an impact on the large dinosaurs' eventual demise. Because they require more food and other resources to live to adult size, larger reptiles were likely more vulnerable than smaller animals (amphibians, birds, and other mammals) to an extinction event.

Did you know that April is also...

ASPCA Month. The American Society for the Prevention of Cruelty to Animals was the first humane society established in North America, and today it's one of the largest in the world. The ASPCA's mission, as stated by founder Henry Bergh in 1866, is "to provide effective means for the prevention of cruelty to animals throughout the United States."

Global Child Nutrition Month. Sponsored by the Global Child Nutrition Foundation, whose mission is to expand opportunities for the world's children to receive adequate nutrition for learning and help them achieve their potential. "We envision a future where school meals sustainably nourish all children and help them, their families, communities, and nations to thrive," reads its vision statement.

National Autism Awareness Month. Launched by the Autism Society nearly a quarter-century ago, this event is a nationwide effort to promote autism awareness, inclusion and self-determination for all, and assure that each person with autism spectrum disorder is provided the opportunity to achieve the highest possible quality of life.

National Kite Month. Every year in April, kite enthusiasts across North America celebrate the history and the future of the world's favorite pastime by letting their kites fly. April was chosen as National Kite Month because as the first month in spring, it's when most kite fliers are starting to bring their kites out of the closet and prepare for warm weather and summer fun.

National Youth Violence Prevention Week, April 3-7. A campaign to raise awareness and educate students, teachers, school administrators, counselors, school resource officers, school staff, parents, and the public on effective ways to prevent or reduce youth violence.

National Robotics Week, April 8-16. The purpose of National Robotics Week is to celebrate the United States as a leader in robotics technology development, educate the public about how robotics technology affects society, advocate for increased funding for robotics technology research and development, and inspire students of all ages to pursue careers in robotics and other science, technology, engineering, and math-related fields.

Animal Care and Control Appreciation Week, April 9-15. A week of appreciation and recognition for the hard-working men and women who risk their lives and devote huge amounts of personal time and resources while serving the public as well as animals in need.

Money Smart Week, April 22-29. Money Smart Week began as a coordinated effort of the Money Smart Advisory Council, a diverse group of more than 40 Chicago-area organizations working together to promote personal financial literacy.

How doctors stay healthy

Doctors are exposed to germs and diseases every day, so how do they avoid getting sick themselves? Follow their rules for staying healthy when surrounded by illness:

- **Wash your hands often.** Use soap and water, and take your time. Try singing “Happy Birthday to You” twice in your head as you wash. Wash your hands before eating, after using the bathroom, and before touching your face and mouth. If washing is inconvenient, use a hand sanitizer.
- **Eat a healthy diet.** A good mix of fruits and vegetables will provide the vitamins your immune system needs to fight off infections early—before they balloon into major health issues.
- **Get sufficient sleep.** Lost sleep can damage your ability to fight off disease. Get seven to nine hours a night to stay healthy and alert.
- **Clean off surfaces.** Wipe down your phone and keyboard often to get rid of germs and bacteria. Wash or sanitize your hands after touching doorknobs or shaking hands. Remember that some viruses and bacteria can live for days on surfaces that haven’t been cleaned.

Be on the lookout for ‘sick building syndrome’

Is your home or workplace making you sick? “Sick building syndrome,” also known as “multiple chemical sensitivity,” is a condition in which people become ill due to prolonged exposure to mold, formaldehyde, or other dangerous substances that can spread through a building’s ventilation system virtually undetected. Everyone should watch for signs that their environment may be hazardous to his or her health. Here are some symptoms:

- Frequent headaches
- Persistent fatigue
- Dizziness and nausea
- Difficulty with concentration
- Problems with memory
- Frequent muscle pain, stiffness, or cramps
- Dry skin or itchiness
- Chest pain or heart palpitations
- Persistent sore throat and/or coughing

Watch for these heart attack symptoms

Heart disease is the leading cause of death for both men and women in the United States. Stay on the lookout for these basic signs of a heart attack:

- Chest pain. The classic signal of a heart attack is an uncomfortable feeling of pressure or squeezing in the chest.
- Jaw or arm pain. This tends to be more common in women, but don't ignore it.
- Heartburn/upset stomach. Don't write off stomach problems as just a minor ailment. Nausea and vomiting can occur during a heart attack.
- Shortness of breath. Again, more common among women, but seek assistance if you're having trouble breathing.
- Dizziness. You may feel lightheaded or on the verge of passing out.
- Sweating. Breaking out in a cold sweat is an additional symptom of a heart attack.

Choosing a doctor? Consider this study

Choosing a doctor is an important decision. Here's one factor to keep in mind: A study by the Harvard School of Public Health has found that patients who are treated by female doctors are less likely to die of the illness they're being treated for, and they're less likely to return to the hospital after discharge.

The study examined records of more than 1.5 million elderly Medicare patients admitted to hospitals for reasons other than surgery from 2011 to 2015. Patients treated by female physicians had a lower 30-day mortality rate than those treated by men, and over the course of four years, approximately 11 percent of patients treated by women died within one month of being hospitalized, compared with slightly more—11.5 percent—of patients treated by men.

Healthy citizens are the greatest asset any country can have.

—Winston S. Churchill

Take these steps to innovation

Innovation is a journey that depends on continuous improvement. Expert James O’Loghlin suggests following these steps to get started:

- Focus on value. Look for inefficiencies in whatever kind of work you do. Challenge assumptions about processes, products, services, and customers. Search for ways to save time or money and increase the value of what your organization does.
- Gather ideas. Brainstorm some possible solutions, and share them with your colleagues. Ask for feedback. Be prepared for criticism, and stay ready to adapt your ideas as necessary, but don’t give in too quickly. Be persistent.
- Present your ideas. Learn how to pitch your innovative ideas without jargon or needless detail. Focus on the story you want to tell—how your idea will help the organization. Anticipate likely questions and objections to show you’ve thought everything through.
- Implement your solution. Be prepared to get to work. Don’t try to do everything yourself; assemble a team to help you with test projects and full implementation.
- Repeat. Follow the same steps for your next project. Once people see your commitment to innovation, they’ll be eager to join in.

Lost in space

Scammers are some of the most creative people around. Finding new and innovative ways of separating fools and their money is what keeps them in business. The famous “Nigerian scam letter” sent by email or fax is perhaps the best known: The sender claims to be a deposed president or king in need of assistance to liberate several million dollars from a foreign bank account. All the recipient has to do is forward some money, and possibly give the sender access to a bank account. The target eventually realizes he or she’s been had, but usually not after losing lots of money.

A new twist on the con game, as reported on the Mother Nature Network website, takes the target into outer space: Victims receive an email from a scientist who claims that in 1989, a Nigerian astronaut went on a mission to a secret Russian space station—and was stranded there when the Soviet Union collapsed. The poor space traveler is still up there, more than 25 years later. He’s been resupplied from the ground all this time, and he’s in good health, but he’d really like to come home. Fortunately, he has back pay coming to him in the amount of about \$15 million dollars. All the target has to do is . . . well, you can probably guess.

No one seems to know if anyone has fallen for this variation of the scam, but it’s certainly a testament to the crooks’ ingenuity—and possibly faith in the gullibility of their victims.

Not Stupid

A boy named Johnny hung out at the local grocery store. The manager noticed that the other boys who hung out in front of the store always teased him, calling him stupid and playing tricks on him.

One of their tricks was to offer Johnny his choice between a shiny nickel and a dusty old dime. Johnny always took the nickel because it was bigger and shinier.

One day the store manager took Johnny off to one side. “Look, son, those boys are making fun of you. They think you don’t know the dime is worth more than the nickel. Don’t you know that?”

“Yeah,” Johnny said, “but if I took the dime, they’d quit doing it!”

Beating the competition

A barber was confident in the knowledge that his was the only barber shop in his small town. One day, though, a new barber shop opened right across the street. A sign out front proclaimed, “EVERYTHING FOR \$10! \$10 haircuts, \$10 perms, everything for \$10.”

Soon all his customers began patronizing the cut-rate shop across the street, and the man’s once profitable business took a nosedive. In desperation, he hired a big-city business consultant, saying to him, “I’m finished. How in the world am I going to compete with that big outfit with all that advertising and with those kind of prices?”

The consultant stood looking at the shop across the street for several minutes. Then he picked up the phone and dialed the town’s only billboard company.

“Yes,” he said, “right on top of our building. In the biggest letters you can find, and do it right away. And make the message read: WE FIX \$10 HAIRCUTS.”

The person who can bring the spirit of laughter into a room is indeed blessed.

—Bennett Cerf

Help for Severe Aortic Stenosis

Severe aortic stenosis is a narrowed aortic heart valve that doesn't open and close properly, reducing blood flow to the rest of the body.

Morton Plant Hospital is now enrolling eligible patients in the Medtronic Evolut R low-risk trial, which investigates the safety and effectiveness of a transcatheter aortic valve replacement (TAVR) system in patients with severe aortic stenosis who are at a low surgical mortality risk. TAVR is a minimally invasive alternative to open-heart surgery used to treat failing aortic heart valves in patients with severe aortic stenosis. Morton Plant Hospital was chosen as the first hospital in Tampa Bay to offer the TAVR procedure for patients with severe aortic stenosis who were at an intermediate or high surgical mortality risk. Our team has completed more than 700 TAVR procedures over the last five years.

To see if you or a loved one with severe aortic stenosis may be eligible for this trial, or for more information on the trial, call the Center for Advanced Valve and Structural Heart Care at Morton Plant Hospital at **(855) 44-VALVE (855-448-2583)** or visit **MortonPlantValveTrial.org**.

Try 'creative procrastination' to find ideas

Time management experts warn about the dangers of procrastination, but some creativity specialists actually encourage it—as long as you do it right.

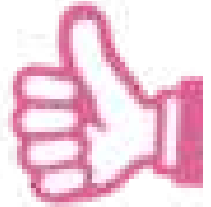

When you're trying to solve a problem or develop something new, don't dive right in. Work on something else while letting your mind work, consciously and unconsciously. Let your ideas mature on their own. Don't be afraid to wait for the last minute. Sometimes the pressure of an imminent deadline can force your mind to generate something exciting and creative that you wouldn't have come up with earlier.

Adjust your outlook for success

Success depends in large part on having the right attitude. You can make an impact with three basic habits:

- Focus on the bright side. Emphasize what you enjoy about your job and the people you work with, and express your enjoyment as much as you can.
- Turn negatives into positives. Don't obsess over obstacles and setbacks. Treat failures as an opportunity to spot mistakes and move forward.
- Move quickly. Don't waste time when you've got a problem to solve or an idea to put into action. A rapid response gets attention and builds excitement.

What goes up . . .

Isaac Newton may have formulated the laws of motion and the theory of gravity, but on the stock market, he was just as fallible as anybody. As reported on the Business Insider website, the famed mathematician owned shares in the South Sea Company, at the time (1720) the hottest stock around. When he got worried that the market was getting out of control, he sold his shares for a 100 percent profit of £7,000.

Smart, right? Unfortunately, a few months later as South Sea's stock continued to skyrocket, Newton went back in and bought up a parcel of stock at a much higher price. He ended up losing £20,000—about \$3 million in today's money. He was so upset that for the rest of his life he insisted no one speak the name "South Sea" in front of him.

VINYL IS FINAL

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word - the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Americans nervous about biometric security

Technologies that can read your fingerprint, recognize your voice, or scan your retina are becoming more reliable, but many of us don't trust them. As reported on the Digital Trends website, a study of more than 1,000 Americans over 18 found that 58 percent prefer standard written passwords to biometric security measures for their smartphones and other devices.

Reasons? Among the survey respondents, 42 percent worried about organizations saving their biometric data, and fewer than 1 in 10 considered the technology to be free of risk. Also, 42 percent expressed concerns that malfunctions would leave them unable to access their accounts.

'Superfoods' will be big in 2017

The most recent "What's Trending in Nutrition" national survey of more than 1,700 dietitians has found that Americans are putting more emphasis on eating healthier foods. Here's a list of the top 10 "superfoods" this year:

- Seeds, like chia and hemp
- Avocado
- Nuts, like almonds and walnuts
- Fermented foods like yogurt
- Ancient grains
- Kale
- Green tea
- Coconut products
- Exotic fruits
- Salmon

Win support and success

You can't please everybody, as the saying goes, but you'll do better on the job—and in your life—by being likable. When co-workers and friends enjoy your conversation and companionship, they'll be more eager to help you achieve your professional and personal goals. You can boost your overall “likability” by focusing on these areas:

- **Listen to people.** No one likes to be ignored. Pay attention when friends and co-workers are talking to show that you're not arrogant and self-centered.
- **Give compliments.** Tell people when you like something they've done. Praise and appreciation are music to everyone's ears.
- **Speak slowly and clearly.** Make sure people can understand what you're trying to say. They'll appreciate your efforts to be understood.
- **Use people's names.** We all like the sound of our own name. Use names often to show that you know and value the person you're talking to.
- **Ask for help.** Most people want to help, and if you ask politely, they'll enjoy knowing that you respect their talents. By the same token, always help others when they ask you for assistance.

Choose the right goal

Most experts emphasize the importance of setting goals if you want to succeed in life. But that raises the question: What's a worthwhile goal? A goal should reflect your values, of course—what you really want to achieve, not what you should want, or what other people think you should do. Whatever goal you pursue, follow this constructive advice:

- **Make it positive.** State your objective in affirmative terms: What you will do (“Eat balanced meals every day”), not what you won't do (“Stop eating chocolate”). Remind yourself of what you want, not what you're denying yourself.
- **Take a step-by-step approach.** Start with the big picture, but then determine what you have to do to get there. Break your plan down to the smallest level of detail; think of what you can do every day to get yourself a little closer to your target. Focus on things you can control: You can't make your book a best-seller, but you can write two pages every day, so concentrate on that.
- **Set your sights high.** Be realistic, but ambitious. There's no glory and small value in accomplishing a goal that doesn't require any effort. Remember that even if you don't reach your objective, what you learn along the way will make you a better person.

Where did the tea bag come from?

The custom of steeping tea in bags came about by accident, according to Cassie Liversidge, author of *Homegrown Tea: An Illustrated Guide to Planting, Harvesting and Blending Teas and Tisanes* (St. Martin's Griffin).

Thomas Sullivan, a tea dealer in New York in the early 20th century, shipped samples of his teas around the world in silk bags made by his wife. They expected customers to remove the tea from the bags for brewing, but many of the recipients believed that they were supposed to brew the tea in the bags. In time, the concept of the tea bag spread around the world. By 2012, more than 65 percent of the tea consumed in the United States was brewed in tea bags.

An inventive smuggler

A cigarette smuggler in Denmark had a problem: He usually brought his illegal goods into the country by boat and unloaded them on the beach, which was generally cold and empty.

But one unseasonably bright, warm day (according to a story on the Knowable website), his boat showed up to find a packed beach—men, women, and children everywhere enjoying the unexpectedly pleasant weather. How to get his goods off the boat?

The clever smuggler went to a production company and rented film equipment—cameras, a director's chair, and everything else. Then he went back to the beach and announced he was shooting a movie about . . . cigarette smugglers. He recruited several young men to be extras in the film.

After the smuggler called out "Action!" the young men unloaded the illegal cigarettes from the boat and put them in a waiting truck. The "director" called, "Cut!" and the trucks drove off as he thanked everyone for their assistance.

Flag day

An American tourist in the Netherlands was chatting with a friend and asked about the meaning of the red, white, and blue stripes in the Dutch flag.

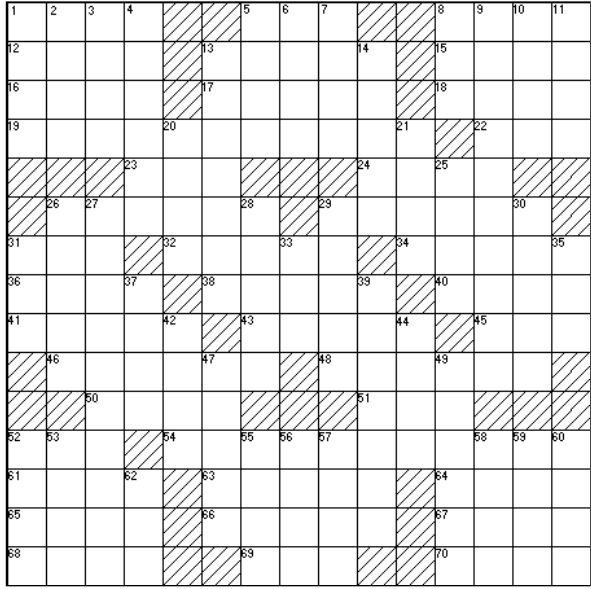

"Our flag symbolizes our taxes," the friend joked. "We get red when we talk about them, white when we get our tax bill, and blue after we pay them."

"That's the same with us," the American said. "Only we see stars, too."

Monthly Mania: It Pays (Up to \$100) To Patronize the Advertisers in Your Newsletter

THOUSANDS manufactured home residents have won over **\$135,000** since our contest began. It's simple to play ... when you patronize a current advertiser, ask for a Monthly Mania ticket (or a reasonable facsimile) and fill it out completely. Put the ticket in our Monthly Mania drop box in your community or **mail your paid receipt** to us at **Monthly Media • 220 Bahama St. • Venice, FL 34285**. That's all you do. At the end of the month the Publishers will pick up the tickets and hold a drawing. If your ticket is drawn, we mail you a check.

(Allow 4-6 weeks for mailing of check). **This month's cash winners are:**
