Multiply Your Monthly Mania!

As you probably already know; patronizing the advertisers in this newsletter also pays YOU with our Monthly Mania Cash Give-a-Way. **We pay out \$400 every month to residents** who submit tickets they have received from using the businesses in the newsletter. Winning is easy, just patronize any advertiser in the newsletter, then submit either the ticket or a paid receipt to us for your chance to win!

2. We will take down your information (name, address, phone number) and enter you into the next month's drawing for over \$400 in cash prizes
3. The more businesses you suggest, the more chances you have to win.
(To qualify each resident can only suggest a business once)

Residents' Club Newsletter and Face Book Page:

Due to the small number of email addresses I have received so far, I have decided not to send out a monthly email newsletter. You can still join our Oak Crest/Acorn Residents' Club Face Book page by just typing the page title into the search line of Face Book and ask to join and I will accept your request. We will continue to post all upcoming events and pictures on that page.

Residents' Club Meetings and Pancake Breakfast:

October 2nd at 10:30 am - Executive Board

October 5th at 7:00 pm - General Meeting

November 7th, 8:30 am - 10:00 am - First Pancake Breakfast

Craft and Yard Sale:

The Craft and Yard sale will be held this year on Saturday, November 21st, 8:00am to 2:00 pm. We will be selling tables to crafters at the price of \$5.00 for a small table, \$7.00 for a large table and \$10.00 per table for non residents. Tables will be sold on a first come basis. All crafters are welcome! This area will be primarily for crafters, but if anyone wants to rent a table to sell their items in the clubhouse to sell, you are more than welcome, but you will be responsible for cleaning up your area after the sale. Coffee and donuts in the morning and hotdogs, chips and soda for lunch will be available for purchase. We will sell balloons again this year for \$3.00 each for a chance to win a certificate for \$100.00 off your rent. Crafters and those who purchase a table inside the clubhouse will be given a free ticket for the drawing. 50/50 raffle and a bake sale will be going on all day. We will need donations again this year for the bake sale. Mark your calendars for November 21st so you won't miss out on this event!

Call for a Volunteer!

Carol has a big problem! Her partner Mona is having back surgery, and is going to be laid up for 3-to-4 months. If anyone wants to come forward and volunteer to help with greeting new residents, just for this 3-4 month period, I'd be eternally grateful. No responsibilities other than to tag along (I'll drive) and go up to the door and ask a few friendly questions, and give them some goodies.

If available, call Carol Scheleur at 600-8407, or drop in at #262, corner of White Oak and Bun Oak. Thanks!

Tie-Down Enhancement Program &

Tie-Down Program

The OakCrest/Acorn community has been chosen for a participation in a no-cost tie-down program. The program involves removing the skirting* (and replacement of same). Inspecting prior installed tie-downs, enhancing prior installed tie-downs and installing tie-downs for those homes without them.

This program is only for units built 1999 and before.

Please come to the office and get your form authorizing this inspection/addition. The tie-down and anchoring system could help minimize damage to the mobile home arising from windstorms, tornadoes or hurricanes.

*skirting: mortared block, vinyl lap siding to the ground, stucco or any other types determined as not easily removable are not eligible for the program

City life? Not for all young adults

The TV sitcom *Friends* depicted a group of young New Yorkers enjoying life in the big city—but in the end, at least two of them chose to move to a house in the suburbs. Young adults in real life appear to be making the same choice (without the laugh track). A survey of more than 1,500 people born since 1977, released by the National Association of Home Builders, found that few of them want to remain in the city for their entire lives.

Sixty-six percent indicated they'd like to live in the suburbs, and 24 percent have their hearts set on a rural residence. Only 10 percent want to live in the center of an urban area. They're mostly looking for space: Eighty-one percent said they want three or more bedrooms wherever they end up living.

Online videos bigger than TV these days

Video has taken over the Internet, especially among the younger generation. A survey of 13- to 24-year-olds by Defy Media found this evidence of the influence of YouTube and other video providers on youthful fans:

- Millennials watch an average of 11.3 hours of free online video a week, and 10.8 hours of subscription video—but only 8.3 hours of scheduled broadcast TV.
- Videos are more popular than online TV content. Seventy-six percent of young people in the survey said they find YouTube more entertaining than TV programs (more popular with 55 percent of participants).
- They're tolerant of advertising on the Internet. Fewer than half—41 percent—said online videos have too many advertisements, but 63 percent feel TV does.

Mathematics is the art of giving the same name to different things.

Get the full impact from these healthful foods

Certain foods have definite health benefits, but you have to eat them the right way to get their full impact. Here are some common foods you might be eating “wrong,” according to the CNN website:

- Flaxseed. Full of fiber and omega-3, these little seeds may improve your heart health—as long as you grind them up first. Sprinkling them whole over your cereal or yogurt will keep their nutrients locked inside.
- Broccoli. Eat this raw or steamed, not cooked, to receive the full dose of vitamin C, chlorophyll, and antioxidants this vegetable offers.
- Strawberries. Slicing this delicious fruit exposes its healthful nutrients to light and oxygen, which can dilute their effects. Eat them whole, or hold off cutting them until the last minute.
- Garlic. The enzyme allicin, found in garlic, may help ward off cancer, but its benefits are more pronounced when it’s exposed to air. Let garlic sit for about 10 minutes after chopping to release this enzyme fully.
- Tomatoes. Fresh tomatoes are tasty, but you’re better off cooking them. The antioxidants in them increase in potency when they’re heated to about 190 degrees Fahrenheit.

Stone tools point to early use by primitive humans

Humans have been using tools for longer than we’ve known. As reported by the journal *Nature*, a team of archeologists in Kenya have found stone tools dating back 3.3 million years, some 700,000 years older than the oldest tools previously discovered.

Before this find, the oldest known stone tools came from sites in Ethiopia and were believed to have been used some 2.6 million years ago. Still, evidence of earlier tool use suggested that humans may have been using stone for longer than that—fossils of animal bones, also in Ethiopia, show signs of cutting some 3.4 million years ago.

The Kenyan tools were dated with an analysis of the sedimentary layer where they were uncovered. Scientists speculate they may have been used to open nuts or fruits with hard surfaces. Weighing in at about 6.6 pounds, the tools are 10 times heavier than any stone tools discovered so far.

Keep relationships healthy over long distances

Ten years ago, some 2.9 percent of all marriages were long-distance relationships. Today that number has grown. Maintaining any kind of relationship takes work; when partners are separated, the effort grows. Keep your relationship steady and solid with these tips:

- Set ground rules. The secret to success in a long-distance relationship is managing expectations. Talk over how you'll handle the separation—who will be responsible for bills, child care, and other household issues. Do this ahead of time so nothing falls through the cracks. Set up a schedule for regular phone calls so you can plan conversations effectively.
- Communicate—but not too much. Regular contact is essential to the health of any marriage, so make a point of getting in touch as often as you need to. Just don't overdo it. If one partner feels crowded or badgered by insistent demands, he or she may back off, making the relationship even more complicated.
- Vary your channels. Don't rely on the telephone alone. Use e-mails and texts to send quick messages without interrupting the other person at work or at an awkward moment. Variety helps strengthen any relationship, so look for different ways to connect.
- Plan positive visits. You'll want to get together with your partner as often as you can. Don't put too much pressure on yourselves to make each visit spectacular, though. Give yourselves time to relax so no one feels personally responsible for the visit's success. You both need some downtime to get used to being with each other again.
- Be flexible. Travel plans can change at a moment's notice. An emergency may delay or interrupt a phone call. Although you're disappointed, do your best to respond positively and patiently when other demands disrupt your planned activities. Getting into a fight over every minor crisis won't keep your relationship strong.

Physical fitness is not only one of the most important keys to a healthy body, it is the basis of dynamic and creative intellectual activity.

—John F. Kennedy

Keeping up with current events

How much do you know about current events? The Pew Research Center News IQ survey examined the knowledge of more than 3,000 U.S. residents in an interactive quiz that asked them to identify a series of photographs, charts, and maps. Here's how the participants measured up when asked to ...

- Identify a photo of Martin Luther King Jr.: 91 Percent
- Identify the country led by Kim Jong-il from a photo (North Korea): 82 percent
- Identify the location of Guantanamo on a map (Cuba): 78 percent
- Name the country the U.S. recently re-established relations with (Cuba): 76 percent
- Identify the proposed route of the Keystone Pipeline on a map: 73 percent
- Identify Malala from a photo (2014 Nobel Prize winner): 93 percent
- Identify Pope Francis's home country on a map (Argentina): 52 percent
- Give the correct number of female Supreme Court justices (three): 33 percent

Have you taken your fish oil today?

Natural dietary supplements are big business in the U.S. As part of the National Health Interview Survey, researchers looked at the use of natural supplements other than vitamins and minerals. Comparing figures from 2002, 2007, and 2012, the trends they found include:

- Fish oil. This was the top product used by adults in 2012, as well as among children (though in 2007, Echinacea was the most popular supplement among children).
- Melatonin. This sleep aid came in second for children in 2012, increasing significantly from 2007.
- Glucosamine/chondroitin. Use of this decreased between 2007 and 2012, along with a drop in the use of Echinacea and garlic.
- Ginseng. This showed another large decline from 2002 to 2007, along with the use of Gingko.
- Green tea and milk thistle. Use of these held steady (though low) between 2007 and 2012.

Monkey see, monkey do, monkey—cook?

Humans and chimpanzees share many genetic traits, and scientists have recently discovered one that may surprise fans of the Cooking Channel and the Food Network: a basic understanding of how to cook food.

Chimps have long exhibited a preference for cooked food over raw. A team from Harvard and Yale decided to see if they could be taught to “cook” food on their own. Observations have shown that chimps are willing to give up something like a slice of raw sweet potato if they expect to receive a cooked one in a short time. To test their hypothesis, the scientists devised a process to mimic cooking (since they didn’t want the apes to use actual heat): two plastic bowls that fit closely together, with a bit of pre-cooked food hidden in the lower bowl.

The scientists would put a piece of raw potato into the bowl, then switch it after a few minutes for the cooked one. After a while, the chimpanzees began doing the same thing—placing a piece of food into the bowl, waiting, then looking for the tastier result.

The researchers believe this shows a basic cognitive ability to understand the cooking process, as well as the patience to carry out—traits that may have driven crucial changes in human evolution.

Follow the right FORM for effective innovation

Innovation may seem spontaneous, but it generally succeeds because the groundwork has been methodically laid ahead of time. To spark creative thinking in your organization, follow consultant Charles Day’s acronym FORM:

F: Focus. Start by deciding what’s important to your team and organization. What were you created to achieve? Identify the key goals of your vision so you have something to work toward.

O: Organization. Decide on a structure for developing and implementing ideas. Who is responsible for specific tasks? What jobs should be shared? How will you make decisions?

R: Resources. Gather what you’ll need to implement your plans. This includes not just tools and materials, but people. Identify the types of talents you’ll need to bring an idea to reality.

M: Measurement. Look to the end as you begin. Determine how you’ll know whether you’ve succeeded or failed. Goals should be specific and clear to everyone, and they must be relevant to your organization’s vision.

September Is...

Baby Safety Month. Drowning, falls, chemicals, and other hazards can endanger the life and health of any small child. During September, take a good look around your house and eliminate any threats to babies' safety that might be hiding in plain sight.

Library Card Sign-Up Month. A time to remind parents and children that a library card is the most important school supply of all. If you don't already have a library card, get one in September; if you do, visit your local library and use it.

National Bourbon Heritage Month. A celebration of bourbon as America's "Native Spirit." The U.S. Senate declared September National Bourbon Heritage Month in 2007, calling on those who enjoy bourbon to do so responsibly and in moderation.

National Campus Safety Awareness Month. College campuses are not immune to destructive behaviors and violence due to high-risk drinking, drug abuse, sexual assault, fire safety, and more. As your kids head to college this month, talk to them about safety and investigate the resources their school offers.

Week to Week

National Suicide Prevention Week, Sept. 8-14. An annual campaign to inform and engage health professionals and the general public about suicide prevention and warning signs of suicide. Awareness events are held throughout the week around World Suicide Prevention Day, Sept. 10.

National Truck Driver Appreciation Week, Sept. 13-19. Sponsored by the American Trucking Associations, a federation of state associations, affiliated conferences, and individual members committed to developing and advocating policies that promote highway safety, security, environmental sustainability, and profitability.

Pollution Prevention Week, Sept. 21-27. The best way to protect the earth and its people is to stop creating pollution in the first place. Less waste and pollution means fewer hazards to public health and the environment. Pollution Prevention Week highlights the efforts of the EPA, its state partners, industry, and the public in preventing pollution right from the start.

Banned Books Week, Sept. 27-Oct. 3. Sponsored by the American Library Association to promote the importance of ensuring the availability of books to all who wish to read them.
