Homeowners of Oak Crest / Acorn Residents, Inc.

Diane Rice, President, Lot 636, 828-230-7249

August is here and with it comes high temperatures. Please keep in mind safety if you are going to do any outside chores. Stay hydrated, rest often, and try to do them early in the morning before the day gets too hot. Know the symptoms of heat stroke and what to do.

A reminder we are still in hurricane season. We saw the formation of Barry in the gulf in July. Have a plan, have supplies to last 5 days, know your evacuation route, stay in touch with relatives, and stay safe.

Let's be good neighbors and check on our older residents to make sure they are ok. Follow all park and pool rules to ensure everyone is safe and enjoying their time with us.

There is no HOA meeting this month.

Just a reminder, please DO NOT feed the wild animals.

Oak Crest / Acorn Residents' Club, Inc.

Annette Watts, President, Lot 504, 843-457-9599

Hope everyone had a fantastic 4th of July. Summer is going by so fast. We all had a great time at our 4th of July celebration Sunday. I would like to thank Chuck Watts for helping with the shopping, music, and all the misc. things you helped with. I would also like to thank Liz Bierfelt, Kathy Brady, and Sharon Manship for selling the tickets, decorating, prep work, serving and cleaning up. Thank you also to Dave Brown for grilling the hot dogs, cleaning up, and taking all the pictures. Thank you, Moe Masry, for helping with the music and volunteering to help us with the music in the upcoming months. Also want to thank Kat for the beautiful cake she made for us. We appreciate everyone's support and helpfulness at all our events.

We would like to welcome all the new residents to the Oak Crest family. There are lots of activities and events you can join. Check the calendar in the middle of the book. There will be more activities that start back up in the fall. Our first event for the new season will be the Halloween Party in October. Lots of time to think of a costume.

Hey, bartender

A duck walks into a bar and asks, “Got any grapes?”

The bartender says no, and the duck thanks him and leaves.

The next day the duck returns to the bar and asks, “Hey, got any grapes?”

The bartender says, “No. We don’t serve grapes here.”

The duck thanks him and leaves, only to return the next day. The bartender sees him walking through the door and says, “Look buddy, I’m not sure why you keep coming in here. We don’t have any grapes, never did, and never will, and if you ask me about grapes one more time, I’m going to nail your beak to the bar.”

The duck is quiet for a few moments, and then asks, “You got any nails?”

“No,” the bartender replies.

“OK,” the duck says. “Got any grapes?”

Know the difference

A guide took a group of people for a hike in the woods. They soon encountered a snake on their path. One of the hikers said to the guide, “Look there’s a snake. Do you think it’s poisonous?”

The guide looked over at the snake and replied, “No. That snake isn’t poisonous.”

Upon hearing this, the hiker walked closer to the snake to take a picture of it. The snake bit the hiker and slithered away. The hiker fell to the ground and began to moan in pain as the others in the group came to his aid.

“I thought you said that snake wasn’t poisonous,” someone said to the guide.

“That snake wasn’t poisonous,” the guide replied. “Poison is ingested or absorbed. That snake was venomous. Venom is injected.”

Skepticism about electric cars

Are you ready for self-driving cars? How about vehicles powered by electricity, not gasoline? The AAA took a look at public sentiment about both possible transportation futures.

As the Green Car Reports website reports, 50% of survey participants said they expect most cars will drive themselves by 2029, but only 40% thought most vehicles will be electric by that year.

AAA explains the lower figure for electric cars by citing other survey results indicating that 59% of drivers aren't sure that their range on the highway and in the city is as good or better than that of gas-powered vehicles, although Green Car Reports says that EVs are more efficient and have more range in the city. Consumers said gasoline would have to reach \$5 gallon before they'd consider buying an electric car.

Parents risk retirement to help kids

Most parents want to help their children financially when they're just starting out, but the costs can be substantial: A Bankrate survey found that many U.S. parents are risking their retirement savings to support their children as they begin their careers.

Asked, "Would you say you have sacrificed/are sacrificing your own retirement savings in order to help your adult children?" 17% of respondents answered, "Yes, a lot," and 34% answered, "Yes, somewhat." On the other hand, 41 percent responded, "No, not at all." (For 9%, the questions didn't apply because they hadn't started or aren't saving money for retirement.)

At what age should parents stop footing their kids' bills? Here's what they said:

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word – the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Know the two types of creative thought

Creativity comes in two types of thinking—divergent and convergent. You’ll get more out of your brain by recognizing the two so you can deploy them appropriately. Here’s how the London Business School website defines both:

Divergent thinking

Imagining
Creating
Challenging
Dreaming

Convergent thinking

Testing
Judging
Deciding
Evaluating

Use divergent thinking for generating ideas; practice convergent thinking to implement them.

Get back into the creative habit

All of us are born with creative minds, but some of us lose the habit. The Entrepreneur magazine website offers these tips for getting your creative mojo back:

- **Practice mindful observation.** You look, but do you really see? Make a practice of observing and appreciating the details of your surroundings. You may see, hear, smell, or feel things you never noticed before, which can give you new ideas and insights.
- **Rev up your curiosity.** Make a point of asking questions about everything you see and do, even if you think you already know the answers. Exploring situations more deeply can yield fresh insights into everyday problems.
- **Free your mind.** Forget limitations. When you brainstorm, think beyond boundaries and the conventional wisdom. Don’t accept the tried and true—instead, teach yourself to look at what seems impossible. You could find a way to make the impossible come true.
- **Practice being creative.** Don’t wait until a problem erupts to flex your creative muscles. Your mind will be in better shape if you look for opportunities to be creative every day. Set yourself a small problem, and spend a few minutes thinking of new and different ways to solve it. You’ll be ready when you really need a spark of inspiration.

A creative man is motivated by the desire to achieve, not by the desire to beat others.
—Ayn Rand
