Homeowners of Oak Crest / Acorn Residents, Inc.

Rick Judkins, President, Lot 437, 603-986-4921

As was mentioned at our Homeowners membership meeting on January 22, our board postponed the annual election. This was prompted by circumstances beyond our control. By the time you read this, the election will have taken place at the February 26 meeting.

Additionally, we wanted to take this opportunity to clarify the purpose of the Homeowners Board. Our organization is a “for profit” corporation as recognized in the State of Florida and our main purpose is to act upon the “right of first refusal” should park ownership ever decide to sell the property on which we all reside. Secondly, the Board attends an annual meeting with park management/ownership in the spring to negotiate proposed rent increases. Additionally, we serve as a liaison between homeowners and park management to help get issues resolved when the homeowner is unable or not satisfied with a park management decision.

If you have not, please pay your annual assessment fee.

From the Homeowners board to the Tope family, please except our sympathy and prayers. Donna will be missed by all.

Per Article II of the By-Laws of the HOA, all owners are members and are to pay a \$10.00 annual fee as a part of ownership. If your home number appears below, we thank you for having already paid the 2018 fee. If it doesn't show, you can drop off \$10.00 at Lot 291 (Ed Hahn, treasurer). Ed is also willing to come pick up the fee from you, just give him a call at 727-519-3033:

VINYL IS FINAL

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Of course I won't need to say a word – the house is doing all the talking! Thank you so much for my beautiful new house."

Carol Zapiecki, Clearwater, FL

"Just a short note to express my appreciation for the work done on my mobile home. The crews that worked here...were gentlemen at all times, efficient, knowledgeable and prompt. You can be sure if I run into anybody who needs your type of work, I will surely recommend your company. It has been a very satisfying experience!"

Coffee may cut risk of death, studies say

Starting the day with a cup of coffee helps many of us wake up. New evidence suggests it may help us live a longer life, too.

In one study written up in the journal *Annals of Internal Medicine*, researchers at the University of Southern California's Keck School of Medicine surveyed more than 185,000 Americans for 16 years. Their results: People who drank one cup of java a day were 12 percent less likely to die than those who didn't, and people who drank two to three cups were less likely to die by 18 percent—regardless of whether the coffee was caffeinated or not.

In another study reported in the same journal, researchers analyzed data from more than half a million people across Europe, and found that higher levels of coffee drinking were associated with a decrease in the risk of death from many causes, including circulatory and digestive tract diseases.

So enjoy your cup of coffee. It may add years to your life.

Keep your muscles strong at any age

As we grow older, we often lose muscle mass. Muscle mass decline typically starts in the 40s but increases after age 50. One study of about 200 men and women ages 64-93 found that it affected 22.6 percent of the women and 26.8 percent of the men.

Take these steps to keep your muscles intact:

- **Strength training.** Lifting weights has been shown to increase muscle mass and may even reverse the most debilitating effects of muscle loss.
- **Aerobic exercise.** Healthy muscle tissue needs capillaries to infuse it with blood. Regular exercise, like a brisk half-hour walk every day, can provide this.
- **Protein.** Inadequate protein in the diet, or difficulties digesting and absorbing protein, may be a factor in susceptibility to lost muscle mass. Older adults may need to increase their consumption of protein to maintain their lean body mass.

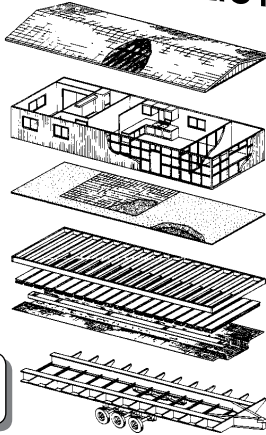

Facts are stubborn, but statistics are more pliable.
