"Thank you for doing a very professional job on my roof. I am not easily pleased with most contractors, ASC is the exception! Your crew was on time, sometimes even early. There are no leaks and it looks great. ASC was not the cheapest, which proves you get what you pay for."

President's Corner

Art Swagler

I have only been in office for two weeks as I prepare this note. So, this will be short. I have several items I'd like to discuss. There are tenant owners and shareholders but we all live together under the "Pointe West Banner". I'm going to try and keep this in mind when the ROC board acts. We will consider how our actions effect the entire park.

Several committees have been formed to assist me with my duties. Check the ROC bulletin board for the different committees. If you have a question or concern, contact that committee member in charge of your specific concern. They should be able to answer your question or find the answer.

The only way we are going to get along is to communicate! If there is something you'd like to see on the month's agenda; please write your request and give it to a ROC board member. We will provide you with an answer. It may not be the answer you want, but we'll give it to you in writing. This is a business and the ROC board will not take things personally.

I'm looking forward to a very challenging year. Hopefully we can continue in a very positive manner.

Let's continue the good life here at "Pointe West"!

Art Swagler

Can Recycling

Doris Myers

Please remember to bring your rinsed and drained aluminum cans to 3-I. Rinse them and remove tabs, if possible. Turn them in separately. Tabs are given to Ronald McDonald House. Do not leave in Blue Bin. That's for recycling.

Drop off at 3-I. All monies are donated to REC Association for funding of various activities. Thank you to all who help.

Exercise, Exercise To Stay Fit

Donna Schulz

Pat Gilfillan

All residents are welcome to join in playing indoor shuffleboard. All meet at 6:30 on the second and fourth Monday's of the month. March 28 games will follow the rescheduled REC General meeting starting at 6:30. There's a 2 loss elimination, then you get your ice cream treat. Any questions?? Contact Pat Gilfillan, coordinator.

Ladies' Luncheon

Phyllis Slater and Melanie Pangburn

March's ladies' luncheon will be a Style Show in our clubhouse. Sign-up for lunch is in Activity Room #1 for food donations; of salad, dessert or sandwiches to share. Please bring your own table service. Our fashion show will follow immediately. Our Pointe West models will be wearing various outfits from Bon Worth's, located in Largo Mall. Come and enjoy an afternoon of socializing and seeing new fashions.

Bidding Farewell: Pointe West Family

The time has come to begin our next phase of life. Our decision was made with excitement and sadness. Twenty-seven years ago we decided to retire and move to Florida to escape the family. Now our coach has been sold and we're living at Brookdale Pinecrest, 1150 8th Avenue SW, Largo. It's very close by so we're planning on staying in touch. Our wish is to thank all of you for your love and support. We're wishing you all the best. Continue to enjoy each other and your life.

Love and prayers,
Bob and Arlene Bell

Ronald Fagan (2-N) passed away after recent month's poor health. His memorial check and sympathy card was sent to daughter, Leah and companion, Susan Glowacki. May he now rest in peace.

Marjorie Wulff (21-F) received a sympathy card after her son, Paul died from injuries suffered in motorcycle accident some months ago. He lived in Florida. Margie's daughter from Ohio was here for services.

Long time resident, Ray Cunningham (4-B) passed away. His wife, Pat was sent our sympathy and a memorial check. Their daughter was here supporting Pat and attending his service. May he now be at peace.

Please keep all residents who are experiencing illness or loss in your prayers. If anyone needs a card, please notify Jane McHugh at 14-H. We wish to give all our prayerful support.

Going the store? Why leave the house?

Shopping online has exploded in recent years. One example: A survey conducted by 72 Point Inc. and commissioned by Door to Door Organics, an online organic grocer, found that shoppers increased their online grocery purchases by an average of 29 percent in the past year, and those shoppers do about 19 percent of their weekly grocery shopping via the Internet.

Extra sleep may not lead to longer life

Most of us look forward to sleeping late on the weekend. After a hard week of work, we deserve a few extra hours, right? But a study from the Journal of Clinical Endocrinology & Metabolism suggests that sleeping in may contribute to a higher risk of diabetes and heart disease.

Researchers tracked more than men and women age 30-54, using devices that recorded their movement to determine when they fell asleep and woke up for a one-week period. Close to 85 percent went to bed later and got up later on their days off from work, and those people tended to experience lower levels of HDL cholesterol (the good kind) along with higher triglycerides, greater resistance to insulin, and a higher body mass index, even after controlling for factors like physical activity, calorie consumption, and alcohol use.

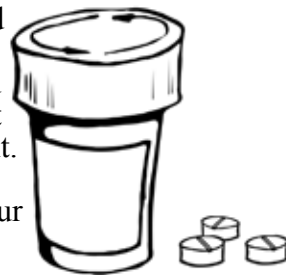

The implications are clear: Maintaining a consistent sleep schedule, even on weekends, is better for everyone's long-term health.

Aspirin prevents skin cancer?

Aspirin is known to cure our aches and pains and improve heart health. It may also be useful in preventing certain kinds of skin cancer, according to an article on the Discover magazine website.

Non-steroidal anti-inflammatory drugs (NSAIDs) like aspirin and ibuprofen are already known to help prevent cancers in the colon, lungs, prostate, and breasts. A meta-analysis of studies, some previously unavailable to researchers, turned up evidence that non-aspirin NSAIDs can reduce the risk of developing squamous cell carcinoma by 15 percent, and that when aspirin is added to the mix, the risk drops to 18 percent. NSAIDs are known to inhibit COX-2, an enzyme produced by skin cells in response to ultraviolet light.

Talk to your dermatologist about aspirin, and otherwise limit your exposure to UV light to stay safe from skin cancer all year round.

Huge exoplanets not as plentiful as thought

Astronomers have discovered more than 100 giant exoplanets orbiting distant stars, but some are now saying that many of those huge worlds aren't planets at all.

According to the website of the American Association for the Advancement of Science (AAAS), scientists analyzed the findings of the Kepler Space Telescope, which identifies exoplanets by scanning stars for long stretches of time in search of changes in their brightness. These changes suggest the presence of planets or other objects temporarily causing their light to dip.

Instead of monitoring brightness, a second group of scientists looked for signs of movement in the stars as planets circled them. The differences in the slight movements between planets and other objects has led the team to conclude that as many as 55 percent of “exoplanets” have been misidentified. More likely, they’re stars themselves—possibly brown dwarfs, a type of failed star, sharing an orbit with a larger sun.

Science is a way of talking about the universe in words that bind it to a common reality. Magic is a method of talking to the universe in words that it cannot ignore. The two are rarely compatible.

—Neil Gaiman

You can't get out what you don't put in

Motivational speaker Zig Ziglar likes to tell the story of his friend, Walter Hailey. Although he became a star salesman, Hailey's early career as an insurance salesman was rough. He endured frustration, anxiety, slammed doors, low sales figures, and uncertainty about his future.

One day he grew so discouraged that he went to his boss and told him that he was going to quit. His boss's response? “You can't.”

Hailey repeated that he was quitting. The manager repeated, “You can't.”

Angry now, Hailey shouted, “Yes, I can!”

His manager replied, “Walter, you can't get out of the insurance business because you have never really gotten into the insurance business.”

The words hit Hailey like a ton of bricks. For the first time in his life he realized that you can't get something out of an endeavor if you never put anything into it. Or as Ziglar puts it, “There are many people who ‘join’ a sales organization but never get into the business of selling.”

"...I am so happy with my new windows...I'd like to commend your work crew. Earbie and Larry were fantastic! I couldn't believe the clean-up EVERYDAY! The whole job took just a week even with all the rain delays. I would and WILL highly recommend your company to my friends and neighbors. Keep the speed up when you walk

A brisk walk is good for your health, especially as you grow older. A study reported on the LiveScience website found that older adults who maintain a speed of 3 miles per hour when they walk have a 50 percent lower risk of heart disease than people with a pace of two miles per hour or slower. And folks who walk an average of seven blocks a day have a 47 percent lower chance of developing heart disease than those whose walks add up to just five blocks a day or less. So put your shoes on and get walking.

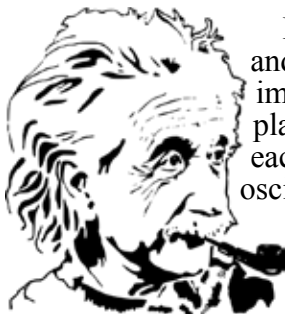

Help your brain stay healthy

Feeding and stimulating your brain well can keep it healthy throughout your life. The American Academy of Family Physicians offers these tips for keeping your mind in tip-top shape:

- Eat a healthy diet. Choose nutritious foods like antioxidant-rich vegetables, fruits, and whole grains, and omega-3 fatty acids, and cut out saturated fats. Avoid fad diets that offer only short-term results.
- Watch your weight. Maintain a healthy weight and pay attention to your blood pressure, cholesterol, and blood sugar, which are all associated with an increased risk of dementia.
- Exercise your brain. Keep learning new things all the time. Puzzles and games that stretch your mind can help you maintain good brain health. So can staying active socially, so keep up your friendships and strive to meet new people.

Mission to gravity: Space probe searches for waves

A European space probe will try to confirm a theory about gravity developed by Albert Einstein, according to the Reuters website. Launched late last year, the LISA (Laser Interferometer Space Antenna) Pathfinder will assume an orbit between the Earth and our sun, collecting data about gravity waves.

Einstein predicted the existence of ripples of gravity that bend space and time some 100 years ago, but finding those ripples on Earth has been impossible. The space-based experiment will monitor two cubes of a gold-platinum alloy to determine whether they maintain their distance from each other in free fall. The results will allow scientists to observe minute oscillations caused by gravity waves.
