A hhhh the end of summer approaches as September arrives. This summer has been unseasonably hot and humid, and the electricity bills are reflecting that right now. The humm of air conditioning systems running fills the air around here. It has been very very hot. Feel like temps in the 102-107 range and that is almost every day it seems. The pool has been busy, but the water is also very warm and feels like bath water, but is still refreshing. The clubhouse remodeling is still in progress, as it was supposed to be unavailable for 3 weeks, but when they got into it, they found unexpected items that has extended it a bit longer. It is unknown when we will be able to use it again, but hopefully by the time this is published our remodeling will be completed and our activities can resume. We are not even having Koffee Klatch on Saturday mornings. We are planning a Labor Day Party and hope all will be done by the 5th of September, if the building is not available then we will have it around the pool area. Go with the flow I always say. It has been a busy month for my family as I have had visitors for the entire month, almost. Mike and I's son, Jeff visited for about 10 days and then my grandson (Jay's boy) spent a couple weeks with us before heading back to IU in Indiana for his Junior year of college. It was great to see him again, and for Jeff to spend some time with us. I cooked up a storm, and no leftovers were in sight. So all must have enjoyed their visits. The kiddies are back in school, and my grand daughter Najayah continues to feel great and is doing extremely well with her pacemaker doing it's job and keeping her from having any more "spells" which I thank God every day for this blessing. Believe it or not, I am already in my "Christmas Crafting Mode" and working on this year's ideas. I got an early start this year, but that is great, cause I never get done. I plan it all out, and begin my projects, complete them BUT then I see a new craft I have to do, or a new cookie or candy recipe I have to try, so I keep on doing until the last minute, but this is what I love to do and with my arthritis, who knows how much longer I can continue this, so I am gonna keep on doing until I just can't anymore. I am, however, going to teach my niece and other family members how I make this and that, so it can be continued on with the family.

From the Editor

We had a tropical storm system stall over the area in August and we had lots and lots of rain pour down on us. It was a nice break from the heat, but the rain went on for several days and was rather boring but we needed the moisture. But many areas flooded around us, but nothing here in the park to worry over. New Port Richey was flooded pretty badly according to the news.

So what is happening this month of September? Labor Day is the 5th of September where we celebrate the labors of our Working Americans. We are having a nice dinner and get

together on that day. Watch for sign up and information. September 11th is Patriot's Day and Grandparent's Day. September 22nd is Fall Equinox Day. That's all that is highlighted on the calendar for this month.

I am cutting my "article" short this month, as Larry has a long one and Diana McNiven also sent me some cute articles to incorporate. Remember we are still in hurricane season, and be prepared to get in "storm mode" quickly if the forecast requires it. This lasts until end of October so, be a good scout and "be prepared". Watch out for your neighbors, keep them in your thoughts and check on them, help in any way you can and always try to pay it forward.

I mentioned last month that we are still having illness issues with our Riviera family, and I want to take the time to thank all who said prayers for our friends. Gord Keir had surgery last month for an aneurysm of the aorta and is recovering well from what I understand, but keep him in your prayers for total recovery. Bob Merzendorf had a tumor that was benign thank God, and Karen is also still having issues with her health, but was able to thoroughly enjoy her grandson and daughter's visit. My neighbor, Karen Rockefeller in #88 has her mother living with her and she has been declining for some time. She is now home from the hospital under hospice care, and please remember her and her family in your prayers. She is elderly and her heart is just worn out from what I understand. So keep these residents in your prayers. Prayer does work, as we all have seen.

Take care, have a great month, and we will see you northerners soon!

Is it Really their fault?

Last month I discussed item 1. In the first chapter of The Master Key System by Charles Haanel and this month I am addressing item 2 in reference to why people are starving and poverty is the norm in some Countries.

1. That much gathers more is true on every plane of existence and that loss leads to greater loss is equally true.

2. Mind is creative, and conditions, environment and all experiences in life are the result of our habitual or predominant mental attitude.

The first question is who are the "they" that I am referring to? In last month's article I referred to the people that live in parts of the world that ignorance, poverty, and starvation exists and that they bring that upon themselves. That sounds like such a heartless stance to take but I am only discussing those facts for the purpose of enlightenment. Keep in mind number 2 all experiences are the result of our Habitual or Predominant mental attitude (thoughts).

So... we'll start with me. I grew up believing certain things that I was taught, either by

BILL The CARPET GUY 727-521-4163

formal instruction or observations on the world around me. Every thought I had was a result of what I believed, and most of what I truly believed was instilled in me the first 6 or 7 years of my life. Things I heard my parents and the neighbors say, things I saw my parents, and other adults do all shaped my perspective of the world and I perceived all of that as the absolute truth. My thoughts were based on that and therefore my actions we based on that (what I believed to be true). Guess what? Many of the decisions I made and the actions I took were NOT the best choices because I was reacting out of false beliefs.

Believe it or not but most of what YOU believe and what YOUR model of the world is was learned the first 6 or 7 years of Your life also. If you ponder that long enough you may come to the conclusion that you don't even know why you believe some of the things you believe.

In the Bible there are multiple references to "The sons will suffer the sins of the father" and Buddhists verses refer to the same thing although it is not worded the same way. Everyone says "that's not fair" and they are right. It is not fair but the Laws of Nature do not change because of what Humans think is fair and unfair. I suffered the sins of my father because I thought and acted like him. It is a simple as that. You reap what you sow. We sow the seeds we are taught to sow (seeds being thought patterns and actions) by the environment we grew up in. We can only change the way we think or the way we act if we question the validity of our own beliefs. Once questioned we need to search for the truth and that turns out be a real challenge.

Now back to the people that are suffering so much. They were, and are, in most cases raised in conditions that doesn't foster freedom of thought, choice of place in society, or belief that they have any power over their lot in life. Some of these folks are the 3rd or 4th generation in the same circumstances therefore It is impossible for them to imagine a better life. Some may say they can but deep inside they really don't believe it and as a result they cannot change. They, as do you and I, think and act according to our beliefs. Occasionally you hear of someone from places like that breaking out of that mold and doing good or great things but those instances are few and far between.

The governing bodies of those Countries are largely responsible of the deplorable state that their economy is in. Plus the tribal concept that leads to genocide is one of deep rooted ignorance that only contributes more to the fears and belief that change is futile of the people of those Countries. Those people simply believe there is nothing they can do, therefore there is nothing they can do. That bring to mind the saying "Think you can or think you can't, either way you are right".

There is one more component of this subject that needs to be brought to light. Group "thought" can and does affect the outcome of events. This has been proven in scientific experiments in various ways on smaller scale tests. In effect, if you have the majority of the people believing they will remain in poverty, there will be food shortages, they will be oppressed by their government the Laws of Nature will bring about events that make it so. It is sad and unfair but nature doesn't respond to those things, it responds to beliefs.

Those people are suffering the sins of those that went before them by believing that what

they were taught is the truth. They are preventing changes from taking place because they continue to think the same thoughts. It is unfair from our perspective but... they bring it upon themselves.

If they could personal discover and believe in the Laws of nature they could change things. Next month I'll present something of a lighter nature for reading.

It is often said "The truth can set you free"... unless you are a Politician, then the truth may get you jail time.

- Back in the olden days, life used to be swell, but when's the last time anything was swell? Swell has gone the way of beehives, pageboys and the D.A.; of spats, knickers, fedoras, poodle skirts, saddle shoes and pedal pushers. Oh, my aching back. Kilroy was here, but he isn't anymore.
- We wake up from what surely has been just a short nap, and before we can say, well I'll be a monkey's uncle! or, This is a fine kettle of fish! we discover that the words we grew up with, the words that seemed omnipresent, as oxygen, have vanished with scarcely a notice from our tongues and our pens and our keyboards.
- Poof, go the words of our youth, the words we've left behind we blink, and they're gone. Where have all those phrases gone?
- Long gone: Pshaw, The milkman did it. Hey! It's your nickel.
- Don't forget to pull the chain. Knee high to a grasshopper.
- Well, Fiddlesticks! Going like sixty. I'll see you in the funny papers. Don't take any wooden nickels.
- It turns out there are more of these lost words and expressions than Carter has liver pills. This can be disturbing stuff !

We of a certain age have been blessed to live in changeable times. For a child each new word is like a shiny toy, a toy that has no age. We at the other end of the chronological arc have the advantage of remembering there are words that once did not exist and there were words that once strutted their hour upon the earthly stage and now are heard no more, except in our collective memory. It's one of the greatest advantages of aging.

ACTIVITIES AND REMINDERS POOL AND PET OWNER REMINDERS

FYI: Riviera Estates MHP would like to remind our residents that **NO one is allowed to touch the temperature settings on the pool heater and/or the clubhouse air conditioner.** Our manager and the Homeowner's Association Executive Board have insisted on this. Pool hours are 9:00 a.m. until dusk daily. Pool is heated in winter, the months of November through March.

Please remember when leaving the pool, to **CLOSE DOWN THE UMBRELLAS**, pick up your trash and close the gates. If you are going by the pool, and see the umbrellas are open, please go in and close them. A wind gust can pick them right up and they become a missile and could damage or injure, along with the umbrella itself getting damaged. Treat our community pool as if it were your own. Thank you.

ATTENTION PET OWNERS: Please be a responsible pet owner and a **RESPECTIBLE** pet owner as well. When walking your pets, please do not allow them to "potty" in other people's yards. Some are not pet lovers as we are.

Your dogs must be leashed at all times, and there are plenty of areas where your dog can go. There is a pet cleanup station in the storage field for your use.

Please be sure to **clean up** after your pet. Also, please try to keep your pet from barking or making loud disturbing noise that can bother a neighbor.

Complaints are being received by the office on a constant basis of pet problems in the park. So, at this time, our pet rule policy should be noted. Pets are allowed in park, **UP TO 20 POUNDS** weight restriction. Copies of pet inoculation certificate must be given to the office as proof the pet has been vaccinated. There is a **LIMIT OF TWO PETS PER COACH**. Fences for the pets are not allowed to be installed. All pets must be leashed at all times when outside the coach. Make certain when you leave your pet, they are not barking the entire time you are gone and bothering your neighbors. If this is the case, please make some type of arrangements that will alter this situation, such as a pet sitter, taking pet with you, or if the problem continues, and complaints continue in the office from residents being bothered by the barking, the park is forced to take steps in resolving the issue, such as requiring you to get rid of the dog, or face eviction procedures. Please be a responsible pet owner and obey the rules concerning them. It is **IMPERATIVE THAT YOU CLEAN UP AFTER YOUR PET EVERYWHERE, INCLUDING THE DOG WALKING AREA**. Please do not ignore these pet owner rules, so that we all can continue to love and enjoy our pets. But at all times we must be respectful of all the residents that live here, that they are not bothered by our pets in any way. Not by hearing them all the time, or stepping in their waste when out walking etc. Thank you for adherence to the policies and rules.

Activities and Department Reports

All activities with the exception of Koffee Klatch on Saturday mornings are suspended until the fall when the northerners return.

Good Neighbors Club: Good Neighbor's Club Meetings are held the 2nd Thursday of the month for the membership. Our next meeting will be on November 10th, at 9:30 a.m. Contact Claudette Lusignan at 223-5228 or email the Good Neighbors executive board with questions, suggestions, etc at gnclubre@gmail.com. We also have a new website, where event calendar is posted and pictures etc. It is www.rivieraestates-goodneighbors.com, Please check it out.

Labor Day Party: Our next and last "summer party" will be the Labor Day Party that is scheduled on Monday, September 5th. We are in the planning stages of this event and therefore I have no definite information for you, other than to keep your eyes peeled for information on the bulletin boards in the clubhouse and the outside bulletin board next to the pool. All information will be displayed in this area with sign up sheets inside the clubhouse on the bulletin board. This will be a big party, where we will depend on the sign up sheet for the number of people we will be feeding. So please be looking for additional information as you don't want to miss this one and we will be cutting off the sign up time so we can plan the meal and make sure we have enough food for all who want to attend. You will not be able to come that day and plan on attending if you have not signed up. So, you do not want to miss this one, and keep looking for the information. Thank you.

No other activities or reports submitted.

The cephalopods are coming

Don't look now, but cephalopods are on the rise. A team of scientists have determined that cephalopods—sea-dwellers including mollusks, squid, cuttlefish, and octopuses—are increasing their numbers below the waves.

As reported on the Sci-News website, scientists at the University of Adelaide created a database of catch rates for 35 species of cephalopods from 1953 to 2013. They found that cephalopod populations have increased across three distinct groups since the 1950s.

The sea creatures are able to adapt to environmental changes quickly due to their short lifespans, rapid growth, and life-history plasticity. Their growing numbers could have both positive and negative effects: increased pressure on the undersea species they hunt for prey, but also benefits for marine predators who in turn hunt them, as well as humans who harvest them from the sea for food.

Chinese brewed beer in ancient times

Crafts beers are thriving these days, but beer has been around for a long time, scientists say. Researchers in the United States and China have revealed that the Chinese brewed their own beer some 5,000 years ago, much earlier than previously believed.

As reported on the Voice of America website, archaeologists have uncovered brewing equipment in underground rooms in China's central plain region. Traces of ingredients found on the equipment suggests that the ancient brewmasters used a recipe of broomcorn millet, barley, a grain called Job's tears or Chinese pearl barley, and a form of tuber to brew their beverage. The presence of barley 1,000 years before it was believed to have been grown in China suggests that it might have been brought in from other regions, making beer an ingredient in early trade.

Researchers describe the possible taste of the beer as “a bit sour and a bit sweet.”

Science is most significant as one of the greatest spiritual adventures that man has yet known.

—Karl Popper

The three kick rule

A lawyer went duck hunting in rural Tennessee. He shot a bird that fell into a farmer's field. As he went to retrieve the duck, the farmer walked up.

“That duck is on my land,” the farmer said. “So it belongs to me.”

“But I shot it,” the lawyer said. “If you don’t let me have it, I’ll sue you for your farm and everything you have.”

The farmer smiled. “Tell you what: How about we settle this with the three kick rule?”

“What’s that?” the lawyer asked.

“One of us kicks the other three times. Then the other guy gets to kick the first guy three times. We keep doing it until one of us gives in.”

The farmer looked very old, and the lawyer worked out regularly. “All right,” he said confidently. “We’ll do it your way.”

“Since we’re on my land,” the farmer said, “I kick first.”

The lawyer agreed, positive that the elderly farmer couldn’t hurt him.

He was wrong. The farmer’s first kick sent him into the dirt. His second hurled him against a tree. The third had him flying into a haystack.

Dizzy, the lawyer pulled himself up and took a deep breath. “OK, now it’s my turn.”

“Nah,” the farmer smiled. “You can have the duck.”

The wrong direction

An old man and his wife argued constantly, and the husband was often heard to say, “After I die, I will dig my way out of my grave and haunt you for the rest of your life!”

When he died at age 98, superstitious friends asked the wife if she was afraid he’d make good on his threat. She shook her head. “I buried him upside down—and I know he’ll never stop and ask for directions.”
