SAVE TIME AND MONEY BY CALLING US TODAY TO GET YOUR PROJECT STARTED!

4th of July Picnic

There will be a Fried Chicken Picnic in the pavilion (if bad weather, then the clubhouse) on July 4 at 1 pm Happy Hour, 2 pm Dinner. See Karen McCall for signup. The chicken and ice will be provided but we'd like to know what side dishes you will be bringing and how many are coming.

Alcohol in Pool Area

Please remember that no glass of any kind is allowed around the pool area. We are getting reports of beer bottles around the pool. If glass is broken in the pool, it can be quite expensive to clean out.

Please remember there is no alcohol in the pool area or in the pool or hot tub.

Home Site Alterations

If you are making any changes or additions to your home site or the exterior of your home, please come to the office and submit a completed request (green sheet). Paint colors must be approved and a request form must be approved. Submit your written request and wait until you have received approval before proceeding with any work. Anyone other than the homeowner working on the home must be licensed and insured and we must have a copy of such on file in the office.

Guests

Additional guests staying overnight in the park must be registered and paid for. Cost is \$3 per person per night, \$12 per person per week and \$40 per person per month.

Residents must accompany their guests while at the pool or other locations and are responsible for the behavior of their guests. Children under 18 must be accompanied by an adult who shall assume full responsibility for their safety and conduct. No running, jumping or diving into the pool.

Driveways

While backing out of your driveway, please stop and look before entering the street. There have been close calls with residents backing out and not looking.

We strongly urge residents to obey the one way arrows. We have seen many instances where someone has almost gotten hit because of someone going against the arrows.

Mowing

If you have any problems with the mowing, please contact the office and not the mowing crew. The office will contact the manager and get the situation resolved as quickly as possible.

Golf Carts

Golf carts are only to be driven by persons 18 years old and older with a valid driver's license.

Hot Tubs for Adults Only

No one under 18. Food and drink are not allowed in the pool or hot tub. The hot tub is meant for short sessions only, no longer than 15 minutes. The use of alcohol combined with the relaxing heat of the hot tub can be a dangerous combination. A person can easily slip under the water unnoticed and tragedy can strike quickly. Never swim alone. Use the buddy system for safety.

Also, for the health and wellbeing of everyone, please do not go in the hot tub or pool if you are not feeling well, have wounds or open sores.

Stop Signs and Speed Signs

Please stop at **ALL STOP SIGNS IN THE PARK**. Cars, bicycles and golf carts continue to roll through them and someone could easily get hurt one day. Just please pay attention.

Dog Poo

Lately we have received many complaints about people not cleaning up after their animals, and not walking them in the pet area. Pet areas are marked on the map. If you need a copy of the map, stop in the office for one. Thank you.

Residents

We have been asked to advise you not to hang anything on the fire hydrants. It will hinder the fire department if they have to come into the park.

Robert's Park has Two Organizations

Why are there two organizations in the park? They serve different purposes:
Robert's Recreation Association was formed to provide social and recreational activities for all full and part-time residents of the Park. There are meetings on the first Monday of the month from November to April. Committee Chairs make their reports and the business conducted there lets residents know what is going on in the park. There are no dues and all residents are welcome to attend the meetings.

Robert's Park Homeowners Association, Inc. represents owners of mobile homes in the Park. It is the liaison between those owners and Park management. Membership certificates are issued upon payment of a one-time fee.

To All Residents

Royal Palm Cemetery is now off limits to all residents with dogs. The cemetery will be putting up “no trespassing” signs for anyone with a dog. There have been many complaints that people are taking their dogs to the cemetery for walks and not cleaning up after them.

Anyone caught on cemetery property will be prosecuted.

Solicitors

If you see a solicitor, please call the office. We will send someone down to tell them to leave the park.

These people are very bold and brazen. Please help us stop them before they take advantage of anyone in our community. The office never gives permission to any solicitor.

Deadlines for Robert’s Review Submission

All articles must be received by the 7th of the month. Please email them to Carole Scott at caroles643@gmail.com. My phone number is 757-218-2909 Nov-April and 757-824-5214 May - October

Making room

A farmer lived in a small house with his wife and six children. The lack of space was driving him crazy, and in desperation he sought advice from the local rabbi.

The rabbi listened sympathetically to his problem. “I can help you,” he said, “but you must do exactly as I say.” The farmer agreed.

“Do you own any animals?”

“Yes,” the man said. “I have a cow, two goats, and some chickens.”

“Good. When you get home, bring all your animals into the house with you.”

The farmer was puzzled, but he did as the rabbi advised. The next day he returned, complaining, “Rabbi, the animals are all over my house! What should I do?”

“Go home and take the chickens outside,” the rabbi said.

The man went home and took the chickens away. The following day he went back to the rabbi’s house. “The chickens are outside, but we still have two goats and a cow getting in the way.”

“Take the goats back outside,” the rabbi instructed.

The day after that, the man returned again. “The goats are out in the yard, but the cow is everywhere.”

The rabbi nodded. “Now take your cow back to your field.”

The farmer came back smiling the next day. “It’s amazing! The house is quiet and we have room to spare! Thank you, rabbi!”

Not so obvious

A math professor had a very rapid and hectic lecturing style. He often simply turned his back on the class and scribbled equations on the chalkboard while speaking so fast many students couldn’t keep up.

One day a student asked a question about one of the problems. The professor replied, “Well, that’s obvious!” But the student persisted. The prof listened thoughtfully, nodding, then went out into the hallway to think. He paced the hall for 10 minutes, then returned to his classroom.

“I’ve thought it over,” the professor said. “I was right: It is obvious.” And he went right back to his lecture.

Balance your internal ‘thinker’ and ‘doer’ to bring ideas to life

Creative people can have dual personalities: the “thinker” who comes up with bright ideas and the “doer” who puts plans into action. How can you help them work together effectively? Follow these steps:

- Record your revelations. When an idea strikes in the middle of a task, don’t stop what you’re doing so you can ponder your brainstorm. Instead, keep a notebook where you can record sudden inspirations to review at a more appropriate time.
- Take time to think. Set aside some time each day when you can forget about performing tasks and quietly focus on shaping your ideas.
- Conduct a weekly review. Bring the thinker and doer together each week to decide how to turn vision into reality. Review your ideas, then create action steps to ensure they come to fruition.

Take the risk of being creative

Creativity is a risky business. Your best ideas may get shot down—or never even make it into the air. If your worries are interfering with your ability to find creative solutions to problems, keep this advice in mind:

- Practice. Don’t wait for the pressure of a crisis to start flexing your creativity. Envision some possible scenarios where you’d have to think fast to find a solution. When real problems arise, you’ll be better prepared to deal with them.
- Seek feedback. Look for people who can help you evaluate your ideas fairly. They should challenge you, not just say, “Great idea!” This will help keep your thinking sharp.
- Take small risks. Get used to uncertainty by using your imagination when the risks are minimal. You’ll build confidence as you learn what works and what doesn’t.
- Search for data. Be on the lookout for all the information you can gather about the problem you’re trying to solve—and about your organization and industry. The more facts you have, the better the creative decisions you’ll make.

When you’re heartbroken, you’re at your most creative—you have to channel all your energies into something else to not think about it.

—Florence Welch

Young athletes embrace football

Football is the fastest-growing youth sport in the U.S., according to a survey conducted for USA Football (the national governing body) by the Physical Activity Council and Sports Marketing Surveys USA. Among American kids 6 and older, flag football showed the biggest rise—8.7 percent from 2014 to 2015, representing approximately 120,000 more young players.

Baseball came in second, with a jump of 3.3 percent, and tackle football increased by about 1.9 percent, or about 21,000 additional players.

The numbers were similar in the 15–18 age group: Flag football grew 10.5 percent, adding about 100,000 players, and tackle football increased 2.5 percent, for 30,000 more players. The only other sport to grow in size among the older age group was basketball, at 1.1 percent.

Your commute may improve your health

You may not like going to work in the morning, but the way you get there can have a positive influence on your overall health. The journal *Lancet Diabetes & Endocrinology* has published a study that found middle-aged people who walk, ride a bike, or even take public transportation to their workplace tend to have a lower body mass index (BMI) than those who regularly drive.

The reason is simple: More physical activity keeps weight down and results in better overall health. Researchers at the London School of Hygiene & Tropical Medicine looked at data from 150,000 people ages 40–69. Not surprisingly, those who biked to the office weighed showed a healthier BMI than those who drive their cars, followed by walkers and then workers who took a bus or train.

Although walking or biking may be impossible for many people, the physical activity involved in just getting to the bus stop or train station can have a significant positive effect.

One measure of friendship consists not in the number of things friends can discuss, but in the number of things they need no longer mention.

—Clifton Fadiman

July CROSSWORD

Advice from the A-List

Celebrities aren't necessarily smarter than the rest of us, but their success speaks for itself. Here's what they have to say about achieving success in any endeavor:

- Leonardo DiCaprio, actor: "I've been very lucky to have achieved a lot of the things that I dreamt of achieving as a young man. But at the end of the day—and I truly believe this—it is not about achieving great wealth or success, because they don't bring happiness ultimately. They really don't. What matters is whether or not you've fulfilled the idea of having led an interesting life, whether you've contributed in some way to the world around you."
- Beyoncé, singer: "The reality is, sometimes you lose. And you're never too good to lose, you're never too big to lose, you're never too smart to lose; it happens. And it happens when it needs to happen. And you have to embrace those things."
- Justin Timberlake, singer: "I like being a beginner. I like the moment where I can look at everyone and say, 'I have no idea how to do this. Let's figure it out.'"
- Chris Pine, actor: "Fear runs our lives. It doesn't matter who you are. You have to understand your relationship with fear. Whether you're scared of getting into a relationship or taking the new job or a confrontation—you have to size fear up."
- Ellen DeGeneres, talk show host: "Never follow anyone else's path, unless you're in the woods and lost and you see a path. Then, by all means, follow that path."

Succeed with kindness—and these kindly tips

Nice people can finish first. The key is knowing how to use kindness to your advantage. Practice these habits until they become second nature:

- First, be kind to yourself. You'll find being nice to others easier if you build your self-respect with positive thoughts about your personality and achievements.
- Treat everyone with respect. Don't worry about who's on top. Treat everyone the way you want to be treated, regardless of their position or job title.
- Say no when necessary. You can't do everything. But when you do say no, be polite and positive.
- Plant seeds of kindness. Do something nice every day even when your kindness may not have an immediate payoff.
- Complete this statement: "If I were a better person I would ____." Then act on it.

Stories to tell your grandkids

Most children enjoy hearing their grandparents tell stories. You can captivate your grandchildren for hours at a time with some of these tales that are certain to pique their interest:

- How their grandparents met. Did you meet your future wife in grade school? Did you initially dislike the man you eventually married? Children are often curious about how people in their lives ended up together—and they’ll like the joy they see in your eyes as you talk about your enduring love.
- The day their parents were born. Kids usually like hearing about their parents. Describe in detail what happened the day their father or mother was born: what time they came, what you were hearing, who helped out, and most important—how you felt.
- The day they were born. Do the same with a story about your grandchild’s birth. What preparations did you make? What did you expect? When did you first see your grandchild? What did he or she look like?
- School days. School has changed a lot since you were a child. Talk about what your typical day was like. Describe your favorite teacher. Discuss challenges you had. Tell children what life in a classroom was like without computers, DVDs, and other modern technology they take for granted.
- First jobs. Talk about the restaurant where you washed dishes, or the shop where you stocked shelves. Tell children about your best and worst bosses, experiences helping customers, and what you learned from each position.
- Proudest achievements. Think back to the moments in your life when you felt proud. You’ll teach your grandchildren to try hard, never quit, and take pride in their accomplishments.

The water cure

A man went to the doctor because he had no energy. After asking a few questions, the doctor wrote a series of prescriptions.

“Now,” she told the patient. “I want you to take the red pill with two glasses of water in the morning, the yellow pill with two glasses of water at lunch, and the green pill will three glasses of water before you go to bed.”

“Wow,” the man sighed. “What do the pills do?”

“Nothing. You’re not drinking enough water.”

'Hobbits' older than thought

Scientists discovered ancient human fossils on the Indonesian Island of Flores more than 10 years ago and nicknamed the new species “hobbits” because of their diminutive size, about 3.5 feet tall. They believed these small humans (official name: *homo floresiensis*) lived about 18,000 years ago, or perhaps even later.

But according to an article in *The Christian Science Monitor*, the remains may be much older. Some scientists are now arguing that erosion made the fossils appear modern than they really are. Using such techniques as radiocarbon dating and uranium-series dating, they’ve determined that the fossils may be 60,000 to 100,000 years old. Artifacts made of stone discovered in the same area appear to be between 50,000 and 190,000 years old, pushing the date of the hobbits’ existence—and extinction—back further than previously thought.

Master the elements of successful innovation

Innovation is crucial to an organization’s long-term success. To help it take root, remember that successful innovation has these basic components:

- **Imagination.** Everyone on your team should be able to think creatively, find fresh solutions, make new connections, and take different approaches to everyday problems.
- **Risk.** Every new idea carries an element of risk. Don’t be reckless, but be ready to tolerate some uncertainty when you try something new.
- **Work.** Ideas won’t implement themselves. You and your co-workers should be prepared to do the hard work of bringing innovation to life.
- **Optimism.** You won’t always succeed, but you should maintain a sense of excitement and passion about every new idea. Some of them will work, feeding your desire to move on to the next project.

Creativity and insight almost always involve an experience of acute pattern recognition: the eureka moment in which we perceive the interconnection between disparate concepts or ideas to reveal something new.

—Jason Silva

A good sleep starts with good nutrition

If you have trouble getting a good night's sleep, try looking at your diet. A study by the Institute of Human Nutrition at Columbia University Medical Center in New York suggests that cutting back on sugar and fat, along with increasing the amount of fiber in your meals, may help people sleep better.

Researchers kept track of 26 men and women, and found that subjects fell asleep faster and slept more soundly on days when they ate a high-fiber diet. When their meals were high in saturated fat and sugar, they took longer to nod off and tended to wake more often at night.

The scientists note that more research is needed to establish a definite link between nutrition and good sleep. Still, eating better can't hurt.

Healthy lifestyles are rare in the U.S., study finds

A healthy lifestyle has four basic characteristics, according to physicians: moderate exercise, a healthy diet, not smoking, and maintaining the recommended body fat average. But only 2.7 percent of Americans fit those standards, researchers at Oregon State University say.

Looking at data on more than 4,700 people, the researchers determined that 16 percent had three of the characteristics, 37 percent had two, 34 percent had one, and 11 percent had zero. Other findings: Seventy-one percent of adults didn't smoke, but only 38 percent ate a healthy diet, 10 percent had a healthy body fat percentage, and 46 percent were physically active.

Do you read me? Ants send and receive via antennae

Ants may not be able to speak, but they can communicate effectively through signals they receive—and send—through their antennae, researchers at the University of Melbourne have discovered.

Ants use chemicals called CHCs, for cuticular hydrocarbons, to identify whether other ants are friendly or hostile. When CHCs are removed from an ant's antennae, it can no longer tell whether other ants are from its nest. The CHCs apparently enable ants to share basic information about their affiliation, something scientists couldn't confirm until now.

Antennae have long been known as vital to ants' behavior. In an experiment conducted more than 125 years ago, a scientist removed the antennae from four different groups of ants and placed them together. Instead of breaking out into fights, the ants interacted peacefully with each other. The role of CHCs clarifies how such communication works, scientists today say.

FLORIDA Under Home SOLUTIONS

where budgets and home solutions meet

AFFORDABLE VAPOR BARRIER

Have You Looked **UNDER** Your Home Lately? **PROTECT YOUR HOME**

Fix Small Problems Today Before They Cause Serious Damage!

We will inspect and photograph any issues, showing you pictures of the underside of your home. Damaged & worn vapor barriers can create high energy costs and allow mold & mildew to grow and weaken your sub floor creating "Soft Spots". Keep Mold, Moisture & Animals out of your Home.

Repairs will be made quickly and include a **20 Year Transferable Warranty!**

10% MILITARY DISCOUNT
