Manager's Corner for February 2015

Jeff Hahn, LCAM, Property Manager

- Keep in mind, Serendipity's annual Trash and Treasure will be held on Saturday February 7th. Thanks to Val and Joyce Pietrkiewicz for chairing this very important Park event, and for the many volunteers who take the time and effort to make this a yearly success.
- ROC's Annual Meeting and Election were held on Tuesday, January 13th. Congratulations to the newest Board member, Bernie Lantiegne and many thanks to Eugene Rizok for all the time and commitment he made over the years for the betterment of your Serendipity community.
- In the same vein, I would personally like to thank the volunteers who offered to count the election ballots at this meeting. They are Elaine Samczyk, Fran Stone, Bud Wylie, J.L Lamontagne, and Frank Robertson. They handled this project in a very effective and timely manner.
- Just a reminder to all the seasonal residents of the park to make certain that when you head back north, there is someone here to take care of your home. Also, please let the Park know when you are leaving as this helps us identify the homes that should no longer have any activity in them.
- Also, please let the Office know if you are granting anyone permission to park in your driveway while you are gone. There have been situations that people have parked in driveways without anyone's knowledge. Letting us know in advance will help us alleviate this issue.
- Additionally, Rule # 36 states the following: "When not in residence, all items not permanently anchored must be removed from around the home and carport and properly stored in a secured area. Screen rooms are not considered a secured area". If anyone who is leaving for an extended period of time would like your area viewed prior to your departure, please notify the Office.
- The spray washing of the sidewalks is not yet completed, but this is still a project that will be completed in the not too distant future.
- New numbers are being placed on the sidewalks in front of your homes, and this SHOULD be done by the time you receive this month's Media.
- That's it for now so have a great enjoyable month of February!

WIND POWER - CLEAN & RENEWABLE ENERGY

Barbara Clark, 303-0171

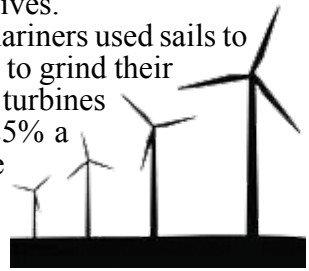

Energy solutions for the future will increasingly depend on the use of renewable energy resources. Wind power turbines provide a clean and renewable energy source and they are used around the world.

But, just what is wind anyway? Wind is the movement of air from an area of high pressure to an area of low pressure. Wind exists because the sun unevenly heats the surface of the Earth. As hot air rises, cooler air moves in to take its place. As long as the sun shines, wind will blow.

And, as long as the wind blows, people will harness it to power their lives.

People have been using wind power since ancient times. Ancient mariners used sails to capture the wind and explore the world. Farmers once used windmills to grind their grains and pump water. Today, more and more people are using wind turbines to produce electricity. Wind turbine use has increased greater than 25% a year in the last decade. But it still only provides a small fraction of the world's energy.

Most wind energy comes from turbines that can be as tall as a 20-story building and have three 200-foot-long blades. They look like giant airplane propellers on sticks. The wind spins the blades and they turn a shaft connected to a generator that produces electricity. The biggest turbines generate enough electricity to supply about 600 US homes. Large wind farms have dozens and even hundreds of these turbines lined up in windy spots, like along a ridge. But, a small wind turbine can be installed in a backyard to provide electricity for an individual home. Once installed, there is zero cost. These days, turbines are becoming much cheaper and sometimes tax incentives are offered.

There may be drawbacks, depending on your personal opinion. Some think the turbines are ugly and don't like the noise. They may kill birds but not as many as cars, power lines and high-rise buildings do. Of course, wind is variable, depending where you live. Still, the wind energy industry is booming! Usage has more than quadrupled between 2000 and 2006 (globally). Experts predict that if this pace of growth continues, by 2050, one third of the world's electricity will be provided by the wind. More jobs will be created as this industry grows.

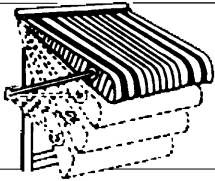

Did You Know?

- The US currently has 61,110 MW of installed wind project capacity. This comprises 5.7% of the total US installed electric generating capacity.
- Windmills have been used since 2000 BC and they were first developed in China and Persia.
- Wind power is the fastest-growing source of electricity in the world. Iowa and South Dakota generated more than 25% of their energy from the wind in 2013.
- There is enough on-shore wind in America to power the country 10 times over. Think about that!
- Twelve states accounted for 80% of the US wind-generated electricity in 2013. They are TX, IA, CA, OK, IL, KS, MN, OR, CO WA, ND and WY.
- In 2013, California led the nation by installing new wind installations.
- Modern wind turbines produce 15 times more electricity than they did in 1990.
- A single wind turbine can power 500 homes.
- Most wind turbines (95%) are installed on private land.

- In 2013, the roughly 168 million megawatt-hours generated by wind eliminated emission of 95.6 million metric tons of carbon dioxide.
- American wind power is a \$10 billion a year industry.
- Wind power uses virtually no water. By 2030, US wind power will save nearly 30 trillion bottles of water.
- In 2012, wind energy became the number-one source of new US electricity-generating capacity. By May 2014, the US had 46,000 operating wind turbines.
- Wind energy prices have dropped since 2009 and lower turbine prices with improved capacity will further reduce costs.

TRASH & TREASURE SALE

Joyce Pietrkiewicz, 784-5569

The Trash and Treasure sale will be held on February 7, 2015. Start cleaning out your closets and donate whatever you can. Val will do pickups on Thursday in the morning so call us if you need something picked up. Thanks for your help.

Residents Birthdays & Anniversaries

Serendipity and our residents wish everyone celebrating their birthday or anniversary this month a wonderful day. If you wish, you can add your name to the birthday/anniversary list by calling Barbara Clark at 727-303-0171. It's nice to know when your neighbors are having a special day. These names will also appear on our online website: www.serendipitymhp.com.

FEBRUARY BIRTHDAYS

- 1 Richard Carter
- 5 Wayne Roberts
- 6 Jennifer Schutt
- 11 Val Pietrkiewicz,
Rita McAllister,
John McDougall
- 14 Clarence Hurd
- 18 Phillip Wise
- 20 Elaine Samczyk
- 22 Tony Molesky
- 25 Marie Hogan

FEBRUARY ANNIVERSARIES

- 1 Hank & Arlene Isenbergh
- 2 Jerry & Barb Mudge
- 5 John & Linda Larocque
- 20 Gary & Peggy Dubendorfer
- 24 John & Kathy McDougall

If your birthday or anniversary was not listed, please let me know and I will add it to next month's list and make sure it is remembered for next year. If you know of someone whose name appears on the birthday/anniversary list who is not living in Serendipity any longer, please notify me so I can remove their name.

Aerobic Walking

Golf

Linda Taylor, 418-4288

The Monday Golf League plays at Lansbrook Golf Club with a shotgun start time of 8:15 a.m. every Monday morning. We now have approximately 36 golfers who have joined the league. Anyone interested in playing with the league on Monday mornings, give me a call or e-mail me at lindataylor661@hotmail.com. Just a note, you do not have to be a resident of Serendipity to play with the league so if you have any friends interested in playing they can contact me for information. You can check the Serendipity website, www.serendipity55plusmhp.com where weekly scores will be posted. We are playing golf at the Lansbrook Golf Club with a shotgun start time of 8:15 a.m. Anyone interested in playing with the league on Monday mornings, give me a call or e-mail me at lindataylor661@hotmail.com. Just a note, you do not have to be a resident of Serendipity to play with the league so if you have any friends interested in playing they can contact me for information.

Krafty Korner Friendship Club

Brenda Davis, 205-586-9792

Kathy Jones, 727-600-8140

Come and join our craft club. We will meet every Friday from 10:00 a.m. until 3:00 p.m. in the West clubhouse. Everyone is welcome. Come join us as we all work on our individual crafts. Call Brenda or Kathy for more information.

Ladies Luncheon

Phyllis Messina, 785-3249

The ladies luncheon is held on the second Tuesday of each month. Watch the bulletin board for place.

Fifty-three people attended the lunch on January 13 at Flamestone American Grill. Winners of \$5 each were: Nancy Hall, Mary Hill, Helen Flowers, Doris Isabell, Jane Stanley, Diane Clement, Annette Davis, Brandy Kral and Mae Schmidt.

The next lunch will be at Lucky Dill on February 10. Hope to see you there.

Line Dancing

Leslie Bellinger, 729-5039

Line Dancing will be on February 3, 17 and 24 at 10:00 a.m. in the East Clubhouse. If there is a dance you like to do, put your favorite dance on my board when you come in so we can do it that day. We will do our old favorites and a couple newer dances too. Get some exercise and have fun also. See you on the dance floor.

Pinochle

Marge Krauser, 784-4305

Pinochle is held every Friday at 7:00 p.m. in the West Clubhouse. Cost is 50 cents. Everyone is invited. For more information, call Marge Krauser.

Tortoises make their way back from extinction

Now some good news from the world of nature: The Hood Island giant tortoise of the Galapagos Islands, whose once vast numbers had dwindled to only 15 in the 1960s, has surged back with help from scientists.

As reported on the Sci-News website, scientists captured the remaining tortoises, successfully bred them in captivity, and began repatriating them to their home in the 1990s. Now more than 1,000 of the tortoises are breeding on their own, a stable population back from the edge of extinction.

Shuffleboard

John Barrett, 786-8638

The “A” and “B” Big Ten League teams continue to do well. The “A” team is in sixth place and the “B” team is in second place. Both teams won this week so I expect at least one of them will move up. The Stirling League team also continues to play a strong game and is tied for second place.

It was good to see the Fun League outnumber the travel teams at the January meeting. Let’s see if they can continue to do that. Of course, if fewer travel team members were ill, they would have been at the meeting. Let’s hope everyone stays healthy in February, and that Serendipity has lots more wins!

I look forward to seeing you at the courts.

Sunshine Gal

Dawn Freelove, 315-759-3206

Warm thoughts like lovely flowers lighten the heart and brighten the hours. I send Get Well or Sympathy cards to residents who are ill or the families of someone who has passed away. Let me know of anyone in these situations. Thanks.

January 2015 Newsletter (sorry these were omitted)

- Get Well cards were sent to Steve Duringa (381) and to Madeline Whalen (55A). Dick Kral (379) passed away November 23rd and a Sympathy card was sent to his wife, Brandy, and family.
- Get Well cards were sent to Les Williams (369), Gloria Fisher (388), Steve Durina (381), and Sandy (Brandy Kral’s daughter – 379). A Sympathy card was given to Loretta Liick (2A). Her son, Roger, passed away.

A pen is certainly an excellent instrument to fix a man’s attention and to inflame his ambition.

—President John Adams

Energy Quiz

Barbara Clark, Editor, 303-0171

How much do you know about the energy you use, where it comes from and how we can save more of it?

1. Global economy is expected to grow 130% from 2010 to 2040 and the population may increase to 9 billion people. If this happens, how much more energy will be required?
a. 35%
b. 50% 
c. 100%
d. 130%
2. Which of the following products is NOT made from petrochemicals derived from oil or natural gas?
a. Aspirin 
b. Lipstick
c. Soft contact lenses 
d. Rubber
e. Perfume
3. By using recycled aluminum scrap to make aluminum cans, how much less energy (percent) is saved rather than making the cans from scratch?
a. 48%
b. 25% 
c. 79%
d. 95%
4. How many people in the world rely on energy from sources like wood or dung for cooking?
a. 1 million
b. 1.5 million
c. 1 billion 
d. 3.6 billion
5. Which uses less energy – taking a hot shower or a hot bath?
6. What is the expected population for 2040?
a. 5 billion
b. 7 billion
c. 9 billion
d. 11 billion 

7. What is the most cost effective method for cooking in the kitchen?
- a. Convection oven
 - b. Conventional oven
 - c. Stove top burner
 - d. Microwave
- 
8. What country produces the most natural gas?
- a. United States
 - b. Canada
 - c. Russia
 - d. Norway
 - e. Saudi Arabia
- 
9. Commercial airplanes have been flying passengers for nearly a century. But what innovation this year could help save United Airlines more than \$200 million in annual fuel costs?
- a. Limiting AC in cabin after take-off
 - b. Adding a new winglet
 - c. GPS or satellites to provide more exact routes
 - d. Streamlined landing gear (provide less resistance)
10. UPS is expected to save about 1.5 million gallons of fuel in 2014 because of this.
- a. Optimizing delivery routes and using no left turns
 - b. Not driving over 45 mph
 - c. Eliminating one delivery day per week
- 
11. More than 100 million Americans watch the Super Bowl on TV. What happened to home electricity usage during this event? Did the usage go:
- a. Up
 - b. Down
12. If each home in the US replaced one light bulb with a compact fluorescent bulb, the energy saved could light how many homes?
- a. 1 million
 - b. 3 million
 - c. 5 million
- 
13. The size of your electric bill is determined how you control your AC usage in warmer months. For each degree higher on the thermostat, how much can you save on your cooling cost?
- a. ½%
 - b. 5%
 - c. 1%
 - d.
- 

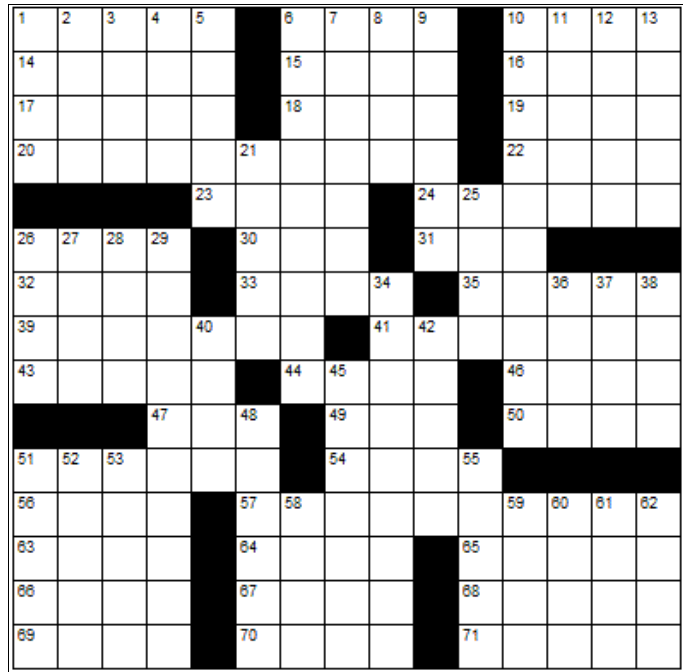

14. How many American jobs have been created because of the energy revolution in America's oil and natural gas fields?
- a. 2.1 million
 - b. 10,000
 - c. 1 million
- 
15. Which is the only major economy in the world to significantly reduce its energy-related carbon dioxide emissions over the past several years?
- a. China
 - b. Germany
 - c. United States
 - d. Japan
- 
16. Hybrid cars account for 1% of light-duty vehicles driven today and they help improve fuel economy. By 2040, what percentage of the global fleet will be comprised of hybrid cars?
- a. 18%
 - b. 35%
 - c. 50%
 - d. 72%
- 
17. What industry of our economy is the largest consumer of aluminum?
- a. Food and beverage
 - b. Power
 - c. Transportation
 - d. Housing and construction
18. If you travel at 60 mph instead of 70 mph on a 20-mile highway commute to and from work, how much can you save on gas annually?
- a. 2 tanks
 - b. 3 tanks
 - c. 4 tanks
- 
19. What percentage of today's cars is comprised of advanced plastics made from oil and natural gas?
- a. 0%
 - b. 5%
 - c. 25%
 - d. 50%
-

New Pain Treatment Available in Dunedin

Dunedin, FL - Imagine forty years ago if you were told that lasers would replace scalpels in surgery or that robotic instruments would build cars; you may not have believed it. By the same token, would you believe that chiropractic treatments could be performed using a special hand-held instrument using space age NASA technology, all while you were sitting in an upright position without turning or twisting movement to your spine?

According to Dr. Drew, "This new form of computerized treatment is so gentle and effective that it amazes even the most skeptical patients. It's called the Impulse IQ and it is the latest state-of-the-art technology in existence today, and the only one in the Hernando, Citrus, Pasco & Hillsborough area."

Dr. Drew says that, "The secret to the Impulse IQ is in its ability to deliver an extremely precise adjustment." He says "Even though traditional forms of adjusting also work, people are drawn to this new technique because of how gentle it is and does not involve any twisting, especially in the neck." The Impulse IQ is FDA approved, UL listed and treatments are covered by most insurances, including Medicare.

The procedure is backed by years of scientific research, and our patients can't stop raving about their results. They are using words like "Incredible", "Amazing" and "Unbelievable." It's changing the future of pain treatment like nothing else I've seen in over 20 years of practice", says Dr. Drew. If you have any of these conditions, the Impulse IQ may be the answer you've been looking for.

Low Back Pain

What's a nutritious snack? Try these tasty treats

You're hungry. What should you eat if you're trying to avoid junk food and excess calories? Consider these healthful snack options:

- Olives. A snack of five olives has just 45 calories.
- Hummus and carrots. Four ounces of hummus and three carrot sticks contain only 80 calories.
- Pineapples and pistachios. Mix 1/2-cup of dried pineapple slices with about 25 pistachio nuts. Plus, fruits and nuts are a good source of antioxidants. Also try peanuts and raisins or almonds and dried apricots.
- Cottage cheese and apples. Top a sliced apple with about 1/2-cup of low-fat cottage cheese. Benefits: calcium, protein, and fiber.
- Mini-pizza. Slice a whole-wheat pita in half. Spread a little tomato sauce, then sprinkle some cheese and vegetables on top. Heat in microwave or toaster oven until cheese melts.
- Rice cakes. These can be eaten by themselves or with various low-fat toppings. Look for rice cakes made from whole-grain brown rice.
- Water. A tall glass of water revitalizes your body while assuaging hunger pangs. And it's caffeine- and calorie-free.
