WORD OF THE MONTH:

skm

CONTRONYM: A contronym is a word with multiple meanings that are the direct opposite. Take a look below and learn how often these contrary words pop up in your vocabulary.

Bolt: To secure, or to flee.

Dust: To add fine particles or remove them.

Handicap: An advantage provided to ensure equality, or a disadvantage that prevents equal achievement.

SOME AREA FACT

skm

Stroll down the waterfront sidewalk of Bayshore Boulevard in Tampa, Florida, and you will be walking down the longest continuous sidewalk in the country. The scenic 10-foot-wide walkway stretches for 4.5 miles along Hillsborough Bay, starting at Columbus Statue Park and ending at Gandy Boulevard. Bayshore Boulevard Greenway is a favorite for runners, but bikers can also enjoy a three-mile-long bike lane that runs alongside it. Walking end to end may take about an hour and a half, but you'll be treated to serene views of the bay and some of Tampa's most beautiful homes in Old Hyde Park — many of them are listed on the National Historic Register.

Not for nothing is Tampa Bay's hockey team called the Lightning. Florida has more of the weather phenomenon than any other state in the country, with the area between the cities of Tampa and Orlando ("Lightning Alley") receiving more cloud-to-ground lightning strikes than any other region. That's owed to both climate and geography, as the unique shape of Florida's peninsula and the warm water that surrounds it make for an electric duo. This makes for frequent thunderstorms, especially in the afternoon — by that time, the land itself has warmed up enough to create ideal conditions. Florida doesn't rank especially high in the worldwide lightning rankings, however, as Venezuela is home to the "everlasting storm" known as Catatumbo Lightning.

SNOWBIRDS?

skm

'Tis the Season when we look forward to welcoming our friends and neighbors back from their northern homes. I'm concerned if they will be able to do so this year. Travel bans aside, they have some tough decisions to make before packing up for the winter.

Whatever happens, we wish them all the best – stay healthy and strong!

A PLEA FROM RESIDENT JOHN POOLE

skm

The week of September 7 ended with John having to transport his beloved Elyse to the ER on 9/13. She had become so weak that she couldn't lift her head. They can certainly fill in the horrible details, but it involved a forced change of a blood thinning medication.

They were told that if she had waited another day, she would have died from internal bleeding.

What the Pooles want to remind everyone is to be aware that internal bleeding first manifests itself in dark stools and/or urine. It's a simple thing to check. Be alert to the changes – it's your body talking to you! Early reaction can prevent an emergency and a near death experience. (or worse)

At this writing, Elyse has been in the hospital 5 days, but hopes to escape soon.

Prayers for a speedy and complete recovery!

And thanks for the Public Service Announcement!

October Monthly

American Pharmacists Month. American Pharmacists Month promotes awareness of the many services pharmacists offer beyond the safe distribution of medications. These services include seasonal and lifespan immunizations; medication reviews to assess safety, effectiveness, interactions, and adherence; care management and counseling for disease states such as diabetes, high blood pressure, and high cholesterol; and smoking cessation counseling.

Blindness Awareness Month. Blindness Awareness Month is dedicated to taking the discussion of all things sight-related to the forefront of the public. It is about having good eye health as well as discussing blindness and visual impairment as a whole.

National Animal Safety and Protection Month. Our pets can't tell us what hurts, so it's crucial to understand what behavior and signs suggest that your pet may not be feeling 100% and what is normal. Breathing rate, dehydration, and temperature are all things to keep an eye out for.

National Substance Abuse Prevention Month. An observance that highlights the vital role of substance abuse prevention in both individual and community health—and to remember those who have lost their lives to substance abuse. The Office of National Drug Control Policy encourages prevention efforts this month and all year long to ensure the health of teens and young adults.

The one permanent emotion of the inferior man is fear—fear of the unknown, the complex, the inexplicable. What he wants above everything else is safety.

FLORIDA ANCHOR AND BARRIER COMPANY

To our valued customers:

During the current times we wanted to let you know that we are taking as many precautions as we can to ensure not only our workers safety but yours as well. We check workers' temperatures each morning and have limited the amount of contact our crews have with each other. Our crews work in Tyvek suits with respirators which helps to ensure your safety as well as theirs.

As a company, we want your business and there is no need for any contact if you so choose. Our business is deemed an "Essential Business" and we are here for you when you need us. You can schedule your inspection by calling 1-800-681-3772.

Wishing you good health and safety,

Bringing people to the center

Shortly after being forced out of Apple Computer, Steve Jobs bought a small computer manufacturer named Pixar. In 2000, he relocated the company to an abandoned factory. The original plan called for three buildings, with separate offices for computer scientists, animators, and the Pixar executives.

Jobs immediately scrapped it. Instead of three buildings, he wanted a single vast space with an atrium at its center.

As Pixar's Ed Catmull explains, "The philosophy behind this design is that it's good to put the most important function at the heart of the building. Well, what's our most important function? It's the interaction of our employees. That's why Steve put a big empty space there. He wanted to create an open area for people to always be talking to each other."

Jobs saw separated offices as a design problem. He shifted the mailboxes to the atrium, then moved the meeting rooms, cafeteria, coffee bar, and gift shop to the center of the building. "The atrium initially might seem like a waste of space," says director Brad Bird. "But Steve realized that when people run into each other, when they make eye contact, things happen."

Jobs insisted that the best creations occurred when people from disparate fields were connected, especially in an age of intellectual fragmentation.

When you plant a tree every day

What used to be a landscape devastated by erosion is now 1,360 acres of forest, and it's all thanks to one Indian man named Jadav Payeng. Jadav planted a tree every single day for 40 years, and now this man-made forest is bigger than Central Park. This incredible forest is also home to hundreds of elephants, rhinos, boars, reptiles, and birds.

This botanical enthusiast says he is planning to plant trees until his "last breath." "Nature is God. It gives me inspiration. It gives me power ... As long as it survives, I survive."

If you want to learn more about this hero, check a short documentary at <https://www.youtube.com/watch?v=HkZDSqyE1do>.

WHEN TREATING A HEART ATTACK OR STROKE, TIME IS OF THE ESSENCE. EVEN DURING THESE TIMES.

Don't hesitate when it comes to getting emergency treatment.

Even during a pandemic, you still need to be treated immediately if you have an emergency. Debating whether or not to risk going to an emergency room during a heart attack, stroke or other health emergency—waiting even a few extra minutes—could be harmful. That's why in all BayCare hospital emergency rooms, patients who have symptoms of COVID-19 are isolated from other patients. This helps keep emergency room patients and our team members safe. So if it's an emergency, don't wait. **For more information: [BayCareEmergencyCare.org](https://www.baycare.org/emergency)**
