From The President

Ken Abkemeier

Now that the “arctic plunge” has passed us and warmer temperatures are setting in, it is time to think spring. Here is a suggested to do list: 1.) Come to the “Coffee Klatch”. 2.) Get your tickets for Cheryl’s Wedding. 3.) Get your green ready for St. Patrick’s Day (Yes O’Abkemeier celebrates St. Patty’s Day 4.) Join the volunteers to work the HSP picnic. 5.) Decide what flowers to plant. 6.) Make sure your beach wear and equipment are ready. 7.) Enjoy the sun!

NEIGHBORHOOD WATCH

This program was designed by the Sheriff’s Department to help them serve the communities better.

The Neighborhood Watch program operates on the concept that effective crime prevention requires cooperation with law enforcement. Neighborhood Watch is “neighbors looking out for the welfare of their neighbors.” It is a coalition of citizens who are concerned about the neighborhood where they live and are willing to become involved in the betterment of their community. It is only by working together that we can truly be effective in our fight against crime. It takes three ingredients to make a crime: desire, ability, and opportunity. Take away any ingredient and the recipe will fail; there will be no crime. Properly locked doors, neighborhood awareness, reporting suspicious persons or activity, identifying your valuables, all deprive the would-be criminal of an easy target. The best crime prevention device is a good neighborhood and good neighbors. The security steps you and your neighbors take as a group are just as important as the things you do individually.

Our Park is a safe neighborhood. However, we do have “uninvited guests” come through every now and then. It is important that you lock up all cars, bikes and valuables. Remember, most golf cart keys are universal. You should either place a lock on the steering wheel or chain it up. We had a bike stolen this season. Motion lights are a great deterrent.

Most shareholders were given a refrigerator magnet with the non-emergency Sheriff’s phone number (727-582-6200). This is a great number to have stored in your phone. If you see or hear anything suspicious, please call them. Should you see a crime in progress, call 911. Whether you call the Sheriff or not, please call Neighborhood Watch at one of the numbers listed below. We like to know what’s going on in our Park. Pam Grimm 740-415-5584 or Belinda Bellamy 214-417-1062.

ALL INFORMATION GIVEN TO NEIGHBORHOOD WATCH IS CONFIDENTIAL

Neighborhood Watch is always looking for new members to conduct joyrides for an hour or two between 9pm-6am. If this sounds like something you would be interested in, or you have questions, please call Pam Grimm at 740-415-5584.

Theater

David Middleton

You're invited to a fabulous wedding, so save the date. *Cheryl's Wedding* is a fast-paced, laugh-filled comedy set during a wedding where nothing goes as planned. As family, friends, and a mischievous resident ghost collide under one roof, romance tangles with chaos. With eccentric characters, unexpected twists, and a collapsing wedding cake adding to the mad cap mayhem, the show delivers a joyful, high-energy romp focused on love, family, and the beautiful messiness of big life moments.

Twice a week, the Way-Off-Broad Theatre Group has been in rehearsal for the two-act comedy with music, *Cheryl's Wedding*, which is a sequel to last year's *Bedroom with Benefits*. The talented cast includes Mike Barry, Linda Dunn, Sharon Rowe, Bernadette Drouin, Pat Hop, Paul Burke, Cal Fox, David Helms, Sherry Crain, Chris Rodgers, Rose Maiolino, Denise Dodson, Juliet Dudinsky, Marcia and Mitch Vanslokama.

The Production dates are March 12, 13, 14 and 15, 2026, and if you haven't bought tickets yet, you had better hurry, as they are going fast. Tickets will be on sale Tuesdays and Thursdays from 11 to noon in the clubhouse and at the Activities Meeting on Saturday, March 7th.

The show is written and directed by David Middleton with the invaluable assistance of Pat Merl as Stage Manager and Dolores Dwelis as Script Supervisor. Dale Duquet will be on Spotlight and Steve Sikorski is running stage lights. Come see what all the excitement is about!

Sunny days ahead

Sam was the worst meteorologist in the history of the science. When he forecast sunshine it would rain, if he said it would rain it would snow. After a miserable run on a local TV station in the Pacific Northeast, Sam decided to apply for a job in a small town in Arizona.

“So, what prompted your decision to leave Washington?” the Arizona station manager asked.

“The weather didn’t agree with me,” Sam replied.

Just the music

When a famous violinist told a wealthy patron that his fee to perform at her upcoming party would be \$5,000, she balked at the price, but agreed to pay it.

“Please keep in mind,” she added, “I do not expect you to mingle with the guests.”

The violinist replied, “In that case, it will only be \$4,000.”

Dan’s lucky night

Dan had a bad case of stage fright and was nervous about a presentation he was to give at the community business forum. He’d rushed there after supper, and as he took his seat, he realized he’d left his dentures at home.

“I don’t know how I’ll get through this,” he lamented to the man seated next to him. “Without my teeth, people might have a hard time understanding me.”

“You’re in luck,” the man replied. “I happen to have a pair of dentures in my pocket. They won’t be an exact fit, but it’ll be better than nothing.”

Dan tried the dentures and they weren’t too bad a fit. He made it through his presentation and afterward found his new friend. “This was my lucky night, forgetting my dentures and meeting a dentist with an extra set.”

“Oh, I’m not a dentist,” the man replied. “I’m an undertaker.”

Quotes

If you can find humor in your own troubles, you will actually begin to see them in a different light.

Kristine Joy Escarilla

If you could choose one characteristic that could get you through life, choose a sense of humor.

Be contrary to plumb new ideas

Following the crowd is usually a safe bet, but it doesn't usually lend itself to creative thinking. If you want to be creative, sometimes you have to go against the grain. The trick is figuring out when you have a situation that calls for you to stand out from the crowd and take a contrary point of view from the majority.

The first thing to do before launching your career as a rebel is ask yourself whether you have a good reason for your contrary opinion. Just going against the conventional wisdom for the sake of taking the other side isn't usually smart. For instance, if you think your organization should change the color of a product, but it has a long history of making the product in only one distinct color, you have to be able to back up your opinion with reasons why you think this will benefit the organization. You might believe, for example, that your product needs to be rebranded—that it has grown stale with time and overexposure. Even if you don't ultimately succeed, you'll stretch your creative muscles and show an ability to think independently, which can only boost your career.

Careers for creative types

You may consider yourself a creative person, an innovative thinker, an unconventional performer—but you're not cut out to be a starving artist or wait tables while waiting for your big break. What are your options? Look into these careers:

- **Teaching.** Teachers at any level have to be quick and creative when it comes to keeping their students' attention and presenting information in interesting ways.
- **Interior design.** Helping people create the space where they'll live and work calls for a wide range of talents and skills.
- **Catering.** Any kind of event-planning career requires skill in selecting and balancing the right ingredients, from the spices in the food to the arrangement of the venue.
- **Graphic design.** With the growth of the internet, the ability to create visually appealing graphics that are well organized as well as attractive is something employers are eagerly seeking.
- **Copy writing.** From advertising to in-depth web content, words are still important. Putting together readable, useful copy is an important skill, even in an age of multimedia.

Quotes

It's easy to come up with new ideas; the hard part is letting go of what worked for you two years ago, but will soon be out of date.

The weight of our words

Remember this cautionary tale the next time you're sniping and griping:

A man visited his pastor to speak of something that was troubling him. Earlier in the week he'd repeated a rumor about a neighbor only to find out later that it was not true. He felt had to do something to undo the damage he'd caused to his neighbor's reputation.

The pastor told him to take a bag full of feathers and place a feather on the doorstep of each individual he'd spoken to, and also those that the news was shared with. The man did as instructed, then returned to the church to find out what he should do next.

"Now return to every place you left a feather and collect them," the pastor said.

As the man walked through his village, he was surprised that he could not find a single feather on any of the doorsteps where they'd been placed. He did find a couple blowing about the yard at a house he had not visited, but they were carried off by a sudden gust. He once again returned to the church.

"Were you able to retrieve any of your feathers?" the pastor asked.

"No," the man replied. "The wind blew them all away."

"We are not always able to retrieve the things we put into the world," the pastor explained. "They can take on an energy all their own and travel great distances. Please keep this in mind and choose your words mindfully the next time you speak of another's character."

Where the magic is hiding

A woman visited a fortuneteller to find out if her future would be successful, but instead of answering any of the questions, the fortuneteller gave the woman a box. She explained that it was a magic box that had the power to make dreams come true. She handed the woman a notepad and told the woman to write down three things she wanted and then place the paper in the box. She told her to take the box home and shake it three times each morning upon waking and three times in the evening before going to bed, making sure to repeat her wishes aloud each time. The fortuneteller also told the woman she'd have to return the box in one year.

A year later, the woman once again visited the fortuneteller. "I followed your instructions, and everything I hoped for came true," the woman said. "This box really does hold powerful magic."

"My dear, the magic is not in that box," the fortune teller replied. "The magic is inside of you, reminding yourself of the things you wanted and helping awaken your determination to get them."

Use social media responsibly

Here are some tips for both parents and children to follow to help create an atmosphere of positive citizenry on social media channels:

- **Pause before you press “enter.”** You leave a permanent footprint on everything you post, creating the likelihood it can resurface at any time and call your character into question later. Resist the urge to be impulsive, spread gossip, or promote hate.
- **Apply the Golden Rule.** You are what you post, retweet, and share. Ask yourself these three questions of anything you feel inspired to post: Is it true? Will it cause anyone harm? What is my motivation for posting this?
- **Get permission/Give permission.** Before sharing someone else’s photos or content, make sure you have their OK and ask the same of your contacts.
- **Review your privacy settings.** They are there for a reason—to limit who can access your information and how they can use it. You have locks on the doors and windows of your home to keep unwanted guests out; do the same for your social media profiles and feeds.
- **Police the content that appears on your page.** Not everyone is mindful of the content they post. Occasionally, that inappropriate material will make its way onto your social media feed, where it can be viewed by your contacts and misinterpreted as something you favor. Don’t hesitate to block contacts and remove posts from your feed if they are offensive.
- **Exercise caution.** You wouldn’t allow your children to walk around with a sandwich board displaying their legal name, age, address, and other personal information, so don’t allow them to create detailed profiles that can be accessed by strangers the world over. Never divulge too much information about yourself, your current location, or future plans unless you want to fall victim to unscrupulous internet trolls.

One big, happy family

Here are a few tips to keep in mind if you are inheriting a blended family situation:

- **Establish routines.** This can be an emotional and confusing time for all, and it might take some time to figure out how this new dynamic functions. It will be less chaotic if your household and schedules are organized and in sync.
- **Everybody needs space.** To help family members adjust, make sure everyone has sufficient time and space to nurture their needs for privacy.
- **Find common bonds.** Figure out activities that the entire family can enjoy. You’ll also need to find activities that encourage bonding between stepparents and stepchildren.
- **Talk things over.** Check in with family members frequently, listen to what concerns they might have, and be willing to create an environment where dialogue is possible.
- **Don’t forget date night.** It’s easy to get lost in the identity of your roles in your new family, but shift the focus back to your marriage. Keep the romance alive by scheduling a meal away from home at a favorite restaurant or a night out on the town with your spouse.

Beat sleeplessness through awareness of the risks

Insomnia is becoming a problem in our society, and it's attributable to complex interactions among dozens of factors. One in three American adults don't get enough sleep every night, and that number may rise if we don't work collectively to try and improve our sleep patterns. As health care writer Anna Johansson points out, the effects of sleep deprivation are dangerous, both in the short and long term:

- **Lack of focus and memory.** As both a short-term and long-term effect, losing sleep can interfere with your ability to create new memories, and may make it more difficult to focus during the day. This makes it difficult to perform in most professional roles.
- **Declining cognitive abilities.** Sleep loss also hinders your cognitive capacity, making it more difficult to think critically or solve problems. This gets more intense with more sleeplessness over time.
- **Obesity and diabetes.** There's evidence to show that chronic sleeplessness can lead to obesity, as well as diabetes, which in turn can lead to even more serious health complications.
- **Heart disease and mortality.** Chronic lack of sleep may even increase the likelihood and severity of heart disease, and decrease your lifespan.

Coffee may cut risk of death, studies say

Starting the day with a cup of coffee helps many of us wake up. New evidence suggests it may help us live a longer life, too.

In one study written up in the journal *Annals of Internal Medicine*, researchers at the University of Southern California's Keck School of Medicine surveyed more than 185,000 Americans for 16 years. Their results: People who drank one cup of java a day were 12 percent less likely to die than those who didn't, and people who drank two to three cups were less likely to die by 18 percent—regardless of whether the coffee was caffeinated or not.

In another study reported in the same journal, researchers analyzed data from more than half a million people across Europe, and found that higher levels of coffee drinking were associated with a decrease in the risk of death from many causes, including circulatory and digestive tract diseases.

So enjoy your cup of coffee. It may add years to your life.

Keep your muscles strong at any age

As we grow older, we often lose muscle mass. Muscle mass decline typically starts in the 40s but increases after age 50. One study of about 200 men and women ages 64-93 found that it affected 22.6 percent of the women and 26.8 percent of the men.

Take these steps to keep your muscles intact:

- **Strength training.** Lifting weights has been shown to increase muscle mass and may even reverse the most debilitating effects of muscle loss.
- **Aerobic exercise.** Healthy muscle tissue needs capillaries to infuse it with blood. Regular exercise, like a brisk half-hour walk every day, can provide this.
- **Protein.** Inadequate protein in the diet, or difficulties digesting and absorbing protein, may be a factor in susceptibility to lost muscle mass. Older adults may need to increase their consumption of protein to maintain their lean body mass.

Living in a healthy state

Does the state where you live affect your health? Some U.S. states appear to be dramatically healthier than others, based on rates of infectious disease, obesity, smoking, infant mortality, air pollution, and other factors. United Health Foundation looked at the figures and identified the healthiest—and unhealthiest—states in the country:

- | | |
|-----------------|-----------------|
| Healthiest | Unhealthiest |
| • Massachusetts | • Mississippi |
| • Hawaii | • Louisiana |
| • Vermont | • Arkansas |
| • Utah | • Alabama |
| • Connecticut | • West Virginia |
