Parking in our Neighborhood

In the interest of safety for all, and as a reminder there is no parking on side streets and Windsor

Commercial, trade and professional service vehicles

1. Cones are no longer required, but smart for larger commercial vehicles for safety
2. Contractor, trade vehicles must be clearly marked, whether fully covered in advertising or simply magnetic door signs
3. Professional service vehicles ideally park on your car port or along either side of Regency. However, temporary parking passes can be provided by the community office

Personal Vehicles

1. Tires must not be on the sidewalk and parking in the grass is never permissible
2. Parking on any side streets or Windsor is not permitted, except for contractors while performing contracted work, or active loading or unloading. For personal vehicles—turn on hazard lights while actively loading/unloading. No tires on sidewalk or in grass. Never leave vehicle vacant for too long

Open Parking

1. Open parking is available 7 days a week, 24 hours a day everyday on both sides of the street—there is no reserved spots
2. Open parking around clubhouse, except 12midnight to 8am there is NO parking

Tow truck— vehicles that are lifted or towed are at the owner's expense

1. Tow truck driver may drop the vehicle for reduced cash payment. Always ask for a receipt
2. Tow company information is posted at the entrance of the community

Veterans Corner

For the Veterans and their proud families, I want to say thank you for your service.

It is the Veteran, not the Clergy, that allowed us, Freedom of Religion.
It is the Veteran, not the Politician, that fought for our right to Vote.
It is the Veteran, not the Lawyer, that fought for our right to a fair trial.
It is the Veteran, not the Poet, that fought for our right, for free speech.
It is the Veteran, not the Protester, that fought for our right to assemble.

Please remember the Veteran that sacrificed so much for us and our families not just on this Veterans Day, but all days in between.

Respectfully,

Anthony Suglia

November Birthstone

November has 2 birthstones citrine and topaz. Both stones are known for their warm, golden hues, which are fitting for the autumn season. Citrine, a variety of quartz, is prized for its yellow and orange shades, while topaz comes in a wide range of colors, with yellow being a popular choice for November.

Topaz has been valued for centuries, with ancient civilizations believing it held protective and healing properties. The Greeks associated it with strength, and Europeans believed it could dispel anger.

The name "topaz" may come from the Sanskrit word "tapas" (meaning "fire") or the Greek "topazos". During the Renaissance, it was thought to break spells and dispel anger.

The name "Citrine" also a yellow gemstone, was used by ancient Greeks, Romans, and Egyptians, often linked to sun gods like Ra and deities associated with harvest and healing.

It was used as a talisman for protection against evil and to manifest desires. The name "citrine" came into use in the late 14th century, possibly from the French "citron" (lemon).

November Awareness

- **Diabetes Awareness Month:**

Focuses on raising awareness about both type 1 and type 2 diabetes, and the importance of early detection and management.

November Fun Facts

November 1, 1800 – John Adams Becomes First President to Live in the White House

George Washington may have been the first president of the United States of America, but he didn't live in the White House. The second president of the United States was the first to live in the White House. President John Adams moved into the newly-built White House on November 1, 1800. At the time President Adams moved in.

November 8, 1895 – X-Rays Were Discovered

Nowadays, doctors rely on X-rays to diagnose injuries such as broken bones. German physicist Wilhelm Conrad Röntgen discovered this important diagnostic tool on November 8, 1895, by accident. Röntgen was doing an experiment to test if cathode rays could pass through glass. While working, he saw a glowing ray coming from a chemically coated screen in his lab. Confused by what he had seen, the physicist called the rays X-rays. Röntgen carried out experiments to better understand X-rays, which soon became an essential medical diagnostic tool that doctors still rely on today. His impressive discovery earned Röntgen the first-ever Nobel Prize for physics in 1901.

November 10, 1775 – U.S. Marine Corps Was Established

Captain Samuel Nicholson recruited the first Marine Corps at Tun Tavern in Philadelphia on November 10, 1775. Many people now consider this location to be the birthplace of the Marines. The Corps began as an aid in the Revolutionary War. Because of the high cost, officials disbanded the U.S. Marine Corps at the war's end. On July 11, 1798, Congress decided to recreate the United States Marine Corps. It serves under the Secretary of the Navy.

November 26, 1621

Many people believe that the first Thanksgiving took place in 1621. A group of English colonists and Wampanoag People came together to share a feast that lasted for three days. This marked the start of a long period of peace between the two groups that continued until around 1675. President Abraham Lincoln made Thanksgiving Day official in 1863. He declared a National Day of Thanksgiving for the last Thursday of November each year. Making November 26, 1863, the first official Thanksgiving.

November 22, 1963 – Assassination of President John F. Kennedy

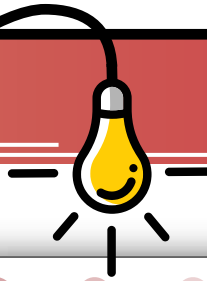

On November 22, 1963, John F. Kennedy, the 35th President of the United States, was shot, sending shockwaves through the world. He was traveling in a motorcade in Dallas, Texas. Despite rushing to the hospital, doctors could not save President Kennedy. Authorities arrested Lee Harvey Oswald for killing President Kennedy and for fatally shooting Patrolman J.D. Tippitt. During a brief ceremony on board Air Force One, a federal judge swore Lyndon B. Johnson in as president the same day.

November 26, 1922 – Discovery of the Most Important Pharaoh Tomb to Date

Archaeologists found the tomb of Pharaoh Tutankhamun, or King Tut, in Egypt on November 26, 1922. It had been undisturbed for over 3,000 years. Many experts consider their discovery the most important Ancient Egyptian discovery ever.

How to carve your turkey successfully

A good Thanksgiving dinner is usually about the turkey. You don't have to be a surgeon to carve one correctly, but proper carving and slicing techniques will ensure you get the most meat from your bird and enable you to present an attractive meal to your family and friends.

Follow these simple techniques for successfully carving your holiday turkey:

- Let your 10-pound-or-bigger turkey stand at room temperature for 10 to 20 minutes after cooking and before slicing. This allows the juices to distribute evenly throughout the turkey. Netting and cooking bags are also easier to remove after waiting.
- Slice or carve the turkey on a sanitized cutting surface. Knives, pans, and covers should be sanitized, too. Resanitize boards and knives every 30 minutes. Wear disposable food-handling gloves while carving or frequently wash your hands thoroughly.
- Immediately after the 10 to 20 minutes holding time, carve the turkey into major sections (i.e., breasts, thighs, drumsticks, and wings).
- To serve turkey hot, place sections in pans. Cover with foil or plastic film to retain heat and moisture and to minimize the possibility of contamination. Hold at 140° F or higher in a hot holding device (a cabinet, steam table, or bain-marie). Your turkey should be at least 140° F when placed in the holding pans. The heating device will only maintain temperature. A maximum holding time of 20 to 30 minutes is recommended.
- Slice the sections into serving pieces, arrange them on a plate, and add garnish. Enjoy!

Quotes:

If the only prayer you said in your whole life was, "thank you," that would suffice.
—**Meister Eckhart**

What we're really talking about is a wonderful day set aside on the fourth Thursday of November when no one diets. I mean, why else would they call it Thanksgiving?
—**Erma Bombeck**

A thankful heart is not only the greatest virtue, but the parent of all the other virtues.
—**Cicero**

Where do alligator shoes come from?

A lawyer from the big city was visiting Florida. He wanted to take home a pair of genuine alligator loafers in the worst way, but he was reluctant to pay the high prices the local vendors were asking.

He was certain that with all his legal training he could negotiate a better price, but at shop after shop he had no luck. After getting frustrated with one sales associate who wouldn't budge, the lawyer shouted, "Well then, maybe I'll just go out and catch my own alligator!"

The saleswoman smiled. "I'd like to see you try."

The lawyer turned on his heel and headed out toward the swamps, determined to catch an alligator.

Later in the day the saleswoman was driving home, and she spotted the lawyer standing waist deep in the murky swamp water, shotgun in hand, a huge 9-foot gator swimming rapidly toward him. The saleswoman pulled over as the lawyer took aim, shot, and killed the creature. With a great deal of effort, the lawyer hauled it onto the swamp bank—right next to four more dead alligators.

The saleswoman stood on the side of the road, watching the lawyer struggle to flip the gator on its back.

Then, looking up toward the sky in great frustration, the lawyer shouted, "No! This one is barefoot, too!"

A Teachable Moment

A kindergarten teacher was helping one of her students put his boots on. It was quite a struggle, but after a lot of pulling and pushing, they succeeded in getting one boot on, and then the other.

Then the little boy said, "But they're on the wrong feet!" The teacher looked and sure enough, he was right. Pulling the boots off wasn't any easier than putting them on was, but she managed to stay calm as they worked together to get the boots back on—this time on the right feet.

"Why are your boots so hard to get on?" she asked when they were finished.

"But these aren't my boots," the boy said.

"Why didn't you say so? Take them off." And they worked up a sweat getting the boots off again.

"Now, where are your boots?" the teacher asked.

"They're at home. These are my brother's boots. My mom made me wear them."

"OK . . ." the teacher sighed, and again they fought to get the boots back on the little boy's feet. "Now, where are your mittens?"

"I stuffed them in the toes of my boots," the little boy said.
